

### **About this Unit**

This standard is about assisting with the maintenance of grass surfaces under close supervision. You will need to select, prepare and use tools and equipment, (eg strimmers, pedestrian controlled mowers, edging irons, edging shears), check that the surface is in a suitable condition for maintenance and carry out maintenance. The maintenance covered in this unit includes; mowing, edging and watering. The final height of the grass should be 20—70mm.

Your **knowledge and understanding** will be specifically related to legal requirements and codes of practice and conduct applicable to your job, and the NHS Knowledge and Skills Framework. This will relate to your work activities; the job you are doing, and the setting, eg in hospital and community, domiciliary, residential care, and the individuals you are working with.

**Values** — the values underpinning this Standard are embedded within the 2009 NHS Code of Conduct for Health Care Support Workers. These are stated in full within the Assessment Strategy and Guidance document for the awards.

**Key Words and Concepts** — a glossary of definitions, key words and concepts used in this Standard is contained in the Assessment Strategy and Guidance document.

In occupational standards it is quite common to find words or phrases used which you will be familiar with, but which, in the detail of the standards, may be used in a very particular way. **You should read the Assessment Strategy and Guidance document before you begin working with the standards and refer to it if you are unsure about anything in the Unit.**
