

About this Unit

This standard is concerned with dealing with financial transactions within your work area. This involves receiving payments in, making withdrawals and dealing with payment schemes. You will be expected to keep accurate account of the money under your responsibility.

This standard is applicable to any worker who is required to deal with financial transactions such as petty cash, patient accounts, voluntary and charity shops.

Users of this standard will need to ensure that practice reflects up to date information and policies.

Your **knowledge and understanding** will be specifically related to legal requirements and codes of practice and conduct applicable to your job, and the NHS Knowledge and Skills Framework. This will relate to your work activities; the job you are doing, and the setting, eg in hospital and community, domiciliary, residential care, and the individuals you are working with.

Values — the values underpinning this Unit are embedded within the 2009 NHS Code of Conduct for Health Care Support Workers. These are stated in full within the Assessment Strategy and Guidance document for the awards.

Key Words and Concepts — a glossary of definitions, key words and concepts used in this Unit is contained in the Assessment Strategy and Guidance document.

In occupational standards it is quite common to find words or phrases used which you will be familiar with, but which, in the detail of the standards, may be used in a very particular way. **You should read the Assessment Strategy and Guidance document before you begin working with the standards and refer to it if you are unsure about anything in the Unit.**

Specific Evidence Requirements for the Unit

It is essential that you adhere to the Evidence Requirements for this Unit

SPECIFIC EVIDENCE REQUIREMENTS FOR THIS UNIT
Simulation:
<ul style="list-style-type: none"> ◆ Simulation is NOT permitted for any part of this Unit. ◆ The following forms of evidence ARE mandatory: ◆ Direct Observation: Your assessor or expert witness must observe you in real work activities. Their confirmation of your practice will provide evidence for a significant amount of the performance criteria in this Unit. For example, recording and receipting a transaction and storing the monies are correctly stored. Your assessor may use a checklist to record this. ◆ Professional discussion: Describes your actions in a particular situation and reflect on the reason(s) why you practice that way. For example, which policies, procedures and regulations you followed when dealing with a transaction.
Competence of performance and knowledge could also be demonstrated using a variety of evidence from the following:
<ul style="list-style-type: none"> ◆ Reflective Account: These are written pieces of work which allow you to reflect on the course of action you took in a specific situation to identify any learning from the piece of work and to describe what you might do differently in the light of your new knowledge. ◆ Questioning/professional discussion: May be used to provide evidence of knowledge, legislation, policies and procedures which cannot be fully evidenced through direct observation or reflective accounts. In addition your assessor/mentor or expert witness may also ask questions to clarify aspects of your practice. ◆ Expert Witness: A designated expert witness, eg a senior member of staff, may provide a direct observation of your practice, or record a professional discussion they have held with you on a specific piece of practice. ◆ Witness Testimony: Can be a confirmation or authentication of the activities described in your evidence which your assessor or mentor has not seen. ◆ Products: These can be any record that you would normally use within your normal role, eg you should not put confidential records in your portfolio; they can remain where they are normally stored and be checked by your assessor and internal verifier. ◆ Prior Learning: You may be able to use recorded prior learning from a course of training you have attended within the last two years. Discussion on the relevance of this should form part of your assessment plan for each Unit. ◆ Simulation: There may be times when you have to demonstrate you are competent in a situation that does not arise naturally through your work role, eg dealing with violent or abusive behaviour. The Evidence Requirements in each Unit provide specific guidance regarding the use of simulation.
GENERAL GUIDANCE
<ul style="list-style-type: none"> ◆ Prior to commencing this Unit you should agree and complete an assessment plan with your assessor which details the assessment methods you will be using, and the tasks you will be undertaking to demonstrate your competence. ◆ Evidence must be provided for ALL of the performance criteria, ALL of the knowledge. ◆ The evidence must reflect the policies and procedures of your workplace and be linked to current legislation, values and the principles of best practice within the Health Care sector. This will include the National Service Standards for your areas of work. ◆ All evidence must relate to your own work practice.

KNOWLEDGE SPECIFICATION FOR THIS UNIT

Competent practice is a combination of the application of skills and knowledge informed by values and ethics. This specification details the knowledge and understanding required to carry out competent practice in the performance described in this Unit.

When using this specification **it is important to read the knowledge requirements in relation to expectations and requirements of your job role.**

You need to provide evidence for ALL knowledge points listed below. There are a variety of ways this can be achieved so it is essential that you read the ‘knowledge evidence’ section of the Assessment Guidance.

You need to show that you know, understand and can apply in practice:	Enter Evidence Numbers
1 How to confirm the currency, limits and validity of monies.	
2 Where and how to record payment details and why it is necessary to provide full receipts.	
3 The nature of withdrawal and payment in documentation and how to complete it correctly.	
4 The procedures which the organisation uses for non-payment and your role in actioning these.	
5 The details that need to be recorded and checked when monies exchange hands.	
6 The organisation’s policy on banking including security arrangements and procedures for money and its transit.	
7 How to bag up cash payments.	
8 How to calculate cash requirements.	
9 The potential consequences of failing to check payments and withdrawals.	
10 The actions which should be taken in the event of potential or actual theft or fraud.	
11 Security measures for storing monies.	
12 Organisational policies relating to financial transactions, including Standing Financial Instructions.	
13 Legislation and guidelines relating to financial transactions, including data protection.	
14 The importance of following organisational policies when dealing with financial transactions.	

FN97 04 (GEN 26) Deal with financial transactions within a health facility

Performance Criteria		DO	RA	EW	Q	P	WT	PD
		1	Make sure received and withdrawn monies are accurately recorded and receipted using appropriate book-keeping methods.					
2	Make sure that documentation relating to all transactions: (a) is completed fully and accurately (b) is up-to-date (c) is in the correct format							
3	Regularly balance book-keeping entries.							
4	Correctly identify and deal appropriately with discrepancies in transactions.							
5	Store and bank monies safely according to organisational procedures.							
6	Manage non-payment of monies due according to organisational instructions.
