

LANH52 - SQA Unit Code H539 04

Carry out post-harvest activities

Overview

This standard covers activities which are carried out following harvesting. It could include activities such as selection, cleaning, drying, pre-storage treatments, grading, quality control, packing and labelling. The types of preparation activities will depend on the crop involved and the customer or market requirement.

You will be working in accordance with instructions and specifications.

This standard is suitable for anyone who carries out post-harvest operations to prepare a harvested crop for transfer to customer or storage.

Glossary

Equipment could be manual or mechanical

Post-harvest activities:

- selection
- grading
- trimming
- packing/containering
- labelling
- cleaning
- drying
- pre-storage treatments
- quality control

Specifications:

- schedules
- method statements
- Standard Operating Procedures (SOPs)
- manufacturers guidelines
- customer requirements
- crop requirements

Instructions could be verbal or written.
