

Unit Specification for Regulated Qualifications

Unit title	Installing Direct Bond Dry Lining Systems in the Workplace
Unit Level	2
Credit	11
Guided Learning Hours	37
SQA Unit code	HW49 68
Regulator Unit code	D/616/5650
Publication date	October 2017
Unit owner and reference	CITB Unit ref 68 v2 PL
Version	1

Title:	Installing direct bond dry lining systems in the workplace	
Level:	2	
Value for TQT:	110	
Learning outcomes <i>The learner will be able to:</i>	Assessment criteria <i>The learner can:</i>	
1 Interpret the given information relating to the work and resources when installing direct bond dry lining systems.	1.1	Interpret and extract relevant information from drawings, specifications, schedules, method statements, risk assessments and manufacturers' information.
	1.2	Comply with information and/or instructions derived from risk assessments and method statements.
	1.3	Describe the organisational procedures developed to report and rectify inappropriate information and unsuitable resources and how they are implemented.
	1.4	Describe different types of information, their source and how they are interpreted in relation to: <ul style="list-style-type: none"> – drawings, specifications, schedules, method statement, risk assessments, manufacturers' information and current regulations governing buildings.
2 Know how to comply with relevant legislation and official guidance when installing direct bond dry lining systems.	2.1	Describe their responsibilities regarding potential accidents , health hazards and the environment whilst working: <ul style="list-style-type: none"> – in the workplace, below ground level, in confined spaces, at height, with tools and equipment, with materials and substances, with movement/storage of materials and by manual handling and mechanical lifting.
	2.2	Describe the organisational security procedures for tools, equipment and personal belongings in relation to site, workplace, company and operative.
	2.3	Explain what the accident reporting procedures are and who is responsible for making reports.
3 Maintain safe and healthy working practices when installing direct bond dry lining systems.	3.1	Use health and safety control equipment safely and comply with the methods of work to carry out the activity in accordance with current legislation and organisational requirements when installing direct bond dry lining systems.
	3.2	Demonstrate compliance with given information and relevant legislation when in relation to the following: <ul style="list-style-type: none"> – safe use of access equipment/working platforms – safe use, storage and handling of materials, tools and equipment – specific risks to health

Title:	
Installing direct bond dry lining systems in the workplace	
Learning outcomes <i>The learner will be able to:</i>	Assessment criteria <i>The learner can:</i>
3 continued	3.3 Explain why and when health and safety control equipment identified by the principles of prevention should be used, relating to installing direct bond dry lining systems, and the types, purpose and limitations of each type, the work situation and general work environment, in relation to: <ul style="list-style-type: none"> – collective protective measures – personal protective equipment (PPE) – respiratory protective equipment (RPE) – local exhaust ventilation (LEV)
	3.4 Describe how relevant health and safety control equipment should be used in accordance with given working instructions.
	3.5 Describe how emergencies should be responded to in accordance with organisational authorisation and personal skills when involved with fires, spillages, injuries and other task-related activities.
4 Select the required quantity and quality of resources for the methods of work to install direct bond dry lining systems.	4.1 Select resources associated with own work in relation to materials, components, fixings, tools and equipment.
	4.2 Describe the characteristics, quality, uses, sustainability, limitations and defects associated with the resources in relation to: <ul style="list-style-type: none"> – manufactured proprietary boards – bonding compounds – fixings – hand tools, portable power tools and ancillary equipment.
	4.3 Describe how the resources should be used correctly and how problems associated with the resources are reported.
	4.4 Explain why the organisational procedures have been developed and how they are used for the selection of required resources.
	4.5 Describe any potential hazards associated with the resources and methods of work.
	4.6 Describe how to calculate quantity, length, area and wastage associated with the method/procedure to install direct bond dry lining systems.

Title:		Installing direct bond dry lining systems in the workplace
Learning outcomes <i>The learner will be able to:</i>		Assessment criteria <i>The learner can:</i>
5	Minimise the risk of damage to the work and surrounding area when installing direct bond dry lining systems.	5.1 Protect the work and its surrounding area from damage in accordance with safe working practices and organisational procedures.
		5.2 Minimise damage and maintain a clean work space.
		5.3 Dispose of waste in accordance with current legislation.
		5.4 Describe how to protect work from damage and the purpose of protection in relation to general workplace activities, other occupations and adverse weather conditions.
		5.5 Explain why the disposal of waste should be carried out safely in accordance with environmental responsibilities, organisational procedures, manufacturers' information, statutory regulations and official guidance.
6	Complete the work within the allocated time when installing direct bond dry lining systems.	6.1 Demonstrate completion of the work within the allocated time.
		6.2 Describe the purpose of the work programme and explain why deadlines should be kept in relation to: <ul style="list-style-type: none"> – types of progress charts, timetables and estimated times – organisational procedures for reporting circumstances which will affect the work programme.
7	Comply with the given contract information to install direct bond dry lining systems to the required specification.	7.1 Demonstrate the following work skills when installing direct bond dry lining systems: <ul style="list-style-type: none"> – measuring, marking out, mixing, cutting, applying, fitting, finishing, positioning and securing.
		7.2 Use and maintain hand tools, portable power tools and ancillary equipment.
		7.3 Prepare background surfaces, mix bonding compounds and install dry lining systems to given working instructions to include <ul style="list-style-type: none"> – direct bonding to solid backgrounds – forming openings with reveals – form seals around perimeter and services – fit around services

Title:	Installing direct bond dry lining systems in the workplace	
Learning outcomes <i>The learner will be able to:</i>	Assessment criteria <i>The learner can:</i>	
7 continued	7.4	Describe how to apply safe, and healthy work practices, follow procedures, report problems and establish the authority needed to rectify them, to: <ul style="list-style-type: none"> – mix bonding compounds – install internal dry linings by direct bond to solid backgrounds – form openings and reveals – fit around services – form seals around perimeter and services – repair direct bond dry internal linings – maintain ventilation as appropriate – recognise and determine when specialist skills and knowledge are required and report accordingly – understand specific requirements for structures of special interest, traditional build (pre 1919) and historical significance – use hand tools, portable power tools and ancillary equipment – work at height – use access equipment/working platforms.
	7.5	Describe the needs of other occupations and how to effectively communicate within a team when installing direct bond dry lining systems.
	7.6	Describe how to maintain the tools and equipment used when installing direct bond dry lining systems.

Title:	Installing direct bond dry lining systems in the workplace
Additional information about this unit	
Assessment Guidance	<p>This unit must be assessed in a work environment and in accordance with the ConstructionSkills' Consolidated Assessment Strategy for Construction and the Built Environment</p> <p>Assessors for this unit must have verifiable, current industry experience and a sufficient depth of relevant occupational expertise and knowledge, and must use a combination of assessment methods as defined in the Consolidated Assessment Strategy.</p> <p>Workplace evidence of skills cannot be simulated.</p>
Sector Subject Area	5.2 Building and Construction
Availability for use	Shared unit
Unit guided learning hours	37
