Rationale

All new and revised National Courses reflect Curriculum for Excellence values, purposes and principles. They offer flexibility, provide more time for learning, more focus on skills and applying learning, and scope for personalisation and choice.

In this Course, and its component Units, there will be an emphasis on skills development and the application of those skills. Assessment approaches will be proportionate, fit for purpose and will promote best practice, enabling learners to achieve the highest standards they can.

This Course provides learners with opportunities to continue to acquire and develop the attributes and capabilities of the four capacities as well as skills for learning, skills for life and skills for work.

All Courses provide opportunities for learners to develop breadth, challenge and application, but the focus and balance of the assessment will be appropriate for the subject area.

Relationship between the Course and Curriculum for Excellence values, purposes and principles

Learning a new language enables learners to make connections with different people and their cultures, and to play a fuller part as global citizens. The ability to use language lies at the centre of thinking and learning.

Language is at the core of thinking. Learners reflect, communicate and develop ideas through language.

The study of Gaelic has a unique contribution to make to the development of cultural awareness, as it provides learners with a means of communicating directly with people from different cultures, enhancing their understanding and enjoyment of other cultures and of their own. They gain insights into other ways of thinking and other views of the world, and therefore develop a much richer understanding of active citizenship.

Learners encounter a wide range of different types of texts in different media. Building on the four capacities, the Course enables learners to communicate, be critical thinkers, develop cultural awareness, and be creative.

Purpose and aims of the Course

The main purpose of the Course is to develop the skills of reading, listening, talking and writing in order to understand and use Gaelic.

The Course offers learners opportunities to develop and extend a wide range of skills. In particular, the Course aims to enable learners to develop the ability to:

- ◆ read, listen, talk and write in Gaelic
- ◆ understand and use Gaelic
- ◆ apply knowledge of Gaelic
- ◆ plan, research and apply language skills

The Course contributes towards the development of literacy skills by providing learners with opportunities to read, listen, talk and write in Gaelic, and to reflect on how this relates to English.

Information about typical learners who might do the Course

The Course provides flexibility, personalisation and choice to enable learners to achieve in different ways and at different paces.

Prior learning in the subject is not essential, although the Course provides opportunities for learners to build on prior learning experienced in a broad general education or in Gaelic (Learners) qualifications at a lower SCQF level.

The Course offers learners the opportunity to develop straightforward language skills in the meaningful real-life contexts of society, learning, employability, and culture.

The Course provides learners with the opportunity to: develop skills in reading, listening, talking and writing, which are essential for learning, work and life; develop understanding of how language works; use different media effectively for learning and communication; and use language to communicate ideas and information.

The Course also provides learners with the opportunity to: use creative and critical thinking to synthesise ideas and arguments; enhance their enjoyment and understanding of their own and other cultures; and explore the interconnected nature of languages.

The Course is designed to be accessible. The Units are organised by the receptive (listening and reading) and productive (talking and writing) skills of language.

The Course provides opportunities for vertical and lateral progression to National Courses, and to other SQA qualifications in Gaelic (Learners) and other related fields.

Course structure and conditions of award

Course structure

This Course is made up of three mandatory Units. The Course provides learners with the opportunity to develop their reading, listening, talking and writing skills in order to understand and use Gaelic. The three Units, taken together, include the four language skills of reading, listening and talking, and writing.

The structure of the Units enables learners to focus on the skills required to understand and use Gaelic, and to integrate reading, listening, talking and writing skills across the Units. Each Unit also offers opportunities for learners to focus on particular skills.

Units are statements of standards for assessment and not programmes of learning and teaching. They can be delivered in a number of ways.

Gaelic (Learners): Understanding Language (National 4)

The purpose of this Unit is to provide learners with the opportunity to develop reading and listening skills in Gaelic and to develop their knowledge of straightforward language in the contexts of society, learning, employability, and culture.

Gaelic (Learners): Using Language (National 4)

The purpose of this Unit is to provide learners with the opportunity to develop talking and writing skills in Gaelic, and to develop their knowledge of straightforward language in the contexts of society, learning, employability, and culture.
