
Overview

This standard is about

- 1 interpreting information for quality standards of the work being carried out
- 2 implementing checks on the quality of work
- 3 confirming work meets with quality standards
- 4 performing a supervisory role within craft and operative work areas as associated with work carried out in the built environment

**Performance
criteria**

- You must be able to:*
- P1 identify quality standards from available information and clearly specify to the people responsible for their implementation
 - P2 regularly check that work conforms to the design requirements and the specified quality standards
 - P3 identify work that fails to meet the requirements and specified quality standards and implement corrective action
 - P4 regularly inform decision makers about any significant variations in quality standards

Knowledge and understanding

You need to know and understand:

Performance Criteria 1

Quality standards

- K1 how to identify what the **quality standards** are
- K2 how to pass **quality standards** on to **people responsible** for their implementation during the contract

Performance Criteria 2

Checks on the quality of work

You need to know and understand:

- K3 how to check that **work** conforms to the design requirements and the specified **quality standard**

Performance Criteria 3

Failures in work quality

You need to know and understand:

- K4 how to identify what **work** fails to meet the requirements and specified **quality standards**
- K5 how to implement corrective action where **work** fails to meet the requirements and specified **quality standards**

Performance Criteria 4

Informing decision makers

You need to know and understand:

- K6 how to inform decision makers about significant variations in **quality standards**
- K7 when actions are needed to take account of variations in **quality standards**

Additional Information

**Scope/range
related to
performance
criteria**

Performance Criteria 1

- 1 record(s) of identified quality standards and specified responsibilities passed to relevant people

Performance Criteria 2

- 2 record(s) of inspection and control procedures for quality work

Performance Criteria 3

- 3 record(s) of work defects and required corrective action to be taken

Performance Criteria 4

- 4 record(s) of information referred to others which include(s)
 - 4.1 correction of unacceptable quality standards
 - 4.2 notification to decision makers

Confirm work meets quality standards

**Scope/range
related to
knowledge and
understanding**

People responsible

- 1 suppliers
- 2 workforce
- 3 project team

Quality standards

- 4 statutory requirements
- 5 project specifications
- 6 British Standards
- 7 Codes of Practice
- 8 organisational standards
- 9 best practice
- 10 manufacturer's information
- 11 environmental information
- 12 warranties

Work

- 13 materials, components and their use
- 14 methods of work

COSVR216 – HL6L 04

Confirm work meets quality standards

Developed by	ConstructionSkills
Version number	2
Date approved	January 2011
Indicative review date	February 2016
Validity	Current
Status	Original
Originating organisation	ConstructionSkills
Original URN	VR216
Relevant occupations	Construction and Building Trades Supervisors
Suite	Occupational Work Supervision (Construction); Thermal Insulation (Construction)
Key words	Supervisory; Quality-standards; British Standards; Codes of Practice; Manufacturer's information
