

Credit Transfer - Transition Arrangements from Old to New Frameworks

HND Accounting (G7D2 16)
Administration and Information Technology (G7YW 16)
Business (G7DA 16)
Financial Services (G7DC 16)

During the transition programme for the above awards it is possible that some candidates may wish to transfer from the predecessor HNC (introduced in 1996 using the 1988 design rules) to the HND validated using the 2003 design principles in the same subject area.

SQA has created an alternative route, as detailed below, for candidates in the above position.

Alternative Route (Route 2)

- 30 credits (240 SCQF credit points) including Graded Units 2 and 3 *including*
- predecessor HNC **or** completed first year of predecessor HND framework

Notes:

- There is no requirement for candidates, using this route, to undertake Graded Unit 1 – an additional optional unit should be used to make up the 240 SCQF credit points.
- Candidates should be given credit transfer for Units completed within the predecessor award on a Unit by Unit basis.

Updated Unit credit transfer information for each of the above awards is included in the appropriate Arrangements documents and is also given as a separate document on the subject webpage.
