

UK Economic Activity (Higher) Unit

SCQF: level 6 (6 SCQF credit points)

Unit code: H236 76

Unit outline

The general aim of this Unit is to enable learners to understand economic activity of the government in the UK. Learners will consider the flow of income in the UK economy and will analyse taxation and spending decisions. They will learn to assess the policies and other methods the UK Government uses to achieve economic aims.

Learners who complete this Unit will be able to:

- 1 Assess the use of economic policies in achieving the main aims of the UK Government
- 2 Analyse the role of the public sector in the UK economy
- 3 Explain national income with reference to the circular flow of income and the multiplier effect

This Unit is a mandatory Unit of the Higher Economics Course and is also available as a free-standing Unit. The Unit Specification should be read in conjunction with the *Unit Support Notes*, which provide advice and guidance on delivery, assessment approaches and development of skills for learning, skills for life and skills for work. Exemplification of the standards in this Unit is given in *Unit Assessment Support*.

The *Course Assessment Specification* for the Higher Economics Course gives further mandatory information on Course coverage for learners taking this Unit as part of the Higher Economics Course.

Recommended entry

Entry to this Unit is at the discretion of the centre. However, learners would normally be expected to have attained the skills, knowledge and understanding required by one or more of the following or equivalent qualifications and/or experience:

- ◆ National 5 Economics Course or relevant component Units
- ◆ Numeracy (National 5) Unit
- ◆ Literacy (National 5) Unit

Examples of other such relevant prior learning and experiences would include an interest in the economy and/or current affairs.

Equality and inclusion

This Unit Specification has been designed to ensure that there are no unnecessary barriers to learning or assessment. The individual needs of learners should be taken into account when planning learning experiences, selecting assessment methods or considering alternative evidence. For further information, please refer to the *Unit Support Notes*.

Standards

Outcomes and assessment standards

Outcome 1

The learner will

- 1 Assess the use of economic policies in achieving the main aims of the UK Government by:**
 - 1.1 Explaining how monetary policy is used to achieve the UK Government's main aims
 - 1.2 Explaining how fiscal policy is used to achieve the UK Government's main aims

Outcome 2

The learner will:

- 2 Analyse the role of the public sector in the UK economy by:**
 - 2.1 Using examples, assess how changes in different types of taxation affect individuals or firms
 - 2.2 Using examples, assess how changes in different types of government spending affect the UK economy
 - 2.3 Explaining how a budget surplus or a budget deficit could affect the UK economy

Outcome 3

The learner will:

- 3 Explain national income with reference to the circular flow of income and the multiplier effect by:**
 - 3.1 Illustrating the circular flow of income for an open economy, using a correctly labelled diagram, with reference to injections and leakages
 - 3.2 Assessing the impact that leakages or injections may have on national income
 - 3.3 Describing the concept of the multiplier effect

Evidence Requirements for the Unit

Assessors should use their professional judgement, subject knowledge and experience, and understanding of their learners, to determine the most appropriate ways to generate evidence and the conditions and contexts in which they are used.

Evidence can be drawn from a variety of sources and presented in a variety of formats including short written responses and/or recorded oral evidence. Learners should use appropriate economic terminology in their responses at all times and, where appropriate, make use of relevant examples.

Evidence may be presented for individual Outcomes or it may be gathered for the Unit as a whole through combining assessment in one single activity. If the latter approach is used, it must be clear how the evidence covers each Outcome.

Exemplification of assessment is provided in *Unit Assessment Support*.
Advice and guidance on possible approaches to assessment is provided in the *Unit Support Notes*.

Development of skills for learning, skills for life and skills for work

It is expected that learners will develop broad, generic skills through this Unit. The skills that learners will be expected to improve on and develop through the Unit are based on SQA's *Skills Framework: Skills for Learning, Skills for Life and Skills for Work* and drawn from the main skills areas listed below. These must be built into the Unit where there are appropriate opportunities.

1 Literacy

1.2 Writing

2 Numeracy

2.3 Information handling

4 Employability, enterprise and citizenship

4.1 Employability

5 Thinking skills

5.3 Applying

5.4 Analysis and evaluating

Amplification of these is given in SQA's *Skills Framework: Skills for Learning, Skills for Life and Skills for Work*. The level of these skills should be at the same SCQF level of the Unit and be consistent with the SCQF level descriptor. Further information on building in skills for learning, skills for life and skills for work is given in the *Unit Support Notes*.
