

## CFACSB8 (SQA Unit Code – H9Y3 04) Maintain customer service through effective handover

---

### Overview

This Standard is part of the Customer Service Theme of Delivery. This Theme covers Customer Service behaviours and processes that have most effect on the customer experience during Customer Service delivery. Remember that customers include everyone you provide a service to. They may be external to your organisation or they may be internal customers.

Customer service delivery in a team involves many situations when you are unable to see actions through and you pass on responsibility to a colleague. This sharing of responsibility should be organised and follow a recognised pattern. Most of all you need to be sure that, when responsibility is passed on, the actions are seen through. This involves routinely checking with your colleagues that customer service actions have been completed. This Standard is for you if your job involves service delivery as part of a team and you regularly pass on responsibility for completion of a customer service action to a colleague.
