Evidence Requirements for the Unit

Assessors should use their professional judgement, subject knowledge and experience, and understanding of their learners, to determine the most appropriate ways to generate evidence and the conditions and contexts in which they are used.

Evidence is required to show that the learner has met the Outcomes and Assessment Standards.

The sources used may be physical artefacts, audio/visual, or pictorial.

Assessment evidence can be drawn from a variety of activities and presented in a variety of formats including, for example, presentations, posters, brief written responses to questions, or participation in group tasks. All of the evidence does not need to come from the one activity, but can be assembled from a variety of tasks and assessments carried out during the duration of the Course.

Evidence may be presented for individual Outcomes or gathered for the Unit, Units or Course as a whole by combining assessment holistically.

Exemplification of assessment is provided in *Unit Assessment Support*. Advice and guidance on possible approaches to assessment is provided in the *Unit Support Notes*.
