## Regulated qualifications unit specification

<b>Title</b>	Clean Boat and Yacht Hulls	
<b>Level</b>	2	
<b>Credit value</b>	3	
<b>Outcomes</b>	<b>Assessment criteria</b>	
<b>The learner will:</b>	<b>The learner can:</b>	
1 Be able to clean the vessel hull safely and to the required standard.	1.1 Clean the boat or yacht hull to the required standard.	1.2 Demonstrate how to make effective use of cleaning equipment and working methods.
	1.3 Inspect electrical and mechanical equipment used for cleaning.	1.4 Demonstrate safe working practices when cleaning boat or yacht hulls.
	1.5 Use, handle and store cleaning substances safely and correctly.	1.6 Collect and dispose of effluent according to organisational procedures.
2 Know how to clean boat and yacht hulls in line with organisational standards.	2.1 Explain the importance of having clean hull to the performance and efficiency of boats and yachts.	2.2 Describe how vessels should be prepared for cleaning.
	2.3 Describe the processes and techniques for removing excess dirt and debris.	2.4 Describe the equipment that can be used to clean the hulls of boats and yachts.
3 Understand how to operate cleaning equipment safely.	3.1 Describe how to use, handle and correctly store cleaning equipment and materials.	3.2 Describe the health and safety risks when cleaning boat and yacht hulls.
	3.3 Describe which materials and substances may cause injury or harm.	

<b>Outcomes</b>	<b>Assessment criteria</b>
<b>The learner will:</b>	<b>The learner can:</b>
	<p>3.4 Describe how to use electrical appliances safely.</p> <p>3.5 State the approved methods for disposing of effluent from the cleaning process.</p>

<b>Additional information about the unit</b>
<b>Unit purpose and aim(s)</b>
This unit assesses the learner's knowledge and skills associated with cleaning boat and yacht hulls. This includes the use of electrically or mechanically operated pressure washing equipment. Learners are also required to understand and be able to safely dispose of effluent left over from the cleaning process.
<b>Unit start date</b>
01/08/2014
<b>Details of the relationship between the unit and relevant national occupational standards (if appropriate)</b>
This unit is based on NOS Unit LCNCS 72 Clean and Maintain Work Equipment developed by Lantra.
<b>Details of the relationship between the unit and other standards or curricula (if appropriate)</b>
N/A
<b>Assessment requirements specified by a sector or regulatory body (if appropriate)</b>
Assessment will be by a combination of the following methods — assignment; knowledge based testing; project work; presentation; practical demonstration; other — as agreed in consultation with the external verifier.
<b>Endorsement of the unit by a sector or other appropriate body (if required)</b>
Maritime Skills Alliance, British Marine Federation, The Yacht Harbour Association
<b>Location of the unit within the subject/sector classification system</b>
4.3 Transportation Operations and Maintenance
<b>Name of the organisation submitting the unit</b>
Skills for Logistics
<b>Guided learning hours</b>
18

## Regulated qualifications assessment specification

### Assessment (evidence) requirements

The following evidence is required to demonstrate that learners have the appropriate level of knowledge to *Clean Boat and Yacht Hulls*.

All outcomes and assessment criteria must be achieved.

Written and/or recorded oral evidence produced either on or off-the-job is required for the following:

- ◆ Outcomes 2–3

Performance evidence in the workplace is required for the following:

- ◆ Outcome 1

This could be achieved through the observation of learners undertaking practical exercises in the workplace.

An approved British Marine Federation approved Training Record Book (TRB) should be used to record evidence of achievement.

### Guidance on assessment

Performance evidence can be generated using practical exercises in the workplace.

Short answer written questions and/or oral interview could be used for the other outcomes and assessment criteria.
