

CCSCR13 - SQA Unit Code HH9X 04

Select and use techniques, materials, tools and equipment for craft

Overview

This standard is about selecting and using techniques, materials, tools and equipment as part of the design and making process. It is important to have an understanding of the most relevant techniques, materials, tools and equipment for the development and making of craftworks, or for testing and experimenting to appreciate the limits of these to understand and develop new processes and ideas.

This standard is suitable for those who are self-employed, working for a sole practitioner or within a workshop or studio.

The following should be considered when working in craft:

- 1 Safe working practices
- 2 Ethics and sustainability

**Performance
criteria**

- You must be able to:*
- P1 identify techniques, materials, tools and equipment you might use
 - P2 conduct research to inform the selection and use of techniques, materials, tools, and equipment
 - P3 set up a safe work space
 - P4 develop techniques, materials, tools and equipment for craftwork
 - P5 record or document the use of techniques, materials, tools, and equipment
 - P6 evaluate or gain feedback on the use of techniques, materials, tools, and equipment
 - P7 store materials, tools and equipment safely

Knowledge and understanding

You need to know and understand:

- K1 the importance of understanding the use of techniques, materials, tools, and equipment
- K2 how to identify the techniques, materials, tools and equipment required
- K3 how to research techniques, materials, tools, and equipment
- K4 how to obtain materials, tools and equipment
- K5 how to set up a safe work space
- K6 how to prepare materials, tools and equipment
- K7 how to select the techniques required to produce the craftwork
- K8 how to modify the techniques, materials, tools and equipment
- K9 how to record and document the use of techniques, materials, tools and equipment
- K10 how to evaluate outcomes
- K11 how to store materials, tools and equipment safely
