Show understanding of customer service management

Overview

This Standard is part of the Customer Service Theme of Customer Service Foundations. The Theme covers the language and concepts of Customer Service as well as the organisational context and the external environment in which you work. Remember that customers include everyone you provide a service to. They may be external to your organisation or they may be internal customers.

Management responsibilities in a role that is directly related to customer service generally involve a set of skills, knowledge and understanding that might be expected of any manager. However, the nature of customer service means that, if you have specific customer service responsibilities, there is a further skills and knowledge set that you need. This Standard covers the key principles of customer service that influence how it is managed and the links between your management responsibilities and those key principles. The Standard also recognises that knowledge and understanding of customer service principles and systems required in a management role may not be as detailed as that required in a delivery role. Instead, knowledge and understanding must relate clearly to a more strategic appreciation of the principles of customer service. This Standard provides the opportunity to demonstrate the knowledge and understanding that is needed to be effective in customer service management.
