

## Unit Specification for Regulated Qualifications

<b>Unit title</b>	Manufacturing routine shopfitting products in the workplace
<b>Unit Level</b>	2
<b>Credit</b>	190
<b>Guided Learning Hours</b>	63
<b>SQA Unit code</b>	HY9K 68
<b>Regulator Unit code</b>	J/600/7206
<b>Publication date</b>	April 2018
<b>Unit Owner and Reference</b>	CITB 16Bv3
<b>Version</b>	1

<b>Title:</b>	Manufacturing routine shopfitting products in the workplace	
<b>Level:</b>	2	
<b>Value for TQT:</b>	190	
<b>Learning outcomes</b> <i>The learner will be able to:</i>	<b>Assessment criteria</b> <i>The learner can:</i>	
1 Interpret the given information relating to the work and resources when manufacturing routine shopfitting products.	1.1	Interpret and extract relevant information from drawings, specifications, schedules, method statements, risk assessments, cutting lists and manufacturers' information.
	1.2	Comply with information and/or instructions derived from risk assessments and method statement.
	1.3	State the organisational procedures developed to report and rectify inappropriate information and unsuitable resources and how they are implemented.
	1.4	Describe different types of information, their source and how they are interpreted in relation to: <ul style="list-style-type: none"> <li>– drawings, specifications, schedules, method statements, risk assessments, cutting lists</li> <li>manufacturers' information, component standards and regulations governing buildings (animal welfare).</li> </ul>
2 Know how to comply with relevant legislation and official guidance when manufacturing routine shopfitting products.	2.1	Describe their responsibilities under current legislation and official guidance whilst working: <ul style="list-style-type: none"> <li>– in the workplace, at height, with tools and equipment, with materials and substances, with movement/storage of materials and by manual handling and mechanical lifting.</li> </ul>
	2.2	Describe the organisational security procedures for tools, equipment and personal belongings in relation to site, workplace, company and operative.
	2.3	Explain what the accident reporting procedures are and who is responsible for making reports.
	2.4	State the types of fire extinguishers available when manufacturing routine shopfitting products and describe how and when they are used.

<b>Title:</b>	Manufacturing routine shopfitting products in the workplace	
<b>Learning outcomes</b> <i>The learner will be able to:</i>	<b>Assessment criteria</b> <i>The learner can:</i>	
<p>3 Maintain safe working practices when manufacturing routine shopfitting products.</p>	<p>3.1 Use health and safety control equipment safely to carry out the activity in accordance with legislation and organisational requirements when manufacturing routine shopfitting products.</p>	
	<p>3.2 Explain why and when health and safety control equipment, identified by the principles of protection, should be used, relating to manufacturing routine shopfitting products, and the types, purpose and limitations of each type, the work situation and general work environment, in relation to:</p> <ul style="list-style-type: none"> <li>– collective protective measures</li> <li>– personal protective equipment (PPE)</li> <li>– respiratory protective equipment (RPE)</li> <li>– local exhaust ventilation (LEV).</li> </ul>	
	<p>3.3 Describe how the relevant health and safety control equipment should be used in accordance with the given instructions.</p>	
	<p>3.4 State how emergencies should be responded to in accordance with organisational authorisation and personal skills when involved with fires, spillages, injuries and other task-related hazards.</p>	
<p>4 Select the required quantity and quality of resources for the methods of work to manufacture routine shopfitting products.</p>	<p>4.1 Select resources associated with own work in relation to materials, components, fixings, tools and equipment.</p>	
	<p>4.2 Describe the characteristics, quality, uses, sustainability, limitations and defects associated with the resources in relation to:</p> <ul style="list-style-type: none"> <li>– timber, manufactured sheet material, pre-machined components, setting out rods, non-ferrous metal, fabric, glass, plastic, ironmongery, adhesives, fixings and associated ancillary items</li> <li>– hand and/or powered tools and equipment.</li> </ul>	
	<p>4.3 Describe how the resources should be used correctly and how problems associated with the resources are reported.</p>	
	<p>4.4 Explain why the organisational procedures have been developed and how they are used for the selection of required resources.</p>	
	<p>4.5 Describe any potential hazards associated with the resources and method of work.</p>	
	<p>4.6 Describe how to calculate quantity, length, area and wastage associated with the method/procedure to manufacture routine shopfitting products.</p>	

<b>Title:</b>	Manufacturing routine shopfitting products in the workplace	
<b>Learning outcomes</b> <i>The learner will be able to:</i>	<b>Assessment criteria</b> <i>The learner can:</i>	
5 Minimise the risk of damage to the work and surrounding area when manufacturing routine shopfitting products.	5.1	Protect the work and its surrounding area from damage in accordance with safe working practices and organisational procedures.
	5.2	Minimise damage and maintain a clean work space.
	5.3	Dispose of waste in accordance with legislation.
	5.4	Describe how to protect work from damage and the purpose of protection in relation to general workplace activities, other occupations and adverse weather conditions.
	5.5	Explain why the disposal of waste should be carried out safely in accordance with environmental responsibilities, organisational procedures, manufacturers' information, statutory regulations and official guidance.
6 Complete the work within the allocated time when manufacturing routine shopfitting products.	6.1	Demonstrate completion of the work within the allocated time.
	6.2	State the purpose of the work programme and explain why deadlines should be kept in relation to: <ul style="list-style-type: none"> <li>– types of progress charts, timetables and estimated times</li> <li>– organisational procedures for reporting circumstances which will affect the work programme.</li> </ul>

<b>Title:</b>	Manufacturing routine shopfitting products in the workplace	
<b>Learning outcomes</b> <i>The learner will be able to:</i>	<b>Assessment criteria</b> <i>The learner can:</i>	
7 Comply with the given contract information to manufacture routine shopfitting products to the required specification.	7.1 Demonstrate the following work skills when manufacturing routine shopfitting products: – measuring, marking out, fitting, finishing, positioning and securing.	
	7.2 Fit and assemble to form routine manufactured shopfitting products (timber and/or non-ferrous metal based) to given working instructions; two of the following: – shop doors – frames and linings – shopfront sashes including associated elements – panelling/cladding – wall and floor units.	
	7.3 Safely use and handle materials.	
	7.4 Safely use hand tools, portable power tools and ancillary equipment.	
	7.5 Safely store the materials, tools and equipment used when manufacturing routine shopfitting products.	
	7.6 Describe how to apply safe work practices, follow procedures, report problems and establish the authority needed to rectify them, to: – fit and assemble routine products – produce straight in plan and elevation: doors, windows with opening lights, units, fitments and panelling/cladding, staircases – take site and workplace dimensions – form joints associated with the product and construction method – use hand tools, power tools and equipment – requisition material.	
	7.7 Describe the needs of other occupations and how to effectively communicate within a team when manufacturing routine shopfitting products.	
	7.8 Describe the methods of sharpening the hand tools used when manufacturing routine shopfitting products.	
	7.9 Describe how to maintain the tools and equipment used when manufacturing routine shopfitting products.

<b>Additional information about this unit</b>	
Assessment Guidance	<p>This unit must be assessed in a work environment, in accordance with the ConstructionSkills' Consolidated Assessment Strategy for Construction and the Built Environment.</p> <p>Assessors for this unit must have verifiable, current industry experience and a sufficient depth of relevant occupational expertise and knowledge, and must use a combination of assessment methods as defined in the Consolidated Assessment Strategy.</p> <p>Workplace evidence of skills cannot be simulated.</p> <p>This unit must be assessed against the endorsements detailed within the relevant NVQ Structure. Please refer to the NVQ Structure applicable to the qualification/occupational area in which the candidate is being assessed.</p>
Sector Subject Area	05.2 Building and Construction
Availability for use	Shared unit
Unit guided learning hours	63
