Standards

Outcomes and assessment standards

Outcome 1

The learner will:

1 Investigate services for children and young people by:

- 1.1 Explaining the role of services in supporting the development of children and young people
- 1.2 Analysing initiatives and/or strategies which influence these services
- 1.3 Explaining how legislation influences professional practice in these services and the impact this could have on the children and young people
- 1.4 Analysing an example of partnership working for children and young people

Evidence Requirements for the Unit

Assessors should use their professional judgement, subject knowledge and experience, and understanding of their learners, to determine the most appropriate ways to generate evidence and the conditions and contexts in which they are used.

Assessment evidence can be drawn from a variety of sources and presented in a variety of formats. The evidence does not need to be achieved in one activity, but can be assembled from a variety of tasks and assessments carried out throughout the Course. Evidence can be presented for individual Outcomes or gathered for the Unit or Course as a whole by combining assessment holistically in one single activity.

Exemplification of assessment is provided in *Unit Assessment Support*. Advice and guidance on possible approaches to assessment is provided in the *Unit Support Notes*.

Development of skills for learning, skills for life and skills for work

It is expected that learners will develop broad, generic skills through this Unit. The skills that learners will be expected to improve on and develop through the Unit are based on SQA's *Skills Framework: Skills for Learning, Skills for Life and Skills for Work* and are drawn from the main skills areas listed below. These must be built into the Unit where there are appropriate opportunities.

3.5 Relationships

Further information on building in skills for learning, skills for life and skills for work is given in the *Unit Support Notes*.
