

SUMHV07 (SQA Unit Code – H9LE 04)

Commission industrial and commercial heating and ventilating systems

Overview

This standard is for people who commission industrial and commercial heating and ventilating systems.

The person performing this work must be able to comply with the correct procedures and practices for commissioning industrial and commercial heating and ventilating systems. This work must be in accordance with the current versions of the appropriate industry standards and regulations; the specification; industry recognised working practices; the working environment and the natural environment. They must know and understand the operation, types, and application of the following systems:

Pipework

- hot water
- cold water
- chilled water
- compressed air
- steam

and/or

Ductwork

- supply, extract and re-circulation
- local exhaust ventilation
- low, medium and high pressure air
- kitchen extract

Please note that industry specific terminology is identified by *italic* text and its explanation and/or definition can be found in the glossary of this standard.

SUMHV07 (SQA Unit Code – H9LE 04)

Commission industrial and commercial heating and ventilating systems

Performance criteria

To perform this work in accordance with the current versions of *the appropriate industry standards and regulations, the specification, working practices, the working environment and the natural environment*

You must be able to:

- P1 verify that the job information and documentation are current and relevant and that the **plant**, instruments, *access equipment* and tools to be used are fit for purpose
- P2 produce a risk assessment and method statement in accordance with **organisational procedures** for the work to be carried out, including the identification and use of *personal protective equipment*
- P3 confirm before work starts that the work location and work area can be accessed safely and has been checked for the risk to other personnel on the **site**, and take appropriate action if a risk is present
- P4 confirm that the **equipment, components and accessories** installed are:
 - P4.1 of the right type and size
 - P4.2 fit for purpose in accordance with the **system's** design
 - P4.3 suitable for the **working environment** in which they are installed
- P5 confirm, as required, that the **site services** are compatible with the **system's** design
- P6 carry out checks prior to commissioning to ensure that the **equipment, components and accessories** have been fitted and connected in accordance with
 - P6.1 the **system's** design
 - P6.2 the **working environment**
 - P6.3 manufacturer instructions
- P7 comply with industry practices and **organisational procedures** to ensure the co-ordination of **site services** and the activities of other trades
- P8 commission **equipment, components and accessories**, adjusting the controls to ensure the configuration, safety and effective performance of the **system** in accordance with:
 - P8.1 the **system's** design
 - P8.2 the **working environment**
 - P8.3 manufacturer instructions
 - P8.4 **organisational procedures**

SUMHV07 (SQA Unit Code – H9LE 04)

Commission industrial and commercial heating and ventilating systems

-
- P9 confirm with the **relevant people**:
 - P9.1 those necessary variations to the planned programme of work
 - P9.2 the actions to be taken to ensure that any variations to the planned programme of work will minimise the potential for hazard and risk
 - P10 obtain *customer/client* acceptance of the commissioned **system** and its associated **equipment, components and accessories** in accordance with **organisational procedures**
 - P11 complete relevant documentation in accordance with **organisational procedures**

SUMHV07 (SQA Unit Code – H9LE 04)

Commission industrial and commercial heating and ventilating systems

Knowledge and understanding

To perform this work in accordance with the current versions of *the appropriate industry standards and regulations, the specification, working practices, the working environment and the natural environment*

You need to know and understand:

- K1 the operation, applications, advantages and limitations of different **systems** and their associated **equipment, components and accessories** in relation to:
 - K1.1 the **system's** design
 - K1.2 the **working environment**
- K2 the **appropriate industry standards and regulations** relevant to commissioning industrial and commercial heating and ventilating **systems**
- K3 how to verify that job information and documentation is current and relevant and that the **plant**, instruments, *access equipment* and tools to be used are fit for purpose
- K4 how to produce a risk assessment and method statement for the work to be carried out, including the identification and use of *personal protective equipment*, in accordance with:
 - K4.1 the **system's** design
 - K4.2 the conditions of the **working environment**
 - K4.3 **organisational procedures**
 - K4.4 activities of other personnel and operations on **site**
- K5 the checks required to confirm that the **equipment, components and accessories** have been fitted and connected in accordance with:
 - K5.1 the **system's** design
 - K5.2 the conditions of the **working environment**
 - K5.3 manufacturer instructions
- K6 how to interpret diagrams and drawings of the **system** to locate **site services**
- K7 how to interpret diagrams and drawings of the **system** to identify the location of the **system's** associated **equipment, components and accessories**
- K8 the methods and techniques for commissioning the **system** and its associated **equipment, components and accessories** in accordance with:
 - K8.1 the **system's** design
 - K8.2 the **working environment**
 - K8.3 manufacturer instructions

SUMHV07 (SQA Unit Code – H9LE 04)

Commission industrial and commercial heating and ventilating systems

- K8.4 **organisational procedures**
- K9 the methods, techniques and procedures used to carry out, as required, **soundness testing** to confirm the integrity of the **system** and its associated **equipment, accessories and components**
- K10 the methods and techniques for commissioning the **system** and its associated **equipment, components and accessories**, adjusting the controls to ensure the configuration, safety and effective performance of the **system** in accordance with:
 - P10.1 the **system's** design
 - P10.2 the **working environment**
 - P10.3 manufacturer instructions
 - P10.4 **organisational procedures**
- K11 the **organisational procedures** for:
 - K11.1 confirming with **relevant people** those necessary variations to the planned programme of work that may have the potential to introduce a hazard and/or impact
 - K11.2 confirming with **relevant people** the correct actions to be taken to ensure that any variations to the planned programme of work will not introduce a hazard and have minimum impact on the commissioning work to be undertaken
 - K11.3 obtaining *customer/client* acceptance of the commissioned **system** and its associated **equipment, components and accessories**
 - K11.4 the completion of all relevant documentation

Commission industrial and commercial heating and ventilating systems

Additional information

Scope related to performance criteria and knowledge and understanding:

The contexts and circumstances below identify where and when the NOS could apply.

1 Working Environment (Internal and/or External)

- 1.1 commercial
- 1.2 industrial
- 1.3 agricultural/horticultural
- 1.4 leisure and entertainment
- 1.5 residential medical and care facilities
- 1.6 *public services establishments*
- 1.7 pre 1919 traditional/historic buildings

2 Site services

- 2.1 electricity
- 2.2 water
- 2.3 gas
- 2.4 oil

3 Systems

Industrial and commercial heating and ventilating ductwork

- 3.1 supply, extract and re-circulation
- 3.2 local exhaust ventilation
- 3.3 low, medium and high pressure air
- 3.4 kitchen extract

Industrial and commercial heating and ventilating pipework

- 3.5 hot water – open vented/indirect/secondary circulation/instantaneous
- 3.6 cold water – storage/none storage
- 3.7 chilled water systems – air conditioning, refrigeration, heat rejection
- 3.8 warm air
- 3.9 compressed air
- 3.10 fire protection
- 3.11 steam

SUMHV07 (SQA Unit Code – H9LE 04)

Commission industrial and commercial heating and ventilating systems

4 Equipment, components and accessories

- 4.1 air handling units
- 4.2 fans
- 4.3 dampers
- 4.4 access doors
- 4.5 terminal units
- 4.6 laboratory fume cupboards
- 4.7 storage cabinets
- 4.8 ventilation hoods
- 4.9 filters
- 4.10 humidifiers
- 4.11 metal and flexible ductwork
- 4.12 measuring instruments
- 4.13 fuel-fired boilers (gas; oil; solid fuel)
- 4.14 hot water storage vessels
- 4.15 water heaters
- 4.16 pumps
- 4.17 heat emitters and exchangers
- 4.18 burners
- 4.19 flues
- 4.20 cisterns
- 4.21 refrigeration plant
- 4.22 air conditioning plant
- 4.23 calorifiers
- 4.24 valves
- 4.25 compressors
- 4.26 receivers
- 4.27 filters
- 4.28 pressure vessels
- 4.29 sprinkler heads
- 4.30 traps and strainers
- 4.31 measuring instruments
- 4.32 environmental technology equipment

SUMHV07 (SQA Unit Code – H9LE 04)

Commission industrial and commercial heating and ventilating systems

4.33 prefabricated modules

5 **Site**

5.1 new build construction

5.2 existing building

6 **Plant**

6.1 generators

6.2 transformers for low voltage hand-tools

6.3 lifting equipment

6.4 *access equipment*

7 **Organisational procedures**

7.1 information management

7.2 project management

7.3 risk assessment and management

7.4 implementing and monitoring health and safety requirements and issues

7.5 implementing and monitoring issues relating to the *natural environment*

7.6 customer service

7.7 accident reporting

7.8 emergencies

7.9 communication with relevant people

SUMHV07 (SQA Unit Code – H9LE 04)

Commission industrial and commercial heating and ventilating systems

Range related to performance criteria and knowledge and understanding:

The contexts and circumstances below identify where and when the NOS must apply

1 Relevant people

- 1.1 *customers/clients*
- 1.2 client representatives
- 1.3 supervisors
- 1.4 site/contract manager
- 1.5 other contractors/trades
- 1.6 members of the public
- 1.7 work colleagues

2 Soundness testing

- 2.1 pressure
- 2.2 system hygiene and charging
- 2.3 performance

SUMHV07 (SQA Unit Code – H9LE 04)

Commission industrial and commercial heating and ventilating systems

Glossary

Appropriate industry standards and regulations for:

- construction design and management
- controlling noise at work
- controlling asbestos in the work place
- controlling substances hazardous to health
- electricity at work
- managing health and safety at work
- manual handling operations
- personal protection at work
- provision and use of work equipment
- recycling and disposal of waste electrical and electronic equipment
- the quality of buildings and building work in England, Northern Ireland, Scotland and Wales
- working at heights
- workplace health and safety and welfare
- environmental protection
- heritage/historic building requirements
- brazing/jointing standards
- requirements for electrical installations
- carriage of Dangerous Goods (Classification, Packaging and Labelling) and use of transportable pressure receptacles

Specification

A verbal and/or documented instruction that is an explicit set of requirements for commissioning identified systems, equipment or products, to be satisfied by materials, components, design, processes, procedures, data management and/or service(s).

SUMHV07 (SQA Unit Code – H9LE 04)

Commission industrial and commercial heating and ventilating systems

Clients and customers

- purchaser of installation services
- other trades and services at the work site
- colleagues within the same organisation
- architect
- contract manager
- main/Sub-contractor
- consultant
- local authority representatives
- work colleagues

A public services establishment can be a:

- hospital/medical centre
- school/college/university
- museum/library
- prison
- military base
- car park
- places of worship

Natural environment

The climate, weather and natural resources that effect and are affected by human life and economic activity

Working practices

Methods, techniques and procedures that are adopted for performing specific tasks that ensures workers' exposure to hazardous situations is controlled in a safe manner when:

- working with equipment, tools and plant
- working with materials and substances (hazardous and non-hazardous)
- manual handling lifting
- using lifting equipment
- using personal protective equipment (PPE)

Access equipment

- scaffold
- ladders
- steps
- staging
- trestles
- mobile elevated work platform (MEWP)

Personal protective equipment (PPE)

- safety helmets/hats
- hairnets
- gloves
- safety steel toe capped boots/shoes
- safety spectacles/goggles
- face shields/visors
- ear plugs/muffs
- conventional or disposable overalls, boiler suits, aprons, chemical suits
- respiratory protective equipment (RPE)

Pipework

- copper pipes
- low carbon steel pipes
- plastic pipes
- flanges
- joints
- fitting and fixing accessories
