### Section 2: Comments on assessment

#### Assessment approaches

Most centres appropriately adapted assessments from published unit assessment support packages. Some centres generated their own unit assessments which were of high quality and both presented challenge and gave support to the candidates.

#### Assessment judgements

Centre judgements were generally in line with accepted standards. Where appropriate, supportive comments were provided.

### Section 3: General comments

Centres showed an excellent understanding of the assessment standards and candidates were very well prepared for the assessment.

When adapting or creating assessments, care should be taken to ensure that all the relevant documentation is included with the submission. The submission should include the assessment task and the judging evidence table.
