

---

**Overview**

This standard is about interpreting information, adopting safe, healthy and environmentally responsible work practices, selecting and using materials, components, tools and equipment and installing sheeting and cladding rainwater goods to new and existing roofs and walls

This standard is for people installing rainwater goods working in the occupational area of cladding occupations and can be used by operatives, supervisors and managers

**Performance criteria**

- You must be able to:
- P1 interpret the given information relating to the work and resources to confirm its relevance
  - P2 comply with the given, relevant legislation and official guidance to carry out your work and maintain safe and healthy work practices
  - P3 select the required quantity and quality of resources for the methods of work
  - P4 comply with organisational procedures to minimise the risk of damage to the work and surrounding area
  - P5 comply with the given contract information to carry out the work efficiently to the required specification
  - P6 complete the work within the allocated time, in accordance with the programme of work

**Knowledge and understanding**

**Performance Criteria 1**

**Interpretation of information**

You need to know and understand:

- K1 the organisational procedures developed to report and rectify inappropriate **information** and unsuitable **resources**, and how they are implemented
- K2 the types of **information**, their source and how they are interpreted
- K3 the organisational procedures to solve **problems** with the **information** and why it is important they are followed

**Performance Criteria 2**

**Safe work practices**

You need to know and understand:

- K4 the level of understanding operatives must have of **information** for relevant, current **legislation and official guidance** and how it is applied
- K5 how **emergencies** should be responded to and who should respond
- K6 the organisational **security procedures** for tools, equipment and personal belongings
- K7 what the accident reporting procedures are and who is responsible for making the report
- K8 why, when and how **health and safety control equipment** should be used
- K9 how to comply with environmentally responsible work practices to meet current **legislation and official guidance**

**Performance Criteria 3**

**Selection of resources**

You need to know and understand:

- K10 the characteristics, quality, uses, sustainability, limitations and defects associated with the **resources** and how defects should be rectified
- K11 how the **resources** should be used and how any **problems** associated with the **resources** are reported
- K12 the organisational procedures to select **resources**, why they have been developed and how they are used
- K13 the **hazards** associated with the **resources** and **methods of work** and how they are overcome

**Performance Criteria 4**

**Minimise the risk of damage**

You need to know and understand:

- K14 how to **protect work** from damage and the purpose of protection
- K15 why **disposal of waste** should be carried out safely and how it is achieved

**Performance Criteria 5**

**Meet the contract specification**

You need to know and understand:

- K16 how **methods of work**, to meet the specification, are carried out and **problems** reported
- K17 how **maintenance** of tools and equipment is carried out

**Performance Criteria 6**

**Allocated time**

You need to know and understand:

- K18 what the **programme** is for the work to be carried out in the estimated, allocated time and why deadlines should be kept

**Additional Information**

**Scope/range related to performance criteria**

**Performance Criteria 1**

- 1 interpretation of drawings, specifications, schedules, method statements, risk assessments and manufacturers' information related to the work to be carried out

**Performance Criteria 2**

- 2 avoidance of risk by complying with the given information relating to the following
  - 2.1 methods of work
  - 2.2 safe use of health and safety control equipment
  - 2.3 safe use of access equipment
  - 2.4 safe use, storage and handling of materials, tools and equipment
  - 2.5 specific risks to health

**Performance Criteria 3**

- 3 selection of resources associated with own work
  - 3.1 materials, components and fixings
  - 3.2 tools and equipment

**Performance Criteria 4**

- 4 protection of the work and its surrounding area from damage
- 5 prevent damage and maintain a clean work space
- 6 disposal of waste in accordance with current legislation

**Performance Criteria 5**

- 7 demonstration of work skills to measure, cut, set out, align, fit, position, fix and secure
- 8 use and maintain hand tools, portable power tools and ancillary equipment
- 9 install the following sheeting and cladding rainwater goods to given working instructions
  - 9.1 gutters
  - 9.2 pipes, downpipes and angles (swan necks, off sets)
  - 9.3 brackets and supports
  - 9.4 sumps
  - 9.5 overflows
  - 9.6 outlets

**Performance Criteria 6**

10 completion of own work within the estimated, allocated time to meet the needs of other occupations and/or client

## Install sheeting and cladding rainwater goods on roofs and walls

---

### Scope/range related to knowledge and understanding

#### **Disposal of waste**

- 1 environmental responsibilities, organisational procedures, manufacturers' information, statutory regulations and official guidance

#### **Emergencies**

- 2 operative's response to situations in accordance with organisational authorisation and personal skills when involved with
  - 2.1 fires, spillages, injuries, falls, rescue procedures
  - 2.2 emergencies relating to occupational activities

#### **Hazards**

- 3 those identified by risk assessment, method of work, manufacturers' technical information, statutory regulations and official guidance

#### **Health and safety control equipment**

- 4 identified by the principles of prevention for occupational use, types and purpose of each type, work situations and general work environment
  - 4.1 collective protective measures
  - 4.2 personal protective equipment (PPE)
  - 4.3 respiratory protective equipment (RPE)

#### **Information**

- 5 drawings, specifications, schedules, method statements, risk assessments, manufacturers' information, oral and written procedures, site inductions and current regulations governing buildings and official guidance associated with the installation rainwater goods

#### **Legislation and official guidance**

- 6 this relates to the operative's responsibilities regarding potential accidents, health hazards and the environment whilst working in the workplace, in confined spaces, at height, with tools and equipment, with materials and substances, with movement and storage of materials, by manual handling and mechanical lifting and with mechanical access equipment

#### **Maintenance**

- 7 operative care of hand tools, portable power tools and ancillary equipment
- 8 how and when maintenance should be carried out

**Methods of work**

- 9 application of knowledge for safe and healthy work practices, procedures and skills relating to the method and area of work and materials used to
  - 9.1 identify installation quality requirements
  - 9.2 conform to agreed specification
  - 9.3 confirm manufacturer's installation criteria
  - 9.4 identify datum, line, level and plumb
  - 9.5 deal with damaged and incorrect materials and resources
  - 9.6 position, fix and secure brackets and supports
  - 9.7 install gutters, pipes including downpipes and angles (swan necks and offsets), sumps, outlets and overflows
  - 9.8 ensure the integrity of joints and overlaps
  - 9.9 maintain the integrity of surfaces
  - 9.10 install materials and components, stop-ends, grills, guards, filters, sealants, gaskets and covers
  - 9.11 check quality and suitability of work on completion and at the end of each working period
  - 9.12 recognise and determine when additional specialist skills and knowledge are required and report accordingly
  - 9.13 determine specific requirements for structures of special interest, traditional build (pre 1919) and historical significance
  - 9.14 work from mobile elevating work platforms
  - 9.15 work with, around and in close proximity to plant and machinery
  - 9.16 use hand tools, portable power tools and equipment
  - 9.17 work at height
  - 9.18 use access equipment
- 10 team work and communication
- 11 needs of other occupations associated with installing sheeting and cladding rainwater goods on roofs and walls

**Problems**

- 12 those arising from information, resources and methods of work
  - 12.1 own authority to rectify
  - 12.2 organisational reporting procedures

**Programme**

- 13 types of progress charts, timetables and estimated times
- 14 organisational procedures for reporting circumstances which will affect the work programme

**Protect work**

- 15 protect work against damage from general workplace activities, other occupations and adverse weather conditions

**Resources**

- 16 materials, components and equipment relating to types, quantity, quality, sizes and the sustainability of standard and specialist
  - 16.1 brackets, fixings and supports
  - 16.2 gutters, pipes, downpipes and angles
  - 16.3 sealant and gaskets
  - 16.4 stop-ends, grills, guards, filters and covers
  - 16.5 overflows, sumps and outlets
  - 16.6 hand tools, portable power tools and equipment
- 17 identify quantity, length, area and wastage associated with the method and procedure to install sheeting and cladding rainwater goods on roofs and walls

**Security procedures**

- 18 site, workplace, company and operative

## COSVR96 – SQA Unit Code HL89 04

### Install sheeting and cladding rainwater goods on roofs and walls
