

H5NH 04 (SCDHSC0028) — Support Individuals to Make Journeys

Overview

This standard identifies the requirements when supporting individuals to make journeys. This includes planning the journey and accompanying the individual on the journey while this is required.

Additional Information

Scope/range related to Performance Criteria

The details in this field are explanatory statements of scope and/or examples of possible contexts in which the NOS may apply; they are not to be regarded as range statements required for achievement of the NOS.

NOTE: Where an individual finds it difficult or impossible to express their own preferences and make decisions about their life, achievement of this standard may require the involvement of advocates or others who are able to represent the views and best interests of the individual.

Where there are language differences within the work setting, achievement of this standard may require the involvement of interpreters or translation services.

Active participation is a way of working that regards individuals as active partners in their own care or support rather than passive recipients. Active participation recognises each individual's right to participate in the activities and relationships of everyday life as independently as possible.

The individual is the person you support or care for in your work.

A journey is any outing to support an individual's independence and enable them to take as much control over their life as possible

Key people are those who are important to an individual and who can make a difference to his or her well-being. Key people may include family, friends, carers and others with whom the individual has a supportive relationship.

Others are your colleagues and other professionals whose work contributes to the individual's well-being and who enable you to carry out your role.

A **risk** takes account of the likelihood of a hazard occurring and may include the possibility of danger, damage or destruction to the environment and goods; the possibility of injury and harm to people.

Scope/range related to Knowledge and Understanding
