
Overview

This standard is about

- 1 interpreting information
- 2 adopting safe and healthy working practices
- 3 selecting materials, components, consumables and equipment
- 4 installing plant or machinery for operational activities

COSVR667 - SQA Unit Code H4HJ 04

Install plant or machinery for operational activities

Performance criteria

- You must be able to:*
- P1 interpret the given information relating to the work and resources to confirm its relevance
 - P2 comply with the given, relevant legislation and official guidance to carry out your work and maintain safe and healthy work practices
 - P3 select the required quantity and quality of resources for the methods of work
 - P4 comply with organisational procedures to minimise the risk of damage to the work and surrounding area
 - P5 comply with the given contract information to carry out the work efficiently to the required specification
 - P6 complete the work within the allocated time, in accordance with the programme of work

COSVR667 - SQA Unit Code H4HJ 04

Install plant or machinery for operational activities

Knowledge and understanding

You need to know and understand:

Performance Criteria 1

Interpretation of information

- K1 the organisational procedures developed to report and rectify inappropriate **information** and unsuitable **resources**, and how they are implemented
- K2 the types of **information**, their source and how they are interpreted
- K3 the organisational procedures to solve **problems** with the **information** and why it is important they are followed

Performance Criteria 2

Safe work practices

You need to know and understand:

- K4 the level of understanding operatives must have of **information** for relevant, current **legislation and official guidance** and how it is applied
- K5 how **emergencies** should be responded to and who should respond
- K6 the organisational **security procedures** for tools, equipment and personal belongings
- K7 what the accident reporting procedures are and who is responsible for making the report
- K8 why, when and how **health and safety control equipment** should be used

Performance Criteria 3

Selection of resources

You need to know and understand:

- K9 the characteristics, quality, uses, sustainability, limitations and defects associated with the **resources** and how defects should be rectified
- K10 how the **resources** should be used and how any **problems** associated with the **resources** are reported
- K11 the organisational procedures to select **resources**, why they have been developed and how they are used
- K12 the **hazards** associated with the **resources** and **methods of work** and how they are overcome

COSVR667 - SQA Unit Code H4HJ 04

Install plant or machinery for operational activities

Performance Criteria 4

Minimise the risk of damage

You need to know and understand:

K13 how to **protect work** from damage and the purpose of protection

K14 why **disposal of waste** should be carried out safely and how it is achieved

Performance Criteria 5

Meet the contract specification

You need to know and understand:

K15 how **methods of work**, to meet the specification, are carried out and **problems** reported

K16 how **maintenance** of tools and equipment is carried out

Performance Criteria 6

Allocated time

You need to know and understand:

K17 what the **programme** is for the work to be carried out in the estimated, allocated time and why deadlines should be kept

Additional Information

Scope/range related to performance criteria

Performance Criteria 1

- 1 interpretation of drawings, specifications, schedules, method statements, risk assessments, installation manuals and manufacturers' information related to the work to be carried out

Performance Criteria 2

- 2 avoidance of risk by complying with the given information relating to at least five of the following
 - 2.1 methods of work
 - 2.2 safe use of health and safety control equipment
 - 2.3 safe use of access equipment
 - 2.4 safe use, storage and handling of materials
 - 2.5 safe use and storage of tools and equipment
 - 2.6 specific risks to health

Performance Criteria 3

- 3 selection of resources associated with own work
 - 3.1 materials, components and fixings
 - 3.2 tools and equipment
 - 3.3 consumables

Performance Criteria 4

- 4 protection of the work and its surrounding area from damage
- 5 minimise damage and maintain a clean work space
- 6 disposal of waste in accordance with current legislation

Performance Criteria 5

- 7 demonstration of work skills to measure, mark, align, lay, level, plumb, adjust, fit, connect, fix, fasten and secure
- 8 use and maintain hand tools, portable power tools, measuring instruments and ancillary equipment
- 9 install plant or machinery to given working instructions for at least one of the following
 - 9.1 crane (mobile or ringer)
 - 9.2 tower crane
 - 9.3 hoist (passenger, goods or building maintenance units)
 - 9.4 rig (demolition, piling or drilling)
 - 9.5 excavation or vacuum plant or machinery
 - 9.6 batching, mixing or blending plant

COSVR667 - SQA Unit Code H4HJ 04

Install plant or machinery for operational activities

- 9.7 crushing or screening plant
- 9.8 power generation equipment
- 9.9 pump
- 9.10 climate management machinery
- 9.11 concrete placing boom
- 10 complete functional, operational and safety checks
- 11 complete and maintain records

Performance Criteria 6

- 12 completion of own work within the estimated, allocated time to meet the needs of other occupations and/or client

Install plant or machinery for operational activities

Scope/range related to knowledge and understanding

Disposal of waste

- 1 environmental responsibilities, organisational procedures, manufacturers' information, statutory regulations and official guidance

Emergencies

- 2 operative's response to situations in accordance with organisational authorisation and personal skills when involved with
 - 2.1 fires, spillages, injuries
 - 2.2 emergencies relating to occupational activities

Hazards

- 3 those identified by risk assessment, method of work, manufacturers' technical information, statutory regulations and official guidance

Health and safety control equipment

- 4 identified by the principles of protection for occupational use, types and purpose of each type, work situations and general work environment
 - 4.1 collective protective measures
 - 4.2 personal protective equipment (PPE)
 - 4.3 respiratory protective equipment (RPE)
 - 4.4 local exhaust ventilation (LEV)

Information

- 5 drawings, specifications, schedules, method statements, risk assessments, installation manuals, manufacturers' information and current regulations associated with the installation of plant and machinery

Legislation and official guidance

- 6 this relates to the operative's responsibilities regarding potential accidents and health hazards whilst working in the workplace, below ground level, in confined spaces, at height, with tools and equipment, with materials and substances, with movement/storage of materials and by manual handling and mechanical lifting

Maintenance

- 7 operative care of hand tools and portable power tools, measuring instruments and ancillary equipment

Install plant or machinery for operational activities

Methods of work

- 8 application of knowledge for safe and healthy work practices, procedures and skills relating to the method/area of work and materials used to:
 - 8.1 install plant and machinery; mobile and ringer cranes, tower cranes, passenger and goods hoists, piling and drilling rigs, excavation plant or machinery, batching plants, crushing and screening plants, power generation equipment, pumps, climate management machines
 - 8.2 assess suitability of conditions for installation requirements (site layout, location, availability of space, levels, prevailing weather conditions)
 - 8.3 operate and control lifting equipment and lifting aids
 - 8.4 confirm the integrity of lifting accessories
 - 8.5 consider the resources required for the installation of plant and machinery
 - 8.6 confirm parts, components, attachments, accessories are available to complete the installation
 - 8.7 secure plant and machinery parts and components for movement and lifting into position
 - 8.8 align, attach and secure plant and machinery parts and components (tied in, pinned, clamped, bolted and screwed)
 - 8.9 fixing plant or machinery to load bearing structures
 - 8.10 install and test anchors and ties
 - 8.11 route, lay, connect and secure cables, pipes and hoses
 - 8.12 connect power supplies
 - 8.13 make adjustments to ensure optimum operational function
 - 8.14 liaise with client, customer or their representatives
 - 8.15 deal with damages and defects that can occur during installation, misaligned components, cracked casings and housings, leaks, scoring and marking of parts and components and breakages
 - 8.16 confirm installation functionality meets quality expectations
 - 8.17 complete functional operational and safety checks
 - 8.18 use hand tools, portable power tools and equipment
 - 8.19 work at height
 - 8.20 use access equipment
 - 8.21 complete and maintain records

COSVR667 - SQA Unit Code H4HJ 04

Install plant or machinery for operational activities

- 9 team work and communication
- 10 needs of other occupations associated with the installation of plant or machinery

Problems

- 11 those arising from information, resources and methods of work
 - 11.1 own authority to rectify
 - 11.2 organisational reporting procedures

Programme

- 12 types of progress charts, timetables and estimated times
- 13 organisational procedures for reporting circumstances which will affect the work programme

Protect work

- 14 protect work against damage from general workplace activities, other occupations and adverse weather conditions

Resources

- 15 materials, components and equipment relating to types, quantity, quality, sizes and the sustainability of standard and/or specialist:
 - 15.1 lifting accessories
 - 15.2 fastening, ties, anchors and fixings
 - 15.3 consumables
 - 15.4 measuring and levelling equipment
 - 15.5 hand tools, portable powered tools and equipment
- 16 methods of calculating quantity, length, volume, area and wastage associated with the method/procedure to install plant and machinery for operational activities

Security procedures

- 17 site, workplace, company and operative

COSVR667 - SQA Unit Code H4HJ 04

Install plant or machinery for operational activities
