

---

**Overview**

This standard is about

- 1 interpreting information
- 2 adopting safe and healthy working practices
- 3 providing protection to the work area
- 4 selecting and preparing materials and associated equipment
- 5 setting-up of the material supply equipment
- 6 operating and maintaining the blast system in support of the abrasive blast cleaner

**Performance  
criteria**

- You must be able to:*
- P1 interpret the given information relating to the work and resources to confirm its relevance
  - P2 comply with the given, relevant legislation and official guidance to carry out your work and maintain safe and healthy work practices
  - P3 select the required quantity and quality of resources for the methods of work
  - P4 comply with organisational procedures to minimise the risk of damage to the work and surrounding area
  - P5 comply with the given contract information to carry out the work efficiently to the required specification
  - P6 complete the work within the allocated time, in accordance with the programme of work

---

**Knowledge and understanding**

**Performance Criteria 1**

**Interpretation of information**

*You need to know and understand:*

- K1 the organisational procedures developed to report and rectify inappropriate **information** and unsuitable **resources**, and how they are implemented
- K2 the types of **information**, their source and how they are interpreted
- K3 the organisational procedures to solve **problems** with the **information** and why it is important they are followed

**Performance Criteria 2**

**Safe work practices**

*You need to know and understand:*

- K4 the level of understanding operatives must have of **information** for relevant, current **legislation and official guidance** and how it is applied
- K5 how **emergencies** should be responded to and who should respond
- K6 the organisational **security procedures** for tools, equipment and personal belongings
- K7 what the accident reporting procedures are and who is responsible for making the report
- K8 why, when and how **health and safety control equipment** should be used

**Performance Criteria 3**

**Selection of resources**

*You need to know and understand:*

- K9 the characteristics, quality, uses, sustainability, limitations and defects associated with the **resources** and how defects should be rectified
- K10 how the **resources** should be used and how any **problems** associated with the **resources** are reported
- K11 the organisational procedures to select **resources**, why they have been developed and how they are used
- K12 the **hazards** associated with the **resources** and **methods of work** and how they are overcome

**Performance Criteria 4**

**Minimise the risk of damage**

*You need to know and understand:*

- K13 how to **protect work** from damage and the purpose of protection
- K14 why **disposal of waste** should be carried out safely and how it is achieved

**Performance Criteria 5**

**Meet the contract specification**

*You need to know and understand:*

- K15 how **methods of work**, to meet the specification, are carried out and **problems** reported
- K16 how **maintenance** of tools and equipment is carried out

**Performance Criteria 6**

**Allocated time**

*You need to know and understand:*

- K17 what the **programme** is for the work to be carried out in the estimated, allocated time and why deadlines should be kept

---

## Additional Information

### Scope/range related to performance criteria

#### Performance Criteria 1

- 1 interpretation of specifications, current regulations, risk assessments, method statements and manufacturers' information related to the work to be carried out

#### Performance Criteria 2

- 2 avoidance of risk by complying with the given information relating to the following
  - 2.1 methods of work
  - 2.2 safe use of health and safety control equipment
  - 2.3 safe use of access equipment
  - 2.4 safe use and storage of materials, tools and equipment
  - 2.5 specific risks to health

#### Performance Criteria 3

- 3 selection of resources associated with own work
  - 3.1 materials
  - 3.2 tools and equipment

#### Performance Criteria 4

- 4 protection of the work and its surrounding area from damage
- 5 minimise damage and maintain a clean work space
- 6 disposal of waste in accordance with legislation

#### Performance Criteria 5

- 7 demonstration of work skills to assemble, prepare, load, operate, protect and communicate
- 8 use, clean and maintain hand tools, material supply equipment and ancillary equipment
- 9 operate abrasive blast cleaning equipment in support of the abrasive blast cleaner to the given working instructions, relating to the following
  - 9.1 preparation of abrasives
  - 9.2 loading the system
  - 9.3 monitoring and maintaining supply
- 10 shut down and clean the abrasive blast cleaning equipment

#### Performance Criteria 6

- 11 completion of own work within the estimated, allocated time to meet the needs of other occupations and/or client

---

**Scope/range related to knowledge and understanding**

**Disposal of waste**

- 1 environmental responsibilities, organisational procedures, manufacturers' information, statutory regulations and official guidance

**Emergencies**

- 2 operative's response to situations in accordance with organisational authorisation and personal skills when involved with
  - 2.1 fires, spillages, injuries
  - 2.2 emergencies relating to occupational activities

**Hazards**

- 3 those identified by risk assessment, method of work, manufacturers' technical information, statutory regulations and official guidance

**Health and safety control equipment**

- 4 identified by the principles of protection for occupational use, types and purpose of each type, work situations and general work environment
  - 4.1 collective protective measures
  - 4.2 personal protective equipment (PPE)
  - 4.3 respiratory protective equipment (RPE)
  - 4.4 local exhaust ventilation (LEV)

**Information**

- 5 specifications, current legislation, risk assessments, method statements, manufacturers' information and abrasive blast cleaner's instructions

**Legislation and official guidance**

- 6 this relates to the operative's responsibilities regarding first aid procedures, potential accidents and health hazards whilst working in the workplace, in confined spaces, at height, with tools and equipment, with materials and substances, with movement/storage of materials and by manual handling and mechanical lifting

**Maintenance**

- 7 operative care of hand tools, material supply equipment and ancillary equipment

**Methods of work**

- 8 application of knowledge for safe and healthy work practices, procedures and skills relating to the method/area of work and materials used to:
  - 8.1 establish access requirements
  - 8.2 assemble component parts
  - 8.3 identify and prepare abrasives
  - 8.4 load hoppers
  - 8.5 operate, monitor and maintain (during use) the abrasive blast cleaning equipment
  - 8.6 shut-down, clean and store equipment
  - 8.7 apply and remove protective and masking products to maintain the integrity of the work
  - 8.8 use access equipment
  - 8.9 use hand tools and ancillary equipment
- 9 team work and communication
- 10 needs of other occupations associated with abrasive blasting operations

**Problems**

- 11 those arising from information, resources and methods of work
  - 11.1 own authority to rectify
  - 11.2 organisational reporting procedures

**Programme**

- 12 types of progress charts, timetables and estimated times
- 13 organisational procedures for reporting circumstances which will affect the work programme

**Protect work**

- 14 protect work against damage from general workplace activities, other occupations and adverse weather conditions

### **Resources**

- 15 materials, components and equipment relating to types, quantity, quality, sizes and the sustainability of standard and/or specialist
  - 15.1 the materials for protecting and masking the work area
  - 15.2 blast cleaning equipment
  - 15.3 blast media
  - 15.4 lighting and signage
  - 15.5 access equipment
  - 15.6 hand tools, surface profile testing equipment and ancillary equipment
- 16 methods of calculating quantity of materials associated with the method/procedure for abrasive blasting operations

### **Security procedures**

- 17 site, workplace, company and operative

## COSVR335 – HL6Y 04

### Operate equipment in support of the abrasive blast cleaner
