## Physical Education: Performance Skills (National 3)

**SCQF:** level 3 (9 SCQF credit points)

**Unit code:** H252 73

### Unit outline

The general aim of this Unit is to provide learners with the opportunity to develop and safely demonstrate a range of basic movement and performance skills in familiar contexts. The Unit will enable learners to experience a range of physical activities that will provide contexts for reinforcing and extending these basic skills. They will also learn how to respond to and meet the physical demands of performance in a safe and effective way. The Unit offers opportunities for personalisation and choice in the selection of physical activities

Learners who complete this Unit will be able to:

- 1 Demonstrate a range of basic movement and performance skills during physical activities in familiar contexts.

This Unit is a mandatory Unit of the National 3 Physical Education Course and is also available as a free-standing Unit. The Unit specification should be read in conjunction with the *Unit Support Notes*, which provide advice and guidance on delivery, assessment approaches and development of skills for learning, skills for life and skills for work. Exemplification of the standards in this Unit is given in *Unit Assessment Support*.

### Recommended entry

Entry to this Unit is at the discretion of the centre. However, learners would normally be expected to have attained the skills, knowledge and understanding required by the following or equivalent qualifications and/or experience:

- ◆ National 2 Physical Education Course or relevant component Units

## **Equality and inclusion**

This Unit Specification has been designed to ensure that there are no unnecessary barriers to learning or assessment. The individual needs of learners should be taken into account when planning learning experiences, selecting assessment methods or considering alternative evidence. For further information, please refer to the *Unit Support Notes*.

# Standards

## Outcomes and Assessment Standards

### Outcome 1

The learner will:

- 1 **Demonstrate a range of basic movement and performance skills during physical activities in familiar contexts by:**
  - 1.1 Selecting and applying a range of basic movement and performance skills in familiar contexts, demonstrating basic control, fluency and safety
  - 1.2 Demonstrating basic body and spatial awareness with occasional identifiable patterns and rhythms
  - 1.3 Making appropriate decisions and routine adaptations to composition or tactics

### Evidence Requirements for the Unit

Assessors should use their professional judgement, subject knowledge and experience, and understanding of their learners, to determine the most appropriate ways to generate evidence and the conditions and contexts in which they are used.

While the context for learning can be provided by a range of physical activities, learners must provide evidence for assessment from **two** physical activities.

Performance in this Unit can be assessed within any realistic experience, situation or conditioned activity. Evidence should be collected over a period of time that is sufficient to allow the learner to demonstrate the standards required.

Exemplification of assessment is provided in *Unit Assessment Support*. Advice and guidance on possible approaches to assessment is provided in the *Unit Support Notes*.

# Development of skills for learning, skills for life and skills for work

It is expected that learners will develop broad, generic skills through this Unit. The skills that learners will be expected to improve on and develop through the Unit are based on SQA's *Skills Framework: Skills for Learning, Skills for Life and Skills for Work* and are drawn from the main skills areas listed below. These must be built into the Unit where there are appropriate opportunities.

## **1 Literacy**

1.1 Listening and talking

## **3 Health and wellbeing**

3.2 Emotional wellbeing

3.3 Physical wellbeing

## **4 Employability, enterprise and citizenship**

4.3 Working with others

## **5 Thinking skills**

5.1 Remembering

5.3 Applying

Amplification of these is given in SQA's *Skills Framework: Skills for Learning, Skills for Life and Skills for Work*. The level of these skills should be at the same SCQF level as the Unit and be consistent with the SCQF level descriptor. Further information on building in skills for learning, skills for life and skills for work is given in the *Unit Support Notes*.
