

Scottish Group Award Specifications

SGA in:	Sport and Leisure		
Level:	Intermediate 2	Code:	G5B0 11

Summary of requirements

SGA in Sport and Leisure at Intermediate 2

National Courses and Units required*

1 National Course (4 credits) at Intermediate 2 from:
Fitness and Exercise
Leading Sports Activities
Physical Education

Details in specific section

plus

*1 National Course (4 credits) at Intermediate 2 from above list **or** from:*
Biology
Business Management
Managing Environmental Resources
Personal and Social Education

Details in specific section

plus

8 credits at minimum of Intermediate 1

Details in open section

Total 16 credits

Core Skills required*

The above must include or cover:
5 core skills at Intermediate 1

Details in specific section

*See Important Note on page 4.

Rules for credit contribution for specific and open sections

Important Note* Achievement above the minimum requirements

The specification shows the **minimum** requirements for this SGA. Where possible, centres may wish to encourage candidates to exceed this minimum. Candidates achieving above the minimum specification will have this achievement recorded on their Scottish Qualifications Certificate. For example the following can be achieved above the minimum requirement:

- Core Skills at levels above those specified
- more National Courses and Units at Intermediate 2 instead of the credits at Intermediate 1
- National Course grades, eg grade A or B instead of grade C
- more than the required two National Courses, in which case each additional course completed counts as four credits in the open section of the specification

Hierarchies

- courses and units can be substituted by those with the same title at a higher level, eg Analysis of Performance (Int 2) can be substituted by Analysis of Performance (H) (See Section E)

Double counting

- courses and units with the same title at different levels cannot both contribute credits to the SGA, eg **either** Physical Education (Int 2) **or** Physical Education (H)
- courses at the same level in the same subject cannot both contribute credits to the SGA, eg **either** the National Course in Biology at Intermediate 2 **or** Standard Grade Biology at Credit Level (See Section F)
- same course with different grades cannot both contribute credits to the SGA, eg **either** Fitness and Exercise (Int 2) at grade A **or** Fitness and Exercise (Int 2) at grade C
- same course or unit cannot contribute credit to both the specific and open sections of an SGA

National Course awards at Grade D

National Course awards at Grade D can contribute to the SGA in the following ways:

- in place of the specified Intermediate 2 Course, a grade D at Higher (or above) in the Course of the same title can contribute 4 credits to the specific section
- in place of Intermediate 2 Biology, a Grade D in Higher Human Biology can contribute 4 credits to the specific section
- a grade D at Intermediate 2 (or above) can contribute 4 credits to the open section.

Note - The former compensatory course awards (fallbacks) can also contribute to the SGA:

- in place of the specified Intermediate 2 Course, a compensatory award for the Course of the same title taken at Higher (ie awarded at Intermediate 2) can contribute 4 credits to the specific section
- in place of Intermediate 2 Biology, a compensatory award for Higher Human Biology can contribute 4 credits to the specific section
- a compensatory award for a course taken at Intermediate 2 (ie awarded at Intermediate 1) can contribute 4 credits to the open section.

Gaelic (Learners) and Gàidhlig

- Gaelic (Learners) and Gàidhlig courses cannot both contribute credits to the SGA
- Candidates can choose **either** the Gaelic (Learners) or Gàidhlig course, not both

Specific section

A

This section specifies: mandatory courses, mandatory units, mandatory combinations of courses and/or units, mandatory core skill requirements and optional courses and units.

Course/unit no	Course/unit title	Credits
C03P 11	Fitness and Exercise (Int 2)	4
C03N 11	Leading Sports Activities (Int 2)	4
C205 11	Physical Education (Int 2)	4
plus one National Course from:		
C007 11	Biology (Int 2)	4
C010 11	Business Management (Int 2)	4
C055 11	Managing Environmental Resources (Int 2)	4
C067 11	Personal and Social Education (Int 2)	4

Total credits required: 8

** Core skills requirement

Communication at Intermediate 1
Numeracy at Intermediate 1
Information Technology at Intermediate 1
Problem Solving at Intermediate 1
Working with Others at Intermediate 1

** See Section D for core skills details.

Note: Candidates may substitute designated Standard Grades at Credit Level for National Courses at Intermediate 2 in this section. (See Section F)

Open section

B

8 credits at minimum of Intermediate 1 are required to complete this SGA. These can be chosen from either one or both of the following sections:

- Open section (any qualification listed below)
- Specific section (units and courses not already chosen)

The 8 credits may be made up from any of the following. Each has a fixed credit value for the purposes of this SGA.

Qualifications	Credit
National Units at Intermediate 1 or above	each typically 1
National Courses at Intermediate 1 or above	each 4
Standard Grades at General Level contribute credits at <i>Intermediate 1</i> *	each 4
Standard Grades at Credit Level contribute credits at <i>Intermediate 2</i> *	each 4
Free-standing core skills units (if required to complete the core skills requirement)	each 1
Relevant SVQs at Level 1 in the following occupational areas contribute credits at <i>Intermediate 1</i> : 007 (Providing Goods and Services)	max 8
Relevant SVQs at Level 2 in the following occupational areas contribute credits at <i>Intermediate 2</i> : 007 (Providing Goods and Services)	max 8

*If achieved prior to 1994 please contact SQA Helpdesk ☎ 0141 242 2214.

Note: There are many ways in which the 8 credits at Intermediate 1 can be achieved and the following sections are provided for your information.

Open section: Qualifications which can contribute credits to this group award.
Programme advice: Guidance on possible combinations of units and courses which candidates might choose in order to gain the required credits.

Centres and candidates should agree the most appropriate way of gaining the required credits to meet each candidate's individual needs.

Rules for credit contribution for specific and open sections

Important Note* Achievement above the minimum requirements

The specification shows the **minimum** requirements for this SGA. Where possible, centres may wish to encourage candidates to exceed this minimum. Candidates achieving above the minimum specification will have this achievement recorded on their Scottish Qualifications Certificate. For example the following can be achieved above the minimum requirement:

- Core Skills at levels above those specified
- more National Courses and Units at Intermediate 2 instead of the credits at Intermediate 1
- National Course grades, eg grade A or B instead of grade C
- more than the required two National Courses, in which case each additional course completed counts as four credits in the open section of the specification

Hierarchies

- courses and units can be substituted by those with the same title at a higher level, eg Analysis of Performance (Int 2) can be substituted by Analysis of Performance (H) (See Section E)

Double counting

- courses and units with the same title at different levels cannot both contribute credits to the SGA, eg **either** Physical Education (Int 2) **or** Physical Education (H)
- courses at the same level in the same subject cannot both contribute credits to the SGA, eg **either** the National Course in Biology at Intermediate 2 **or** Standard Grade Biology at Credit Level (See Section F)
- same course with different grades cannot both contribute credits to the SGA, eg **either** Fitness and Exercise (Int 2) at grade A **or** Fitness and Exercise (Int 2) at grade C
- same course or unit cannot contribute credit to both the specific and open sections of an SGA

National Course awards at Grade D

National Course awards at Grade D can contribute to the SGA in the following ways:

- in place of the specified Intermediate 2 Course, a grade D at Higher (or above) in the Course of the same title can contribute 4 credits to the specific section
- in place of Intermediate 2 Biology, a Grade D in Higher Human Biology can contribute 4 credits to the specific section
- a grade D at Intermediate 2 (or above) can contribute 4 credits to the open section.

Note - The former compensatory course awards (fallbacks) can also contribute to the SGA:

- in place of the specified Intermediate 2 Course, a compensatory award for the Course of the same title taken at Higher (ie awarded at Intermediate 2) can contribute 4 credits to the specific section
- in place of Intermediate 2 Biology, a compensatory award for Higher Human Biology can contribute 4 credits to the specific section
- a compensatory award for a course taken at Intermediate 2 (ie awarded at Intermediate 1) can contribute 4 credits to the open section.

Gaelic (Learners) and Gàidhlig

- Gaelic (Learners) and Gàidhlig courses cannot both contribute credits to the SGA
- Candidates can choose **either** the Gaelic (Learners) or Gàidhlig course, not both

Note: Advice on making up programmes of credit from the open section follows in Section C.

Candidates having met the requirements of the specific section need to achieve a further 8 credits at a minimum of Intermediate 1. The general rules are defined in Section B.

A wide choice is available to meet the 8 credits. Centres should consider individual candidate needs, eg for further specialist work within the title area of the SGA or for broadening beyond the SGA title area.

Advice has been developed in the following section on possible groupings of units and courses. This might be useful in the selection of programmes to meet individual candidates' career and progression needs in sport and leisure. The groupings are not exhaustive. Centres and candidates can choose other provision from SQA's range of qualifications to build up a coherent programme.

Candidates can make up the 8 credits by selecting courses and/or units from a range of these groupings or by selecting courses and/or units from an individual grouping according to their needs.

Please note the rules on hierarchical substitution and double-counting listed in Section B when finalising individual candidate SGA programmes.

*Mandatory unit of a course. †Optional unit of a course. All other units are free-standing National Units. []Bracketed numbers indicate the former coding for these unrevised National Units.

Course/unit no	Course/unit title	Credits
Business, Marketing and Finance		
Component units of Administration course:		
D007 11	*Administrative Support (Int 2)	1
D008 11	*Information Technology: Office Applications (Int 2)	1
Component unit of Accounting and Finance course:		
D001 10	*Recording of Financial Transactions (Int 1)	1
Component unit of Business Management course:		
D048 10	*Information in Business (Int 1)	1
Free-standing National Units:		
D0XP 11	Marketing: Basic Principles (Int 2) [6260006]	1
D0XT 11	Marketing Research Principles (Int 2) [6260036]	1
Community Provision

Modern Languages other than English/Gàidhlig

Courses:

C059 10	French (Int 1)	4
C084 10	Gaelic (Learners): Listening and Talking (Int 1)	4
C085 10	Gaelic (Learners): Reading and Writing (Int 1)	4
C060 10	German (Int 1)	4
C061 10	Italian (Int 1)	4
C062 10	Russian (Int 1)	4
C063 10	Spanish (Int 1)	4

Any component units of any modern languages course at Intermediate 1

Any free-standing National Units in modern languages at Intermediate 1

¹See Rules for credit contribution

Personal and Social Education

Free-standing National Units:

D01H 11	Experiencing Europe 3 (Int 2)	
D01L 11	Residential Experience 3 (Int 2)	

Personal Performance

Free-standing National Units:

D0MG 11	Dance: Alternative Option 2 (Int 2) [80215]	0.5
D0MB 11	Dance: Classical 2 (Int 2) [80211]	0.5
D0MC 11	Dance: Contemporary 2 (Int 2) [80212]	0.5
D0MD 11	Dance: Ethnic 2 (Int 2) [80213]	0.5
D647 11	Dance: Jazz 2 (Int 2)	0.5
D0MF 11	Dance: Scottish 2 (Int 2) [80214]	0.5
	Sporting Activity (Int 2) ¹	1

¹These units have been developed in a number of contexts. (See Section H)

Psychology

Course:

C212 10	Psychology (Int 1)	4
---------	--------------------	---

Component units of course:

DF5K 10	Psychology: Understanding the Individual (Int 1)	
DF5L 10	Psychology: Investigating Behaviour (Int 1)	1
DF5M 10	Psychology: The Individual and the Social (Int 1)	1

Science

Free-standing National Unit:

D13F 10	The Human Body (Int 1) [7310133]	1
---------	----------------------------------	---

Course/unit no	Course/unit title	Credits
----------------	-------------------	---------

Sports Studies

Free-standing National Units:

D0MW 11	Introduction to the Prevention of Personal Injury in Sport (Int 2) [90012]	1
D0M9 11	Movement Observation and Analysis 1 (Int 2) [80005]	1
	Sports Officiating and Organising: Recreational (Int 2) ¹	1

¹This unit has been developed in a number of contexts. (See Section H)

Work Experience

Free-standing National Unit:

D36H 11	Work Experience (Int 2)	1
---------	-------------------------	---

Core Skills

Free-standing National Units:

D01B 10	Communication (Int 1)	1
D01D 10	Information Technology (Int 1)	1
D01C 10	Numeracy (Int 1)	1
D01E 10	Problem Solving (Int 1)	1
D01F 10	Working with Others (Int 1)	1

Candidates who have not achieved these core skills in other ways must select the required core skills units. See Section D for further information.

One or more core skills in this SGA may be automatically certificated through courses and units in the specific section. Where this is the case, the corresponding core skill unit in the open section cannot be counted towards the SGA.

Core skills

D

To achieve this SGA, all candidates **must achieve** the following core skills:

Core skill	Level
Communication	Intermediate 1
Numeracy	Intermediate 1
Information Technology	Intermediate 1
Problem Solving	Intermediate 1
Working with Others	Intermediate 1

Candidates can achieve core skills:

- through Standard Grades or other units which give automatic certification of core skills, eg a candidate who has completed Standard Grade English and Mathematics at General Level is given automatic certification of Communication and Numeracy at Intermediate 1
- by selecting from the group award units and courses which give automatic certification of core skills, eg the Intermediate 2 course in Physical Education gives automatic certification of Problem Solving at Intermediate 2
- by selecting dedicated core skills units in the open section of the SGA

Candidates' current level of achievement in core skills is shown on the Scottish Qualifications Certificate in the form of a profile. This shows achievement against each of the core skills *components*. Where a core skill has more than one component, the candidate needs to achieve each component at the level specified for the SGA. For example, if an SGA requires Numeracy at Intermediate 1, a candidate whose profile shows Using Number at Intermediate 1 and Using Graphical Information at Access 3 would not meet the requirement and would have to improve in Using Graphical Information.

Details of all courses which give automatic certification of core skills is published in the *Catalogue of Core Skills in National Qualifications* (SQA, 2001/2002).

Hierarchical sequences

E

The SQA numbering system for qualifications consists of a 4 + 2 reference code.

The qualifications in a hierarchical sequence have the same title and are available at more than one level. They are identified by their reference code having the same first four digits, eg, D370 in the example below. The last two digits are unique to each level of qualification, eg 12 equates to Higher, 11 equates to Intermediate 2.

Units

The following is an example of a hierarchical sequence of units:

DF2T 10	Physical Education: Performance (Int 1)
DF2T 11	Physical Education: Performance (Int 2)
DF2T 12	Physical Education: Performance (H)

Where units which are part of hierarchical sequences are specified, candidates who achieve a unit at a higher level than the one specified can use the upper level unit to count as credit towards the group award. For example, Physical Education (H) can be counted instead of Physical Education (Int 2).

Candidates can only use one of these units to count as credit towards the group award.

In the case of unrevised National Certificate Modules, ie units which retain their original number, there are hierarchies where the title is the same and the number is different. Details of these exceptions will be published in a separate document. The pattern for these hierarchies is the same as that previously established for GSVQs.

There are also some hierarchies where the titles and numbers of the units at different levels are different. In this specification, if there are two units at different levels with heavily overlapping content, only one of these units should be used to count as credit towards the group award. Details of these exceptions will be published in a separate document.

Courses

The following is an example of a hierarchical sequence of courses:

C205 10	Physical Education (Int 1)
C205 11	Physical Education (Int 2)
C205 12	Physical Education (H)

In the SGA specification, where courses which belong to hierarchical sequences are specified, candidates who achieve a course at a higher level than the one specified can use the upper level course to count as credit towards the group award. For example, Physical Education (H) can be counted instead of Physical Education (Int 2).

Candidates can only use one of these courses to count as credit towards the group award - a maximum of 4 credits.

Standard Grades

F

Designated Standard Grades at Credit Level can contribute 4 credits each to the SGA in place of corresponding National Courses in the *specific section*.

The designated Standard Grades and their corresponding National Courses, either of which can contribute to this SGA, are as follows:

Standard Grade

National Course

Biology at Credit Level	Biology (Int 2)
Business Management at Credit Level	Business Management (Int 2)
Physical Education at Credit Level	Physical Education (Int 2)
Social and Vocational Skills at Credit Level	Personal and Social Education (Int 2)

Note: Any Standard Grade at General or Credit Level can contribute 4 credits to the *open section*.

SVQs

G

Relevant Scottish Vocational Qualifications (SVQs) from occupational area 007 (Providing Goods and Services) can each contribute up to eight credits to the open section of the SGA.

SVQs at Level 2 contribute credits at Intermediate 2.
SVQs at Level 1 contribute credits at Intermediate 1.

The following are **examples** of relevant SVQs.

Code no	Relevant SVQs	Level
G3ES 22	Playwork	2
G2XK 21	Sport, Recreation and Allied Occupations	1
SQA ¹	Sport, Recreation and Allied Occupations: Coaching, Teaching and Instruction	2
G3EP 22	Sport, Recreation and Allied Occupations: Activity Leadership	2

¹This SVQ can be achieved in a number of contexts. Contact SQA for codes.

Sporting Activities

Code no	Title of Unit	Level
D709 11	Sporting Activity – Alpine Skiing	Int 2
