## QCF Unit specification

<b>Title</b>	Planning Costume Requirements for a Production	
<b>Level</b>	3	
<b>Credit value</b>	2	
<b>Learning Outcomes</b>	<b>Assessment Criteria</b>	
<b>The learner will:</b>	<b>The learner can:</b>	
1 Be able to understand the designs and resource constraints for costume construction for a given production.	1.1	Carry out research to establish the requirements for the costumes needed in terms of period, shape and look.
	1.2	Describe the scale and nature of the production and the impact this has on the costume requirements.
	1.3	Identify and agree the creative and production requirements with the relevant people.
2 Be able to develop clear and up to date plans for costume that meet production requirements.	2.1	Develop a detailed plan for the production period that is consistent with the design and production requirements.
	2.2	Liaise with appropriate people to ensure that the plan takes account of other areas of the production (eg when performers are free for fittings).
	2.3	Identify and discuss with the appropriate people any difficulties in meeting the requirements, suggesting solutions where appropriate.
3 Be able to plan how to manage resources safely and effectively.	3.1	Prepare estimates that take account of: <ul style="list-style-type: none"> <li>◆ The quantities and types of materials needed.</li> <li>◆ The time and labour needed for each costume.</li> <li>◆ The cost of making each costume, ensuring that this is within agreed budgets.</li> </ul>

<b>Learning Outcomes</b>	<b>Assessment Criteria</b>
<b>The learner will:</b>	<b>The learner can:</b>
	<p>3.2 Identify the number of personnel needed and the skills they should have.</p> <p>3.3 Identify the resources required taking account of suitability of location and availability of facilities.</p>

<b>Additional information about the Unit</b>
<b>Unit purpose and aim(s)</b>
The purpose of this Unit is for learners to be able to develop plans for costume requirements for a given production, showing how to manage resources safely and effectively and taking into account a range of constraints.
<b>Unit expiry date</b>
31 December 2016
<b>Details of the relationship between the Unit and relevant national occupational standards (if appropriate)</b>
N/A
<b>Details of the relationship between the Unit and other standards or curricula (if appropriate)</b>
N/A
<b>Assessment requirements specified by a sector or regulatory body (if appropriate)</b>
Creative and Cultural Skills Overarching Assessment Principles
<b>Endorsement of the Unit by a sector or other appropriate body (if required)</b>
N/A
<b>Location of the Unit within the subject/sector classification system</b>
9.2 Crafts, Creative Arts and Design
<b>Name of the organisation submitting the Unit</b>
SQA
<b>Availability for use</b>
Shared
<b>Availability for delivery</b>
01 November 2014

<b>Additional information about the Unit (cont)</b>
<b>Guided Learning Hours</b>
12

## QCF Assessment specification

### Assessment (evidence) Requirements

Assessors must ensure that learners provide evidence to cover all the Learning Outcomes and Assessment Criteria.

This Unit is designed to assess the skills of learners in the workplace. Evidence of occupational competence should be generated and collected through performance in workplace conditions. This includes the knowledge-based Learning Outcomes and Assessment Criteria of the competence Units.

These conditions would be those typical to the learner's normal place of work. The evidence collected under these conditions should also be as naturally occurring as possible. It is accepted that not all employees have identical workplace conditions and therefore there cannot be assessment conditions that are identical for all learners. However, assessors must ensure that, as far as possible, the conditions for assessment should be those under which the learner usually works.

Collection of evidence of performance can be used to substantiate, support and expand the evidence base for competent performance. This may include:

- ◆ Observation
- ◆ Product and photographic evidence
- ◆ Relevant active documentation, reports, presentations

#### Performance Evidence: Observation

Observation of performance at work. Assessors must provide information about the context of the assessment.

#### Performance Evidence: Products

Work products (such as reports, letters, memos, printouts, presentations, etc) are valuable items of performance evidence. Assessors are encouraged to assess work products and record the location of evidence within their assessment records. Assessment centres using 'paperless portfolios' should first discuss their approach to assessment with their awarding body.

### Guidance on Methods/Instruments of Assessment

This Unit is designed to assess the knowledge of learners in the workplace. Learning Outcomes may be assessed by a work-based assessment or by observation/product evidence/witness testimony. Online assessment may also be used. The collection of supplementary evidence of performance can be used to further substantiate, support and expand the evidence base for competent performance where this is necessary. This may be required depending on the size of the organisation in which the learner is working.

Supplementary evidence may include:

- ◆ Questioning
- ◆ Professional discussion
- ◆ Witness testimony
- ◆ Other valid evidence which relates directly to learner performance

## Guidance on Methods/Instruments of Assessment (cont)

### Supporting Evidence: Questioning

Assessment by observation and examination of work products usually results in inferred knowledge. As a result, questions should only be asked to fill gaps where knowledge is not explicit. This style of assessment still requires the assessor to confirm how knowledge and understanding has been addressed but avoids over assessment of the learner.

Questioning includes: verbal and written questioning, questionnaires, work-based tasks, reflective accounts, case studies, professional discussion and feedback reports.

### Supporting Evidence: Professional Discussion

Professional discussion is a single, or series of structured, planned and in-depth discussions which can be recorded electronically or manually in paper, computer, audio or video files. Professional discussions can be used to support observation reports, examination of work products and knowledge questionnaires. It is more usually used to fill in gaps in existing performance and knowledge evidence. It can be used formatively and summatively, and using it enhances the assessment process for both learners and assessors.

Professional discussion is used in holistic assessment, which is rigorous, informative and cost-effective, provided the learner is competent in their job role and ready to be assessed. If these conditions are met, assessors can plan to assess naturally-occurring 'evidence-rich' opportunities at work by observation, examination of work products, professional discussion and questioning knowledge within one assessment session. It is also possible for assessors to obtain witness testimonies at the same assessment session. Such a comprehensive activity is likely to focus on major work activities that demonstrate learner competence.

### Supporting Evidence: Witness Testimony

Witness testimony can provide valuable evidence of learner competence. In line with established principles it must be:

- ◆ a clear, authentic statement indicating how the learner carries out their job
- ◆ dated, signed and include the job title of the witness

### Supporting Evidence: Other qualifications

Other qualifications can be used as supporting evidence in a learner's portfolio. The qualification must be current and be benchmarked to one or more of the national occupational standards. However, it will only be supporting evidence, as assessors must still make judgements about how the learner demonstrates competence at work.

*SQA's Guide to Assessment* provides information on appropriate instruments of assessment. This guide is designed to provide support for everyone who assesses for SQA qualifications. It looks at the principles of assessment, and brings together information on assessment in general as well as on best practice in assessment.

The *Guide to Assessment* can be downloaded free from SQA's website [www.sqa.org.uk](http://www.sqa.org.uk).

Creative and Cultural Skills Overarching Assessment Principles also supports the assessment of this Unit.
