
Overview

This standard is about

- 1 interpreting information
- 2 adopting safe and healthy working practices
- 3 selecting materials, components and equipment
- 4 prefabricating reinforcing steel for concrete structures
- 5 bracing and preparing prefabricated sections of reinforcement steel for lifting and movement to installation

COSVR535 – SQA Unit Code HL8K 04

Prefabricate reinforcement steel sections

Performance criteria

- You must be able to:*
- P1 interpret the given information relating to the work and resources to confirm its relevance
 - P2 comply with the given, relevant legislation and official guidance to carry out your work and maintain safe and healthy work practices
 - P3 select the required quantity and quality of resources for the methods of work
 - P4 comply with organisational procedures to minimise the risk of damage to the work and surrounding area
 - P5 comply with the given contract information to carry out the work efficiently to the required specification
 - P6 complete the work within the allocated time, in accordance with the programme of work

COSVR535 – SQA Unit Code HL8K 04

Prefabricate reinforcement steel sections

Knowledge and understanding

You need to know and understand:

Performance Criteria 1

Interpretation of information

- K1 the organisational procedures developed to report and rectify inappropriate **information** and unsuitable **resources**, and how they are implemented
- K2 the types of **information**, their source and how they are interpreted
- K3 the organisational procedures to solve **problems** with the **information** and why it is important they are followed

Performance Criteria 2

Safe work practices

You need to know and understand:

- K4 the level of understanding operatives must have of **information** for relevant, current **legislation and official guidance** and how it is applied
- K5 how **emergencies** should be responded to and who should respond
- K6 the organisational **security procedures** for tools, equipment and personal belongings
- K7 what the accident reporting procedures are and who is responsible for making the report
- K8 why, when and how **health and safety control equipment** should be used

Performance Criteria 3

Selection of resources

You need to know and understand:

- K9 the characteristics, quality, uses, sustainability, limitations and defects associated with the **resources** and how defects should be rectified
- K10 how the **resources** should be used and how any **problems** associated with the **resources** are reported
- K11 the organisational procedures to select **resources**, why they have been developed and how they are used
- K12 the **hazards** associated with the **resources** and **methods of work** and how they are overcome

COSVR535 – SQA Unit Code HL8K 04

Prefabricate reinforcement steel sections

Performance Criteria 4

Minimise the risk of damage

You need to know and understand:

- K13 how to **protect work** from damage and the purpose of protection
- K14 why **disposal of waste** should be carried out safely and how it is achieved

Performance Criteria 5

Meet the contract specification

You need to know and understand:

- K15 how **methods of work**, to meet the specification, are carried out and **problems** reported
- K16 how **maintenance** of tools and equipment is carried out

Performance Criteria 6

Allocated time

You need to know and understand:

- K17 what the **programme** is for the work to be carried out in the estimated, allocated time and why deadlines should be kept

COSVR535 – SQA Unit Code HL8K 04

Prefabricate reinforcement steel sections

Additional Information

Scope/range related to performance criteria

Performance Criteria 1

- 1 interpretation of drawings, specifications, schedules, bending schedules method statements, risk assessments and manufacturers' information related to the work to be carried out

Performance Criteria 2

- 2 avoidance of risk by complying with the given information relating to at least five of the following
 - 2.1 methods of work
 - 2.2 safe use of health and safety control equipment
 - 2.3 safe use of access equipment
 - 2.4 safe use, storage and handling of materials
 - 2.5 safe use and storage of tools and equipment
 - 2.6 specific risks to health

Performance Criteria 3

- 3 selection of resources associated with own work
 - 3.1 materials, components and fixings
 - 3.2 tools and equipment

Performance Criteria 4

- 4 protection of the work and its surrounding area from damage
- 5 minimise damage and maintain a clean work space
- 6 disposal of waste in accordance with current legislation

Performance Criteria 5

- 7 demonstration of work skills to measure, mark out, fit, position, brace and secure
- 8 use and maintain hand tools, portable power tools and ancillary equipment
- 9 prefabricate reinforcement steel sections to given working instructions
 - 9.1 bases
 - 9.2 columns
 - 9.3 beams
 - 9.4 slabs
 - 9.5 walls
- 10 incorporate at least two of the following into prefabricated steel sections
 - 10.1 temporary construction bars
 - 10.2 bracing
 - 10.3 lifting points

COSVR535 – SQA Unit Code HL8K 04

Prefabricate reinforcement steel sections

Performance Criteria 6

- 11 completion of own work within the estimated, allocated time to meet the needs of other occupations and/or client

COSVR535 – SQA Unit Code HL8K 04

Prefabricate reinforcement steel sections

Scope/range related to knowledge and understanding

Disposal of waste

- 1 environmental responsibilities, organisational procedures, manufacturers' information, statutory regulations and official guidance

Emergencies

- 2 operative's response to situations in accordance with organisational authorisation and personal skills when involved with
 - 2.1 fires, spillages, injuries
 - 2.2 emergencies relating to occupational activities

Hazards

- 3 those identified by risk assessment, method of work, manufacturers' technical information, statutory regulations and official guidance

Health and safety control equipment

- 4 identified by the principles of protection for occupational use, types and purpose of each type, work situations and general work environment
 - 4.1 collective protective measures
 - 4.2 personal protective equipment (PPE)
 - 4.3 respiratory protective equipment (RPE)
 - 4.4 local exhaust ventilation (LEV)

Information

- 5 drawings, specifications, schedules, bending schedules, method statements, risk assessments, manufacturers' information and current regulations and official guidance associated with prefabricating reinforcement steel sections

Legislation and official guidance

- 6 this relates to the operative's responsibilities regarding potential accidents and health hazards whilst working in the workplace, below ground level, in confined spaces, at height, with tools and equipment, with materials and substances, with movement/storage of materials and by manual handling and mechanical lifting

Maintenance

- 7 operative care of hand tools and/or portable power tools and ancillary equipment

COSVR535 – SQA Unit Code HL8K 04

Prefabricate reinforcement steel sections

Methods of work

- 8 application of knowledge for safe and healthy work practices, procedures and skills relating to the method/area of work and materials used to:
 - 8.1 prefabricate reinforcement from pre-cut and bent components to form sections for bases, columns, beams, slabs and walls
 - 8.2 extract details from steel fixing and temporary works drawings (hardcopy, digital and building information modelling)
 - 8.3 complete work to agreed quality criteria
 - 8.4 identify grades of steel
 - 8.5 work to given tolerance
 - 8.6 follow construction sequence including temporary works design
 - 8.7 fix prefabricated reinforcement steel sections for horizontal and vertical elements
 - 8.8 form associated wire ties
 - 8.9 identify other fixings, clamps, U bolts
 - 8.10 fix, secure and remove temporary construction bars
 - 8.11 fix and secure bracing for section movement
 - 8.12 fix and secure lifting points for section movement
 - 8.13 incorporate embedment's into prefabricated steel sections
 - 8.14 incorporate reinforcement coupler and continuity systems
 - 8.15 move and position steel
 - 8.16 sort, store and protect steel and fixings
 - 8.17 use hand tools, portable power tools and equipment
 - 8.18 work at height
 - 8.19 use access equipment
- 9 team work and communication
- 10 needs of other occupations associated with prefabrication of reinforcement steel sections

Problems

- 11 those arising from information, resources and methods of work
 - 11.1 own authority to rectify
 - 11.2 organisational reporting procedures

Programme

- 12 types of progress charts, timetables and estimated times
- 13 organisational procedures for reporting circumstances which will affect the work programme

Protect work

COSVR535 – SQA Unit Code HL8K 04

Prefabricate reinforcement steel sections

14 protect work against damage from general workplace activities, other occupations and adverse weather conditions

Resources

15 materials, components and equipment relating to types, quantity, quality, sizes and the sustainability of standard and/or specialist:

15.1 pre-cut and bent components, reinforcement steel, tie wire and spacers

15.2 hand and/or portable power tools and equipment

16 methods of calculating quantity, length, area and wastage associated with the method/procedure to prefabricate reinforcement steel sections

Security procedures

17 site, workplace, company and operative

COSVR535 – SQA Unit Code HL8K 04
