Deal with incoming telephone calls from customers

Overview

This Standard is part of the Customer Service Theme of Impression and Image. This Theme covers the Customer Service behaviours and processes that have most impact on the way your customer sees you and your organisation. Remember that customers include everyone you provide a service to. They may be external to your organisation or they may be internal customers.

Many organisations deal with incoming telephone calls as a key part of their customer service. Customer expectations are high when calling organisations because they have had an opportunity to prepare for their call. In addition, many calls start with customers in a negative frame of mind because they see making a call as a way of dealing with a customer service problem. This Standard is about being prepared to deal effectively with calls and using effective communication to satisfy customers with the outcome of each incoming call.
