Remove and segregate components prior to demolition

#### **Overview**

This standard is about

- 1 interpreting information
- 2 adopting safe and healthy working practices
- 3 selecting equipment
- 4 removing and segregating materials and components by hand, prior to demolition, for recycling and/or disposal

## Remove and segregate components prior to demolition

# Performance criteria

#### You must be able to:

- P1 interpret the given information relating to the work and resources to confirm its relevance
- P2 comply with the given, relevant legislation and official guidance to carry out your work and maintain safe work practices
- P3 select the required quantity and quality of resources for the methods of work
- P4 comply with organisational procedures to minimise the risk of damage to the work and surrounding area
- P5 comply with the given contract information to carry out the work efficiently to the required specification
- P6 complete the work within the allocated time, in accordance with the programme of work

#### Remove and segregate components prior to demolition

# Knowledge and understanding

#### Performance Criteria 1

#### Interpretation of information

## You need to know and understand:

- K1 the organisational procedures developed to report and rectify inappropriate information and unsuitable resources, and how they are implemented
- K2 the types of **information**, their source and how they are interpreted
- K3 the organisational procedures to solve **problems** with the **information** and why it is important they are followed

#### Performance Criteria 2 Safe work practices

## You need to know and understand:

- K4 the level of understanding operatives must have of information for relevant, current legislation and official guidance and how it is applied
- K5 the types of **fire extinguishers** and how and when they are used
- K6 how emergencies should be responded to and who should respond
- K7 the organisational **security procedures** for tools, equipment and personal belongings
- K8 what the accident reporting procedures are and who is responsible for making the report
- K9 why, when and how **health and safety control equipment** should be used

#### Performance Criteria 3 Selection of resources

# You need to know and understand:

- K10 the characteristics, quality, uses, sustainability, limitations and defects associated with the **resources** and how defects should be rectified
- K11 how the **resources** should be used and how any **problems** associated with the **resources** are reported
- K12 the organisational procedures to select **resources**, why they have been developed and how they are used
- K13 the **hazards** associated with the **resources** and **methods of work** and how they are overcome

# Performance Criteria 4 Minimise the risk of damage

## You need to know and understand:

- K14 how to protect work from damage and the purpose of protection
- K15 why **disposal of waste** should be carried out safely and how it is achieved

## Remove and segregate components prior to demolition

<b>Performance</b>	Criteria	5
--------------------	----------	---

#### Meet the contract specification

You need to know and understand:

K16 how **methods of work**, to meet the specification, are carried out and **problems** reported

K17 how maintenance of tools and equipment is carried out

# Performance Criteria 6 Allocated time

You need to know and understand:

K18 what the **programme** is for the work to be carried out in the estimated, allocated time and why deadlines should be kept

#### Remove and segregate components prior to demolition

#### **Additional Information**

Scope/range related to performance criteria

#### **Performance Criteria 1**

1 interpretation of drawings, specifications, schedules, method statements, and risk assessments related to the work to be carried out

#### **Performance Criteria 2**

- 2 avoidance of risk by following the given information relating to the following
  - 2.1 methods of work
  - 2.2 safe use of health and safety control equipment
  - 2.3 safe use of access equipment
  - 2.4 segregation and safe storage of materials
  - 2.5 safe use and storage of tools and equipment

#### **Performance Criteria 3**

- 3 selection of resources associated with own work
  - 3.1 demolition tools and equipment
  - 3.2 waste and/or recycling containers

#### **Performance Criteria 4**

- 4 protection of the work and its surrounding area from damage
- 5 minimise damage and maintain a clean work space
- 6 disposal of waste in accordance with legislation

#### **Performance Criteria 5**

- 7 demonstration of work skills to disconnect, dismantle, segregate and remove
- 8 use and maintain (checks) demolition tools and equipment and ancillary equipment
- 9 remove and segregate the following materials and components by hand for disposal and/or recycling to given working instructions
  - 9.1 timber
  - 9.2 metal
  - 9.3 bricks and/or blocks
  - 9.4 glass
  - 9.5 sanitary ware
  - 9.6 fixtures and fittings
  - 9.7 mechanical and electrical equipment

#### **Performance Criteria 6**

10 completion of own work within the estimated, allocated time to meet the needs of other occupations and/or client

#### Remove and segregate components prior to demolition

# Scope/range related to knowledge and understanding

#### Disposal of waste

environmental responsibilities, organisational procedures, statutory regulations and official guidance relating to segregation and recycling procedures

#### **Emergencies**

- 2 operative's response to situations in accordance with organisational authorisation and personal skills when involved with
  - 2.1 fires, spillages, injuries
  - 2.2 emergencies relating to occupational activities

#### Fire extinguishers

3 water, CO<sub>2</sub>, foam, powder and their uses

#### **Hazards**

those identified by risk assessment, method of work, technical information, statutory regulations and official guidance

#### Health and safety control equipment

- identified by the principles of protection for occupational use, types and purpose of each type, work situations and general work environment
  - 5.1 collective protective measures
  - 5.2 personal protective equipment (PPE)
  - 5.3 respiratory protective equipment (RPE)
  - 5.4 local exhaust ventilation (LEV)

#### Information

drawings, specifications, schedules, method statements, risk assessments, site inductions, tool box talks, statutory regulations and official guidance relating to segregation and recycling or disposal of waste

#### Legislation and official guidance

this relates to the operative's responsibilities regarding potential accidents and health hazards whilst working in the workplace, below ground level, at height, with tools and equipment, with materials and substances, with movement/storage of materials and by manual handling and mechanical lifting

#### **Maintenance**

8 operative checks of demolition tools hand tools and/or portable power tools, access equipment and ancillary equipment

#### Remove and segregate components prior to demolition

#### Methods of work

- 9 application of knowledge for safe work practices, procedures and skills, relating to the method/area of work and materials used, to
  - 9.1 remove and segregate materials, components and/or recyclable items: timber, metal, bricks and/or blocks, glass, sanitary ware, fixtures and fittings, mechanical and electrical equipment
  - 9.2 use demolition, tools and equipment
  - 9.3 work at height
  - 9.4 use access equipment
- 10 team work and communication
- 11 needs of other occupations associated with removal and segregation of materials and components

#### **Problems**

- 12 those arising from information, resources and methods of work
  - 12.1 own authority to rectify
  - 12.2 organisational reporting procedures

#### **Programme**

- 13 types of progress charts, timetables and estimated times
- 14 organisational procedures for reporting circumstances which will affect the work programme

#### Resources

- 16 tools and equipment relating to types, quantity, quality, sizes and sustainability of standard and/or specialist
  - 16.1 demolition tools and equipment
  - 16.2 waste and/or recycling containers

#### **Security procedures**

17 site, workplace, company and operative
