Evidence is required to show that the learner has met the Outcomes and Assessment Standards.

The sources of information used may be written, numerical, graphical, pictorial, audio-visual or oral.

Assessment evidence can be drawn from a variety of activities and presented in a variety of formats, including, for example, presentations, posters, brief written responses to questions and participation in group tasks. All of the evidence does not need to be from the one activity, but can be assembled from a variety of tasks and assessments carried out during the duration of the Course.

Evidence may be presented for individual Outcomes or gathered for the Unit, Units or Course as a whole by combining assessment holistically.

Exemplification of assessment is provided in *Unit Assessment Support*. Advice and guidance on possible approaches to assessment is provided in the *Unit Support Notes*.
