
Overview

This standard is about the restoration, conservation and reconstruction of craftwork, which may have been made by you or others.

This standard is suitable for those who are self-employed, working for a sole practitioner or within a workshop or studio.

The following should be considered when working in craft:

- 1 Safe working practices
- 2 Ethics and sustainability

Performance criteria

<i>You must be able to:</i>	P1	identify craftwork that needs restoration, conservation or reconstruction
	P2	survey, assess and record the found condition of the craftwork
	P3	survey, assess and record the history of the craftwork
	P4	describe any earlier interventions and their impact on the found condition of the craftwork
	P5	research different methods of restoration, conservation or reconstruction work
	P6	define objectives for proposed restoration, conservation or reconstruction work
	P7	justify a rationale for proposed restoration, conservation or reconstruction work
	P8	identify when and where to get help and advice from other experts or statutory bodies
	P9	estimate the time and costs of proposed work
	P10	select suitable techniques, materials, tools and equipment for restoration, conservation or reconstruction work
	P11	record activities undertaken
	P12	store artefacts or components
	P13	plan future maintenance of the craftwork
	P14	evaluate how successful the restoration, conservation or reconstruction has been

Knowledge and understanding

You need to know and understand:

- K1 the importance of craft restoration, conservation and reconstruction
- K2 the different approaches to craft restoration, conservation and reconstruction
- K3 the contextual application of restoration, conservation and reconstruction in craft
- K4 how to survey and record the condition of an existing craftwork
- K5 how to develop a rationale for craft restoration, conservation and reconstruction
- K6 the requirements and restrictions of statutory preservation orders
- K7 where and when to get expert help and advice
- K8 how to estimate time and costs
- K9 the appropriate techniques, materials and tools for restoration, conservation and reconstruction
- K10 the different methods of restoration, conservation and reconstruction
- K11 where to source and obtain materials and tools or alternatives
- K12 how to apply appropriate techniques, materials and tools
- K13 how to record activities
- K14 how to store artefacts or components
- K15 how to plan future maintenance
- K16 how to evaluate the restoration, conservation or reconstruction work
