## Evidence Requirements for the Unit

Assessors should use their professional judgement, subject knowledge and experience, and understanding of their learners, to determine the most appropriate ways to generate evidence and the conditions and contexts in which they are used.

Assessment evidence can be drawn from a variety of sources and presented in a variety of formats. The evidence does not need to be achieved in one activity, but can be assembled from a variety of tasks and assessments carried out throughout the Course. Evidence can be presented for individual Outcomes or gathered for the Unit or Course as a whole by combining assessment holistically in one single activity.

Exemplification of assessment is provided in *Unit Assessment Support*. Advice and guidance on possible approaches to assessment is provided in the *Unit Support Notes*.
