Rules for credit contribution for specific and open sections

Important Note* Achievement above the minimum requirements

The specification shows the **minimum** requirements for this SGA. Where possible, centres may wish to encourage candidates to exceed this minimum. Candidates achieving above the minimum specification will have this achievement recorded on their Scottish Qualifications Certificate. For example the following can be achieved above the minimum requirement:

- Core Skills at levels above those specified
- more National Courses and Units at Higher instead of the credits at Intermediate 2
- National Course grades, eg grade A or B instead of grade C
- more than the required three National Courses, in which case each additional course completed counts as four credits in the open section of the specification

Hierarchies

- courses and units can be substituted by those with the same title at a higher level, eg English (H) can be substituted by English (AH). Numeracy (Int 2) can be substituted by Numeracy (H). (See Section E)

Double counting

- courses and units with the same title at different levels cannot both contribute credits to the SGA, eg **either** French (Int 2) **or** French (H)
- courses at the same level in the same subject cannot both contribute credits to the SGA, eg **either** the National Course in Drama at Higher **or** SCE Higher Grade Drama (See Section F)
- same course with different grades cannot both contribute credits to the SGA, eg **either** Higher Media Studies at grade A **or** Higher Media Studies at grade C
- same course or unit cannot contribute credit to both the specific and open sections of an SGA

National Course awards at Grade D

National Course awards at Grade D can contribute to the SGA in the following ways:

- in place of the specified Higher Course, a grade D at Advanced Higher in the Course of the same title can contribute 4 credits to the specific section
- a grade D at Higher (or above) can contribute 4 credits to the open section.

Note - The former compensatory course awards (fallbacks) can also contribute to the SGA:

- in place of the specified Higher Course, a compensatory award for the Course of the same title taken at Advanced Higher (ie awarded at Higher) can contribute 4 credits to the specific section
- a compensatory award for a course taken at Higher (ie awarded at Intermediate 2) can contribute 4 credits to the open section.

Gaelic (Learners) and Gàidhlig

- Gaelic (Learners) and Gàidhlig courses cannot both contribute credits to the SGA
- Candidates can choose **either** the Gaelic (Learners) or Gàidhlig course, not both

Programme advice: Guidance on possible combinations of units and courses which candidates might choose in order to gain the required credits.

Centres and candidates should agree the most appropriate way of gaining the required credits to meet each candidate's individual needs.

Rules for credit contribution for specific and open sections

Important Note* Achievement above the minimum requirements

The specification shows the **minimum** requirements for this SGA. Where possible, centres may wish to encourage candidates to exceed this minimum. Candidates achieving above the minimum specification will have this achievement recorded on their Scottish Qualifications Certificate. For example the following can be achieved above the minimum requirement:

- Core Skills at levels above those specified
- more National Courses and Units at Higher instead of the credits at Intermediate 2
- National Course grades, eg grade A or B instead of grade C
- more than the required three National Courses, in which case each additional course completed counts as four credits in the open section of the specification

Hierarchies

- courses and units can be substituted by those with the same title at a higher level, eg English (H) can be substituted by English (AH). Numeracy (Int 2) can be substituted by Numeracy (H). (See Section E)

Double counting

National Course awards at Grade D

National Course awards at Grade D can contribute to the SGA in the following ways:

- in place of the specified Higher Course, a grade D at Advanced Higher in the Course of the same title can contribute 4 credits to the specific section
- a grade D at Higher (or above) can contribute 4 credits to the open section.

Note - The former compensatory course awards (fallbacks) can also contribute to the SGA:

- in place of the specified Higher Course, a compensatory award for the Course of the same title taken at Advanced Higher (ie awarded at Higher) can contribute 4 credits to the specific section
- a compensatory award for a course taken at Higher (ie awarded at Intermediate 2) can contribute 4 credits to the open section.

Gaelic (Learners) and Gàidhlig

- Gaelic (Learners) and Gàidhlig courses cannot both contribute credits to the SGA
- Candidates can choose **either** the Gaelic (Learners) or Gàidhlig course, not both

Note: Advice on making up programmes of credit from the open section follows in Section C.

Candidates having met the requirements of the specific section need to achieve a further 7 credits at a minimum of Intermediate 2. The general rules are defined in Section B.

A wide choice is available to meet the 7 credits. Centres should consider individual candidate needs, eg for further specialist work within the title area of the SGA or for broadening beyond the SGA title area.

Advice has been developed in the following section on possible groupings of units and courses. This might be useful in the selection of programmes to meet individual candidates' career and progression needs in communication and media. The groupings are not exhaustive. Centres and candidates can choose other provision from SQA's range of qualifications to build up a coherent programme.

Candidates can make up the 7 credits by selecting courses and/or units from a range of these groupings or by selecting courses and/or units from an individual grouping according to their needs.

Please note the rules on hierarchical substitution and double-counting listed in Section B when finalising individual candidate SGA programmes.

Candidates who have not achieved these core skills in other ways must select the required core skills units. See Section D for further information.

In this SGA the Problem Solving and Working with Others core skills are automatically certificated through courses and units in the specific section. The corresponding core skill unit in the open section cannot be counted towards the SGA.

Other core skills may be automatically certificated through courses and units in the specific section. Where this is the case, the corresponding core skill unit in the open section cannot be counted towards the SGA.

Core skills

D

To achieve this SGA, all candidates **must achieve** the following core skills:

Core skill	Level
Communication	Higher
Numeracy	Intermediate 2
Information Technology	Intermediate 2
Problem Solving	Intermediate 2
Working with Others	Intermediate 2

Candidates can achieve core skills:

- through Standard Grades or other units which give automatic certification of core skills, eg Standard Grade Administration at Credit Level gives automatic certification of Information Technology at Intermediate 2
- by selecting from the group award units and courses which give automatic certification of core skills, eg the mandatory Higher course in Media Studies gives automatic certification of Problem Solving and Working with Others at Higher; the mandatory Higher course in English gives automatic certification of Communication at Higher providing candidates select one of the optional units which embed Oral Communication
- by selecting dedicated core skills units in the open section of the SGA

Candidates' current level of achievement in core skills is shown on the Scottish Qualifications Certificate in the form of a profile. This shows achievement against each of the core skills *components*. Where a core skill has more than one component, the candidate needs to achieve each component at the level specified for the SGA. For example, if an SGA requires Numeracy at Intermediate 2 a candidate whose profile shows Using Number at Intermediate 2 and Using Graphical Information at Intermediate 1 would not meet the requirement and would have to improve in Using Graphical Information.

Details of all courses which give automatic certification of core skills is published in the *Catalogue of Core Skills in National Qualifications* (SQA, 2001/2002).

The SQA numbering system for qualifications consists of a 4 + 2 reference code.

The qualifications in a hierarchical sequence have the same title and are available at more than one level. They are identified by their reference code having the same first four digits, eg, D14F in the example below. The last two digits are unique to each level of qualification, eg 12 equates to Higher, 11 equates to Intermediate 2.

Units

The following is an example of a hierarchical sequence of units:

D14F 11	Language: Finish (Int 2)
D14F 12	Language: Finish (H)
D14F 13	Language: Finish (AH)

Where units which are part of hierarchical sequences are specified, candidates who achieve a unit at a higher level than the one specified can use the upper level unit to count as credit towards the group award. For example, Language Finish (H) can be counted instead of Language Finish (Int 2).

Candidates can only use one of these units to count as credit towards the group award.

In the case of unrevised National Certificate Modules, ie units which retain their original number, there are hierarchies where the title is the same and the number is different. Details of these exceptions will be published in a separate document. The pattern for these hierarchies is the same as that previously established for GSVQs.

There are also some hierarchies where the titles and numbers of the units at different levels are different. In this specification, if there are two units at different levels with heavily overlapping content, only one of these units should be used to count as credit towards the group award. Details of these exceptions will be published in a separate document.

Courses

The following is an example of a hierarchical sequence of courses:

C115 10	English (Int 1)
C115 11	English (Int 2)
C115 12	English (H)
C115 13	English (AH)

In the SGA specification, where courses which belong to hierarchical sequences are specified, candidates who achieve a course at a higher level than the one specified can use the upper level course to count as credit towards the group award. For example, English (AH) can be counted instead of English (H).

Candidates can only use one of these courses to count as credit towards the group award - a maximum of 4 credits.

SCE Highers

F

Designated SCE Highers can contribute 4 credits each to the SGA in place of National Courses in the *specific section*.

The designated SCE Highers and their corresponding National Courses, either of which can contribute to this SGA, are as follows:

SCE Higher Grade*

National Course

English (H)

Drama

Drama (H)

*SCE Highers do not give automatic certification of core skills. Further information will be published about this in due course.

Note: Any SCE Higher can contribute 4 credits to the *open section*.

Relevant Scottish Vocational Qualifications (SVQs) from occupational areas 009 (providing business services) and 010 (communicating and entertaining) can each contribute up to eight credits to the open section of the SGA.

SVQs at Level 3 contribute credits at Higher.

SVQs at Level 2 contribute credits at Intermediate 2.
