

National 2  
Unit  
Specification

---

## Understanding Language with a Scottish Context (National 2)

**SCQF:** level 2 (6 SCQF credit points)

**Unit code:** H6SA 72

### Unit outline

The general aim of this Unit is to help learners to develop their skills in reading and understanding different types of word-based Scottish texts and/or texts in Scots. Learners will demonstrate their understanding of language by responding to texts in different ways.

Learners who complete this Unit will be able to:

- 1 Understand and respond to simple word-based texts

This Unit is an alternative mandatory Unit of the National 2 English and Communication Course, an optional Unit in Scottish Studies at SCQF level 2 and is also available as a free-standing Unit. The Unit Specification should be read in conjunction with the *Unit Support Notes*, which provide advice and guidance on delivery, assessment approaches and development of skills for learning, skills for life and skills for work.

### Recommended entry

Entry to this Unit is at the discretion of the centre. However, relevant experiences and outcomes may provide an appropriate basis for doing this Unit.

### Equality and inclusion

This Unit Specification has been designed to ensure that there are no unnecessary barriers to learning or assessment. The individual needs of learners should be taken into account when planning learning experiences, selecting assessment methods or considering alternative evidence. For further information, please refer to the *Unit Support Notes*.

# Standards

## Outcomes and assessment standards

### Outcome 1

The learner will:

#### **1 Understand and respond to simple word-based texts by:**

- 1.1 Identifying the purpose of the text
- 1.2 Identifying the main ideas within the text

## Evidence Requirements for the Unit

Assessors should use their professional judgement, subject knowledge and experience, and understanding of their learners, to determine the most appropriate ways to generate evidence and the conditions and contexts in which they are used.

Evidence for Outcome 1: responses to reading at least two word-based Scottish texts or texts in Scots of different genres, types or formats.

It is expected that learners will receive support to achieve the Outcome of this Unit.

# Development of skills for learning, skills for life and skills for work

It is expected that learners will develop broad, generic skills through this Unit. The skills that learners will be expected to improve on and develop through the Unit are based on SQA's *Skills Framework: Skills for Learning, Skills for Life and Skills for Work* and drawn from the main skills areas listed below. These must be built into the Unit where there are appropriate opportunities.

## **1 Literacy**

### 1.1 Reading

## **5 Thinking skills**

### 5.2 Understanding

Amplification of these is given in SQA's *Skills Framework: Skills for Learning, Skills for Life and Skills for Work*. The level of these skills should be at the same SCQF level as the Unit and be consistent with the SCQF level descriptor. Further information on building in skills for learning, skills for life and skills for work is given in the *Unit Support Notes*.
