

## National Unit Specification: general information

**UNIT** Woodmachining: Narrow Bandsaws (SCQF level 6)

**CODE** F7GP 12

### SUMMARY

This Unit is suitable for candidates working towards a Modern Apprenticeship in Woodmachining and will develop the candidate's competence in selecting materials, servicing machinery, positioning and securing tooling and operating a narrow bandsaw. It is also designed to enable candidates to develop their knowledge and understanding in woodmachining terminology, techniques and current safe working practices in relation to narrow bandsaws.

### OUTCOMES

- 1 Demonstrate knowledge and understanding of terminology, machine parts, use and maintenance of a Narrow Bandsaw machine.
- 2 Maintain and set a Narrow Bandsaw blade.
- 3 Maintain and set up a Narrow Bandsaw machine.
- 4 Operate machinery and equipment to economically produce components.

### RECOMMENDED ENTRY

While entry is at the discretion of the centre, candidates undertaking the Professional Development Award in Woodmachining at SCQF level 6 must meet the requirements of the Modern Apprentices which include being employed in the relevant craft industry.

### CREDIT VALUE

1 credit at SCQF level 6 (6 SCQF credit points at SCQF level 6\*).

*\*SCQF credit points are used to allocate credit to qualifications in the Scottish Credit and Qualifications Framework (SCQF). Each qualification in the Framework is allocated a number of SCQF credit points at an SCQF level. There are 12 SCQF levels, ranging from Access 1 to Doctorates.*

---

### Administrative Information

**Superclass:** TG

Additional copies of this Unit Specification can be purchased from the Scottish Qualifications Authority. Please contact the Customer Contact Centre, telephone 0845 279 1000.

## **National Unit Specification: general information (cont)**

**UNIT**      Woodmachining: Narrow Bandsaws (SCQF level 6)

### **CORE SKILLS**

While there is no automatic certification of Core Skills or Core Skills components in this Unit, opportunities for developing aspects of the following Core Skills are highlighted in support notes of this Unit:

- ◆ *Problem Solving* at SCQF level 4
- ◆ *Working with Others* at SCQF level 4
- ◆ *Numeracy* at SCQF level 4
- ◆ *Communication* at SCQF level 4

## **National Unit Specification: statement of standards**

### **UNIT      Woodmachining: Narrow Bandsaws (SCQF level 6)**

Acceptable performance in this Unit will be the satisfactory achievement of the standards set out in this part of the Unit Specification. All sections of the statement of standards are mandatory and cannot be altered without reference to SQA.

#### **OUTCOME 1**

Demonstrate knowledge and understanding of terminology, machine parts, use and maintenance of a Narrow Bandsaw machine.

##### **Performance Criteria**

- (a) Correctly define narrow bandsaw terminology.
- (b) State legislation applying to narrow bandsaws.
- (c) Correctly identify machine and main machine parts.
- (d) Correctly state the function of the machine and the main machine parts.
- (e) Correctly state the main parts of bandsaw blade.
- (f) Correctly identify lubricants and their uses for cleaning and maintenance.

#### **OUTCOME 2**

Maintain and set a Narrow Bandsaw blade.

##### **Performance Criteria**

- (a) Correctly butt weld a narrow bandsaw blade.
- (b) Accurately set a narrow bandsaw blade.
- (c) Correctly sharpen a narrow bandsaw blade.
- (d) Fold and store a narrow bandsaw blade safely.
- (e) Comply with current health and safety regulations in all work methods and throughout all practical activities.

#### **OUTCOME 3**

Maintain and set up a Narrow Bandsaw machine.

##### **Performance Criteria**

- (a) Correctly clean and maintain machinery and equipment.
- (b) Demount, transport and store saw blade safely.
- (c) Correctly examine the blades for flaws and damage.
- (d) Correctly mount sharp blade on the machine.
- (e) Accurately adjust and test the machine.
- (f) Comply with current health and safety regulations in all work methods and throughout all practical activities.

## **National Unit Specification: statement of standards (cont)**

### **UNIT** Woodmachining: Narrow Bandsaws (SCQF level 6)

#### **OUTCOME 4**

Operate machinery and equipment to economically produce components.

#### **Performance Criteria**

- (a) Correctly operate a narrow bandsaw cutting freehand to a line.
- (b) Correctly operate a narrow bandsaw using a fence correctly.
- (c) Correctly operate a narrow bandsaw using a jig correctly.
- (d) Comply with current health and safety regulations in all work methods and throughout all practical activities.

#### **EVIDENCE REQUIREMENTS FOR THIS UNIT**

Evidence is required to demonstrate that the candidates have achieved this Unit to the standard specified all Outcomes and Performance Criteria. All working practices must be in line with relevant and current Health and Safety legislation and regulations. A Risk Assessment and Method Statement must be completed **prior** to any practical activities taking place.

Written and/or oral evidence is required to show that the candidate has achieved the standards specified in the Performance Criteria in Outcome 1. Evidence is required which demonstrates the candidate understands the terminology and can describe the function of the narrow bandsaw machine and provide correct annotation to identify nine machine parts and state their functions, legislation and maintenance associated with the narrow bandsaw. The candidate must also identify at least four main parts of the blade. Evidence for this Outcome will be obtained under closed-book supervised conditions.

Performance evidence supplemented with assessor observation checklist should be used to show that the candidate has achieved the standards specified in the Performance Criteria in Outcomes 2, 3 and 4. The candidate will be observed to show that they can select appropriate lubricants, oil can and grease gun before using vacuum equipment, rags and lubricants to maintain the machinery and equipment and the candidate must also report any faults identified during maintenance in accordance with recognised policy. Evidence is needed to show the candidate can butt-weld, set and sharpen a narrow bandsaw blade, select the correct bandsaw blade for a given task and check the blade condition for safe working. The candidate must give at least two reasons for selecting a blade and correctly check the condition of four blades. For Outcome 4 the candidate must machine components by cutting freehand to a line using a fence and using a jig.

Candidates work methods and activities must be correct in terms of:

- ◆ sequencing operations
- ◆ minimising wastage of materials
- ◆ satisfying current safety regulations

These Evidence Requirements will be met by the completion of the Training and Assessment Programme (TAP) Woodmachining.

## National Unit Specification: support notes

### UNIT Woodmachining: Narrow Bandsaws (SCQF level 6)

This part of the Unit Specification is offered as guidance. The support notes are not mandatory.

While the exact time allocated to this Unit is at the discretion of the centre, the notional design length is 40 hours.

#### **GUIDANCE ON THE CONTENT AND CONTEXT FOR THIS UNIT**

This Unit has been developed as a mandatory Unit in the PDA in Woodmachining at SCQF level 6 which is a mandatory component of the Modern Apprenticeship. The content and context of this Unit is aimed at candidates who are pursuing a career in the craft of Woodmachining.

The candidate successfully completing this Unit will require underpinning knowledge and skills relating to the practical applications of woodmachining and equipment, the design and use of equipment for specific purposes and manufacturing processes including the correct sequencing of operations, safe working practices and safety legislation.

This Unit would be offered to candidates from the construction and related services. The skills are transferable within different working environments but the Unit is primarily aimed at candidates whose normal place of work would be a site, workshop or similar environment.

The Unit deals with the theory and practice associated with the setting up, servicing and use of a narrow bandsaw and is complemented by Units dealing with work in Woodmachining. It should be delivered as part of a structured programme of training and orientated to the context of the candidate's work and area of responsibility. The context of this Unit allows for a holistic integrated approach for other Units within the PDA in Woodmachining. Therefore there are opportunities within this Unit to integrate aspects of *Woodmachining: Toolroom (Cutters)* and *Woodmachining: Craft Projects* at SCQF level 6.

Health and Safety and Sustainability are integral and key to the Construction Industry therefore throughout the Unit emphasis will be placed where appropriate on the application of Health and Safety and Sustainability. Safety working practices should be looked at in accordance with current safety codes of practice and regulations. Sustainability should include reference to criteria affecting sustainability, impact of not implementing sustainability on the environment and the legislation promoting sustainability.

## **National Unit Specification: support notes (cont)**

### **UNIT      Woodmachining: Narrow Bandsaws (SCQF level 6)**

#### **GUIDANCE ON LEARNING AND TEACHING APPROACHES FOR THIS UNIT**

##### **Outcome 1**

The candidate should be introduced to all aspects of the narrow bandsaw to include the machine and its parts plus all regulations that coincide with the narrow bandsaw. Workshop safety and machine safety can be explained with practical demonstrations given on the correct methods of setting up each part required in the running of the narrow bandsaw machine. It is important to stress the need for strict adherence to the instructions and safety requirements applicable to each machine. Correct terminology should be used throughout.

##### **Outcome 2**

Candidates may work in pairs for this Outcome. The candidate should be presented with maintenance checklists, and manufacturer's handbooks. This should allow the candidate to carry out lubrication of the machine according to manufacturer's advice. Group discussion on lubrication procedures with particular emphasis on safe working practices should assist the candidate in gaining the necessary competences. The candidate should also be presented with various tools to allow the butt-welding, setting and sharpening a narrow bandsaw blade. The tutor/trainer should demonstrate the correct methods to be employed to achieve the Outcome with an emphasis on safe working practices and sequencing of operations.

##### **Outcome 3**

Candidates may work in pairs for this Outcome. Emphasis should be placed on the process required for selecting a machine blade and the importance of examining the blades to determine their condition before they are used for setting-up the machine. The candidate should be introduced to all aspects of the Narrow Bandsaw in relations to:

- ◆ Type of material
- ◆ Depth of cut
- ◆ Radius of cut
- ◆ Condition of blade: sharpness; set; checks for twists; checks for cracks; correct butt weld joint
- ◆ Bandsaw blade: pitch; hook; clearance angle; set gauge

Workshop safety and machine safety can be explained with demonstrations given on the correct methods of setting up each machine. Tutors should show the candidate how to select the correct bandsaw blade and check the condition for safe working. Correct terminology should be used throughout.

## National Unit Specification: support notes (cont)

### UNIT Woodmachining: Narrow Bandsaws (SCQF level 6)

#### Outcome 4

Candidates may work in pairs for this Outcome. The candidate should be provided with appropriate workshop drawings containing specifications outlining the demands, for the practical exercise and Performance Criteria. All working practices must be in line with current and relevant health and safety legislation and regulations.

The candidate should be given the opportunity to further develop the skills through classroom teaching with visual aids, electronic presentations, DVDs, e-learning, reference books, classroom exercises and group discussions. The function of each component should be thoroughly demonstrated. Safe working practise methods should be demonstrated and attempted by candidates showing good technique in measuring and marking out of materials, setting and safe operation of machine. This teaching approach should ensure the candidate is acquiring the underpinning knowledge required for the Unit.

At the time of writing the following safety requirements apply: HSW (Health and Safety at Work etc.) Act; COSHH (Control of Substances Hazardous to Health) Regulations, Approved code of practice (ACOP), Provision and use of work equipment (PUWER).

Opportunities should be taken throughout delivery of this Unit to meet the requirements of the generic Units of the Training and Assessment Programme including:

- ◆ Conform to Efficient Working Practices
- ◆ Conform to General Workplace Safety
- ◆ Move and Handle Resources
- ◆ Confirm Work Activities and Resources for the Work
- ◆ Develop and Maintain Good Working Relationships
- ◆ Confirm the Occupational Method of Work

#### OPPORTUNITIES FOR CORE SKILL DEVELOPMENT

There are opportunities to develop the Core Skill of *Problem Solving* at SCQF level 4. Candidates will need to take account of a range of factors in order to work efficiently and safely, such as the choice of tools, appropriate materials, safety issues, safety equipment and sustainability. Individual discussions with assessors and the use of role play will enhance the evaluation of efficient working practices.

There are opportunities to develop the Core Skill of *Working with Others* at SCQF level 4, particularly in Outcomes 2 and 3, as these practical assessments could be carried out in pairs. Candidates can agree responsibilities and provide support and information to each other during the practical group activities.

There are opportunities to develop the Core Skill of *Numeracy* at SCQF level 4 through the interpretation of information from 3 dimensional working drawings and the practical use of calculation and measuring scales.

## **National Unit Specification: support notes (cont)**

### **UNIT      Woodmachining: Narrow Bandsaws (SCQF level 6)**

There are opportunities to develop the Core Skill of *Communication* at SCQF level 4 throughout practical tasks, as candidates should be expected to communicate with others using the correct terminology, tone and style suited to the workplace.

#### **GUIDANCE ON APPROACHES TO ASSESSMENT FOR THIS UNIT**

Section 6 of the Woodmachining Training and Assessment Programme (TAP) provides detailed assessment material for this Unit. It is advised to use the TAP which has been developed centrally by SQA. Any other instrument of assessment used must be comparable to the TAP and have been through prior verification. It is expected that candidates will be given as much practise as possible, prior to being set the assessment tasks contained within the TAP.

An appropriate method of assessing the candidate's knowledge and understanding of terminology and components in relation to narrow bandsaw machines would be through a question paper conducted under controlled, supervised conditions.

A series of practical activities will allow sufficient evidence to be gathered for Outcomes 2, 3 and 4.

#### **Opportunities for the use of e-assessment**

E-assessment may be appropriate for some assessments in this Unit. By e-assessment we mean assessment which is supported by information and communications technology (ICT), such as e-testing or the use of e-portfolios or e-checklists. Centres which wish to use e-assessment must ensure that the national standard is applied to all candidate evidence and that conditions of assessment as specified in the Evidence Requirements are met, regardless of the mode of gathering evidence. Further advice is available in *SQA Guidelines on Online Assessment for Further Education (AA1641, March 2003)*, *SQA Guidelines on e-assessment for Schools (BD2625, June 2005)*.

#### **DISABLED CANDIDATES AND/OR THOSE WITH ADDITIONAL SUPPORT NEEDS**

The additional support needs of individual candidates should be taken into account when planning learning experiences, selecting assessment instruments, or considering whether any reasonable adjustments may be required. Further advice can be found on our website [www.sqa.org.uk/assessmentarrangements](http://www.sqa.org.uk/assessmentarrangements)
