Rationale

All new and revised National Courses reflect Curriculum for Excellence values, purposes and principles. They offer flexibility, provide more time for learning, more focus on skills and applying learning, and scope for personalisation and choice.

In this Course, and its component Units, there will be an emphasis on skills development and the application of those skills. Assessment approaches will be proportionate, fit for purpose and will promote best practice, enabling learners to achieve the highest standards they can.

This Course provides learners with opportunities to continue to acquire and develop the attributes and capabilities of the four capacities, as well as skills for learning, skills for life and skills for work.

All Courses provide opportunities for learners to develop breadth, challenge and application, but the focus and balance of the assessment will be appropriate for the subject area.

Relationship between the Course and Curriculum for Excellence values, purposes and principles

Language and literacy are of personal, social and economic importance. Learners' ability to use language lies at the centre of the development and expression of their emotions, thinking, learning and sense of personal identity.

The Course provides learners with the opportunity to develop skills in listening, reading, talking and writing, which are essential for learning, life and work, to develop their ability to communicate their thoughts and feelings, and respond to those of other people, and to use different media effectively for learning and communication.

The Course enables learners to understand and use vocabulary, word patterns, text structures and style. Learners recognise, analyse and use language for a range of purposes. Through this Course, learners develop the ability to understand and use language in practical and relevant contexts.

Learners encounter a range of different types of texts in different media. Building on the four capacities, the Course enables learners to communicate, be critical thinkers, develop cultural awareness and be creative. Learners develop an appreciation of Scotland's literary and linguistic heritage.

Purpose and aims of the Course

The main purpose of the Course is to provide learners with the opportunity to develop skills in listening, reading, talking and writing in order to understand and use Gaelic language.

As learners develop their literacy skills, they will be able to process information more easily, apply knowledge of language in practical and relevant contexts, and gain confidence to carry out new and more challenging tasks in a variety of situations.

The Course offers learners opportunities to develop and extend a wide range of skills. In particular, the Course aims to enable learners to develop:

- ◆ the ability to listen, read, talk and write in Gaelic, as appropriate to purpose, audience and context
- ◆ the ability to understand, analyse and evaluate texts, as appropriate to purpose and audience in the contexts of literature, language, media and culture
- ◆ the ability to create and produce texts, as appropriate to purpose, audience and context
- ◆ the ability to apply knowledge of language
- ◆ knowledge of Gaelic cultural heritage, and the cultural heritage of others

Information about typical learners who might do the Course

The Course provides flexibility, personalisation and choice to enable learners to achieve in different ways and at different paces. The Course is suitable for Gaelic fluent speakers and for learners who have experienced Gaelic medium education.

The Course provides opportunities for learners to build on prior learning experienced in a broad general education or in Gàidhlig qualifications at a lower SCQF level, or from a Gaelic (Learners) qualification. Please refer to the SQA guidelines [Guidance on Allocation to Gàidhlig or Gaelic \(Learners\) Programmes of Study and Qualifications](#), on the appropriateness of Gaelic qualifications.

The Course also provides learners with the opportunity to develop an understanding of how language works, and use language to communicate ideas and information in Gaelic, to use creative and critical thinking to synthesise ideas and arguments, to develop critical literacy skills and personal, interpersonal and team working skills, and to enhance their enjoyment and their understanding of their own language and culture and those of others.

The Course fosters an appreciation of language awareness and of a wide range of literature and texts. This enables learners to access their own cultural heritage and history, as well as the culture and history of others.

Gàidhlig (National 3) offers learners the opportunity to develop simple language skills in the contexts of literature, language, media and culture.

The Course is designed to be accessible. The Units are organised by the receptive (listening and reading) and productive (talking and writing) skills of language.

The Course provides opportunities for vertical and lateral progression to National Courses, and to other SQA qualifications in Gàidhlig and other related fields.
