Version: 15 (August 2017)

Acknowledgement

SQA acknowledges the valuable contribution that Scotland's colleges have made to the development of Higher National qualifications.

History of changes

It is anticipated that changes will take place during the life of the qualification and this section will record these changes. This document is the latest version and incorporates the changes summarised below. Centres are advised to check SQA's APS Navigator to confirm they are using the up to date qualification structure.

NOTE: Where a Unit is revised by another Unit:

- ◆ No new centres may be approved to offer the Unit which has been revised.
- ◆ Centres should only enter candidates for the Unit which has been revised where they are expected to complete the Unit before its finish date.

Version number	Description	Date
15	Optional Unit: FK93 34 Digital Marketing Communications: an Introduction added to the qualification framework in the optional section of HNC and HND frameworks.	
14	Revision of Unit: DV0M 34 Work Experience has been replaced by HJ4W 34 and will finish 31/07/2019 for both HNC/HND Frameworks Optional Units: H91J 34 Organising an Event and H91M 35 Managing an Event has been added to both HNC and HND framework	28/03/17
13	Unit added to framework for HNC/HND: H8PD 34 International Marketing	02/08/16
12	Revision of Unit: DE1K 33 Workplace Communication in English has been revised by H8T2 33 Workplace Communication in English and will finish on 31/07/2016.	18/02/215
11	Revision of Unit: DG6M 34 International Marketing: An Introduction has been revised by H8PD 34 International Marketing: An Introduction and will finish on 31/07/2017	10/02/15
10	Revision of Units: DK2K 34 Getting Started in Business revised to H7V4 34 Preparing to Start a Business. Old unit will finish on 31/07/2016. DE2E 34 Preparing and Presenting a Business Plan revised to H7V5 34 Preparing a Formal Business Plan. Old Unit will finish on 31/07/16. DE3N 34 Communication: Analysing and Presenting Complex Communication revised by H7TK 34 Communication: Business Communication. Old unit will finish on 31/07/2016.	24/11/14
09	<i>Visual Communication: Social Media</i> (H387 34) added as an optional Unit to HNC and HND frameworks.	02/06/14
08	F86W 34 Payroll revised to H4J9 34 Payroll — The old Unit will finish on 30/06/13. DJ43 33 Customer Care revised to H49P 33 Customer Care — The old Unit will finish on 30/04/13.	23/10/13
07	Revision of Human Resource Management: Core Activities (DN72 34) (lapse date 31/07/2013, finish date 31/07/2015)	22/01/13

1 Introduction

This is the Arrangements Document for the revised Group Award(s) in HNC Administration and Information Technology and HND Administration and Information Technology validated in January 2010. This document includes background information on the revision of the Group Award, its aims, guidance on access, details of the Group Award structure, and guidance on delivery.

These Group Awards replace HNC Administration and Information Technology (G7YV 15) and HND Administration and information Technology (G7YW 16).

2 Rationale for the revision of the Group Award(s)

The HNC/D Administration and Information Technology Awards were revised in 2004 to replace the HNC/D Administration and Information Management Awards. They have consistently featured in the top ten SQA HN qualifications in terms of candidate numbers since validation in 2004. By late 2007 the Awards became subject to SQA's cycle of quintennial review.

The HNC and HND Administration and Information Technology Group Awards are designed to equip candidates with the knowledge, understanding and skills required for success in current and future employment or for progression to further academic and/or professional qualifications.

2.1 Market research, consultation and development process

The review of the awards began in November 2007, when centres were issued with a 'Looking Forward' questionnaire. This asked them to consider — the scale of review required; the structure and titles of the awards; the balance of Units between the mandatory and optional sections; the content of the awards and any gaps; the structure of the Graded Units and assessment conditions.

The Awards were deemed relevant and appropriate to the various needs of employers, universities and centres. The responses were generally positive about the balance, structure and overall content. The main issues identified focused on the rigidity and volume of the assessments and the content and relevance of specific Units.

The clear conclusion arising from a number of consultation events with a range of stakeholders, was that a limited review of HNC/D Administration and Information Technology awards would be the most appropriate option. A Qualification Review Team (QRT) was appointed from a number of active centres with a specific remit to:

- ◆ Reduce assessment load
- ◆ Better exemplify standards
- ◆ Increase flexibility of assessment
- ◆ Ensure compliance with the Disability Discrimination Act
- ◆ Ensure Units are aligned to the refreshed Core Skills framework
- ◆ Improve Core Skills guidance

Further consultation events were carried out to ensure that the QRT were operating in accordance with the needs of stakeholders. In addition to the above remit, the optional units were updated as part of this review. In the interests of having a more manageable and efficient Group Award framework the QRT put a proposal to centres that Units with less than 50 entries since 2004 would not be included within the new HNC/D structures. Centres were then given an opportunity at the November 2009 Network Event to comment, make a case for the retention of any Units within this category and to suggest new Units which could be included. The final validated frameworks took full cognisance of this process.

The following table summarises the the consultation methods employed by the QRT:

Stakeholder	Method of Consultation
Centres	<ul style="list-style-type: none"> ◆ Survey ◆ Network Meetings ◆ E-mail
Employers	<ul style="list-style-type: none"> ◆ Survey ◆ E-mail
Council for Administration	<ul style="list-style-type: none"> ◆ E-mail ◆ Representation on validation panel
Higher Education Institutions	<ul style="list-style-type: none"> ◆ Survey ◆ E-mail ◆ Telephone
Professional Bodies (Institute of Professional Administrators, Institute of Administrative Management)	<ul style="list-style-type: none"> ◆ Telephone ◆ E-mail

3 Aims of the Group Award(s)

3.1 General aims of the Group Award(s)

The general aims for these awards are to:

- a develop candidates' knowledge and skills such as planning, implementing, analysing and evaluating
- b develop vocational skills related to the National Occupational Standards or other professional body requirements and so enhancing candidates' employment prospects
- c enable progression within the SCQF
- d develop study and research skills
- e develop transferable skills, including Core Skills, to the levels demanded by employers and/or progression in higher education
- f provide academic stimulus and challenge, and foster an enjoyment of the subject

3.2 Specific aims of the Group Award(s)

3.2.1 Aims of the HNC

The specific aims of HNC Administration and Information Technology are to:

- 1 develop technical and administrative knowledge relevant to current administrative practice
- 2 develop the knowledge underpinning the technical expertise developed throughout the course
- 3 prepare for progression to HND in Administration and Information Technology
- 4 articulate with degree courses
- 5 develop interpersonal skills relevant to an administrative role
- 6 develop personal effectiveness
- 7 develop communication and presentation skills
- 8 prepare for appropriate employment
- 9 develop problem-solving skills within a range of time constraints

3.2.2 Aims specific to the HND

In addition to those above, the specific aims of the HND Administration and Information Technology are to:

- 1 develop a range of specialist information technology skills
- 2 develop project management, research and planning skills
- 3 prepare candidates for employment in an administrative role
- 4 prepare candidates for progression to degree courses
- 5 develop critical and evaluative thinking
- 6 develop an awareness of professional issues such as legal, data management and ethical considerations
- 7 develop the ability to work flexibly and co-operatively with others

3.2.3 Relationship of Mandatory Units to Aims of the HNC and HND

The aims of the Award are met within the mandatory Units. Two tables, one for the HNC and one for the HND, illustrating where the individual aims are met within each Unit are provided in **Appendix 1**.

3.3 Target groups

These Awards are appropriate for candidates who have an interest in a career in Administration at any level. The revised HNC Administration and Information Technology award is predominantly skills focused and provides candidates with a broad foundation of skills and knowledge to prepare candidates for employment and/or further academic study. The revised HND Administration and Information Technology develops further the skills and knowledge necessary for candidates who seek positions of greater responsibility within the administration function and/or further academic study.

Candidates are likely to come from the following target groups:

- ◆ School leavers
- ◆ Adult returners to education
- ◆ Those in employment who wish to enhance their career prospects

3.4 Employment opportunities

The HNC and HND Administration and Information Technology provide the skills and knowledge demanded of a modern administrative environment. They allow for progression to employment of a general administrative nature. The mandatory Units provide the range of knowledge and skills required within small to medium sized enterprises, with the optional Units allowing for a range of more specialist skills and knowledge demanded by larger organisations.

Consultation established that employers use these Awards in the recruitment and selection of administrative staff, for staff development opportunities and as a criterion for promoting within their organisations. Consultation with employers has also confirmed that graduates of these awards hold a wide range of posts and at varying levels of responsibility.

Candidates who found employment obtained positions in a number of sectors:

- ◆ Finance
- ◆ Health Care
- ◆ Hospitality
- ◆ HR
- ◆ IT
- ◆ Manufacturing
- ◆ Marketing
- ◆ Public Sector
- ◆ Retail
- ◆ Voluntary sector/Charity

Posts in these areas include:

- ◆ Administrative Assistant
- ◆ Administrator
- ◆ Clerical Assistant
- ◆ Personal Assistant
- ◆ Administrative Supervisor
- ◆ Network Administrator
- ◆ HR Administrator
- ◆ Organisation Administrator
- ◆ Contact Centre Administrator
- ◆ Retail Assistant
- ◆ Team Co-ordinator
- ◆ Team Receptionist
- ◆ Medical Secretary
- ◆ IT Support
- ◆ Marketing Assistant
- ◆ Finance Officer
- ◆ Conference Officer

4 Access to the Group Awards

4.1 Formal Qualifications

As with most SQA qualifications, access is at the discretion of the centre and the following recommendations are for guidance only. This list is not exhaustive, or mutually exclusive, but are examples of appropriate formal entry qualifications. The over-riding criterion to be satisfied is that the applicant has a realistic chance of achieving the qualification within the programme model delivered by the centre:

- ◆ Any relevant National Qualifications Group Award at SCQF level 5 or 6
- ◆ Any two relevant National Courses at SCQF level 6, together with three Standard Grade passes at level 3 or above
- ◆ Relevant National Units at appropriate levels (eg achievement of the Core Skills entry profile)
- ◆ SVQ Business and Administration level 2 or 3
- ◆ Equivalent qualifications from other awarding bodies

4.2 Work Experience

Work experience that may be considered suitable could include:

- ◆ paid or voluntary roles that include aspects of administrative work
- ◆ a range of reception/clerical/office work with some degree of IT skills
- ◆ active involvement in charity activities that require a range of administrative tasks including planning, organising and completing fund raising activities, minute taking, participating as officials on committees including formal meetings, liaising with others, working with others etc

4.3 Entry to Year 2 HND

In order to achieve the HND Administration and Information Technology candidates must gain a total of 30 HN Credits from the appropriate parts of the qualification structure. Access to HND typically varies between a requirement to have a minimum of between 12 and 15 credits, usually including all of the HNC Administration and Information Technology mandatory Units.

4.4 Recommended Core Skills Entry Profile

Although entry is at the discretion of the centre, it would be beneficial if candidates possessed the following Core Skills:

Core Skill or component	SCQF level
Communication	5
Numeracy	4
Information and Communication Technology	5
Problem Solving	5
Working with Others	4

5 Group Award(s) structure

5.1 Structure of HNC

Candidates will be awarded an HNC in Administration and Information Technology on successful completion of all of the Units and the Graded Unit in the mandatory section and an appropriate combination of optional Units up to a total of 96 SCQF credit points. The HN Design Principles require an HNC Group Award to incorporate at least 48 SCQF credit points at SCQF level 7.

The HNC Administration and Information Technology mandatory section comprises 72 SCQF credit points at level 7 and 8 SCQF credit points at level 6. Candidates must complete an additional 16 SCQF credit points from the optional section and there are no restrictions on the SCQF level from which to draw these credit points.

This equates to 10 HN credits from the mandatory section and 2 HN credits from options.

The framework section (pages 6 to 8) illustrates the composition of the mandatory and optional parts of the award, and the credit value and level of each unit.

12 HN credits
96 SCQF credits
(A minimum of 72 SCQF credits at SCQF level 7)

5.2 Structure of HND

Candidates will be awarded an HND in Administration and Information Technology on successful achievement of all of the Units in the mandatory section and an appropriate combination of Optional Units up to a total of 240 SCQF credit points. The HN Design Principles require an HND Group Award to incorporate at least 64 SCQF credit points at SCQF level 8.

The HND Administration and Information Technology Units comprises at least 80 SCQF credit points at SCQF level 8 (88 SCQF credit points if Developing the Individual Within a Team is achieved at SCQF level 8), at least 72 SCQF credit points at SCQF level 7 (80 SCQF credit points if Developing the Individual Within a Team is achieved at SCQF level 7) and 8 SCQF credit points at SCQF level 6. Candidates must complete a further 72 SCQF credit points from the optional section and there are no restrictions on the SCQF level from which to draw these credit points.

This equates to 21 HN credits from the mandatory section and 9 HN credits from the options.

The qualification framework (pages 10 to 12) illustrates the composition of the mandatory and optional parts of the award, and the credit value and level of each Unit.

***Please note** – the 12 credits from the HNC includes 2 credits from Optional Units. Centres should take care to ensure that these 2 credits are not double-counted when checking the remaining optional credits learners need to achieve the HND. The 7 optional credits referred to in the table above are in addition to those already achieved as part of the HNC. This means that when checking the optional Units on a learner's SQA record, 2 of these credits must be allocated to the HNC before counting the optional credits towards the 7 needed from this section. Learners need a total of 9 optional credits and 30 overall to achieve the HND.

HND ADMINISTRATION & IT G9M8 16 – ROUTES TO CERTIFICATION

ROUTE 1 (Conventional)

2010 HND Admin & IT G9M8 16
21 Mandatory credits
9 Optional credits
30 Credits

ROUTE 2 (Candidate with HNC G7YV 15)

2004 HNC Admin & IT G7YV 15	2010 HND Admin & IT G9M8 16 Year 2 Credits	2010 HND Admin & IT G9M8 16
10 Mandatory credits →	11 Mandatory credits →	21 Mandatory credits
2 Optional credits →	7 Optional credits →	9 Optional credits
12 Credits	18 Credits	30 Credits

5.3 Core Skills

Successful candidates will exit from each award with the following Core Skills profile. **Appendix 3** details the signposting and embedding of the core skills within the individual mandatory Units of the HNC/D Administration and Information Technology awards.

5.3.1 Core Skills — HNC Administration and Information Technology

Core Skills	Desired entry level	Certificated exit level
Communication	SCQF 5	SCQF 6
Numeracy	SCQF 4	SCQF 5
ICT	SCQF 5	SCQF 6
Problem Solving	SCQF 5	SCQF 6
Working with Others	SCQF 4	*see note below

*The Core Skill of *Working with Others* is not certificated automatically, however centres are likely to use a range of modes of delivery, some of which may provide the opportunity to develop this Core Skill.

5.3.2 Core Skills — HND Administration and Information Technology

Core Skills	Desired entry level	Certificated exit level
Communication	SCQF 6	SCQF 6
Numeracy	SCQF 5	SCQF 6
IT	SCQF 6	SCQF 6
Problem Solving	SCQF 5	SCQF 6
Working with Others	SCQF 4	SCQF 6

5.4 Signposting to National Occupational Standards

The HNC/D Administration and Information Technology Awards continue to provide underpinning skills and knowledge relating to the Council for Administration's (CfA) National Occupational Standards (NOS). **Appendix 2** illustrates signposting of the underpinning skills and knowledge against the relevant SQA SVQ Business and Administration Units as at January 2010. The HN Units listed include details of both mandatory and options.

5.5 Credit Transfer

Where candidates have completed individual Units from the predecessor frameworks, they can be given credit transfer on a Unit by Unit basis. Credit transfer can be given where there is broad equivalence between the subject-related content of the Units, ie the Knowledge and/or Skills have not changed significantly, or are covered in the Unit for which credit is being awarded. **Appendix 4** sets out the credit transfer guidance for HNC and HND Administration and Information Technology on a Unit by Unit basis.

5.6 Transition Arrangements

The revised HND Administration and Information Technology framework includes a route to allow candidates completing the predecessor HNC Administration and Information Technology (G7YV 15) to transfer the full 12 credits of that award to the revised HND Administration and Information Technology (G9M8 16) without the need for credit transfer on a Unit by Unit basis. Details of this route are available in Section 5.2 Structure of the HND. As the aims and content of the new and previous Group Awards are broadly the same, this will not negatively affect the integrity of the revised HND but will greatly enhance the manageability of transitional arrangements from HNC to HND Administration and Information Technology.

Therefore when transferring from the predecessor HNC to the new HND, centres and candidates will have the following options:

Candidates who have been certificated for the HNC Administration and Information Technology (G7YV 15) Group Award will be able to move to the new HND Administration and Information Technology (G9M8 16) carrying forward the 12 credits gained through the HNC without the need for a Unit-by-Unit credit transfer mapping.

Where candidates have partially completed the HNC Administration and Information Technology Award (G7YV 15), transition arrangements will need to be agreed on a Unit-by-Unit basis.

Where candidates have partially completed the HND Administration and Information Technology Award (G7YW 16), transition arrangements will need to be agreed on a Unit-by-Unit basis.

Unit-by Unit credit transfer guidance for the mandatory Units of both awards is provided in **Appendix 4**. These transition arrangements are subject to centre's internal verification processes.

5.7 Articulation and professional recognition

5.7.1 Other SQA qualifications

Within the current HNC/D framework, links exist with a number of Professional Development Awards (PDAs) in the Administration and Business subject area. It is SQA's intention to update the relevant PDA frameworks in line with the amendments to common Units within HNC/D Administration and Information Technology. Examples of relevant PDAs include:

- ◆ PDA Office Administration (SCQF level 7)
- ◆ PDA IT in Business (SCQF level 7)
- ◆ PDA Medical Administration (SCQF level 7)
- ◆ PDA Book-keeping (SCQF level 7)
- ◆ PDA Financial Accounting (SCQF level 7)
- ◆ PDA Administrative Management (SCQF level 8)
- ◆ PDA Office Management and IT (SCQF level 8)

5.7.2 Industry Standard qualifications

The HNC/D Administration and Information Technology awards provide a range of underpinning skills and knowledge relevant to the following qualifications awarded by SQA or other awarding bodies:

- ◆ PC Passport at Intermediate and Higher awarded by SQA
- ◆ European Computer Driving Licence and the Advanced European Computer Driving
- ◆ Licence awarded by the Chartered Institute of Information Technology (formerly known as the British Computer Society)
- ◆ Microsoft Office Specialist qualifications
- ◆ SVQ Business and Administration at levels 3 and/or 4 as awarded by SQA

5.7.3 Higher Education

Articulation arrangements exist between a number of Scottish Universities and the Open University where HNC/D awards will be accepted as entry to either second or third year of a Business, Management or IT related degree. Depending on the specific degree programme, certain Units may be required as part of the HNC/D course content. The optional section of the HNC/D framework is sufficiently broad to ensure that centres are able to comply with reasonable articulation requests. Centres are encouraged to pursue and maintain appropriate articulation arrangements with higher education institutions. Information gathered by the QRT in the course of the review process is available within **Appendix 6**.

5.7.4 Professional Bodies

Successful achievement of the HNC/D Administration and Information Technology awards allows full membership to the Institute of Professional Administrators and Associate membership of the Institute of Administrative Management.

6 Approaches to delivery and assessment

Suggested delivery schedules have been included in **Appendix 5** but the choice of delivery pattern is at the discretion of the centre. It is anticipated that centres will ensure that as much of the mandatory content required for the Graded Units has been covered as possible prior to commencing delivery.

The qualifications can be delivered in a number of ways:

- ◆ Full-time
- ◆ Day release
- ◆ Part-time evening
- ◆ Open Learning

The Evidence Requirements within the mandatory Units focus on the knowledge/skills that candidates should utilise and assessment conditions are not prescribed in the majority of the Units. This means that there is much more flexibility as to when and how the evidence is gathered. Rather than delivering and assessing Units as individual components and thereby increasing the possibility of assessing similar evidence on more than one occasion, **Appendix 5** gives detailed guidance on how delivery and assessment may be reduced by integrating Units. These suggestions are not mandatory and there may well be alternative approaches but they are designed to prompt explicit integration opportunities for centres and candidates.

Throughout delivery, candidates should be set clear standards in terms of presentation of information. It is recommended that candidates use standard referencing conventions such as Harvard Referencing system throughout so they are confident about using wider evidence in support of a business or academic report and ensuring compliance with copyright and avoiding issues of plagiarism.

It is hoped that by applying consistent standards across the awards, candidates will be able to appreciate that all Units are relevant to their chosen course/vocation and they will be able to transfer core skills to other employment or academic situations.

Core Skills have been embedded or signposted in all mandatory Units. Where they are embedded the Evidence Requirements have covered both content and Core skill, therefore achievement of the Unit leads to automatic certification of the Core Skill. Signposting is where opportunities to gather additional evidence to achieve a relevant Core Skill have been outlined within the Unit specification guidance, but this is not certificated automatically. Where a Core Skill is not embedded, separate entries have to be provided to certificate it even where appropriate evidence has been gathered..

Every effort has been made to ensure that artificial barriers do not exist. However, there may be some instances where specific situations require additional support or specific assessment arrangements to be set. There are a few situations where this may occur:

- ◆ *Communication: Analysing and Presenting Complex Communication* (DE3N 34) and *Presentation Skills* (F84E 35) — both of these Units require candidates to demonstrate oral skills by either participating in a meeting or delivering a presentation and responding to questions from the audience.
- ◆ *Communication: Analysing and Presenting Complex Communication* (DE3N 34), *Presentation Skills* (F84E35) and *Developing the Individual within a Team* (F870 34) or (F86Y 35) — require candidates to work with others by participating in a meeting, delivering a presentation to an audience or work with others to plan, implement and evaluate a project.
- ◆ *Recording Financial Transactions* (F847 33), *Graded Unit 1* (F8KW 34) and *Graded Unit 2* (F8KX 35) all require closed book, supervised/invigilated conditions. In addition, both Graded Units are timed and where additional needs are identified, centres may need to confirm the additional time allocations if appropriate.

Guidance on how centres may provide this evidence has been provided within the Unit specifications. Centres are encouraged to maximise the opportunities presented by new web 2.0 technologies therefore increasing the accessibility of these awards to remote learners.

6.1 Graded Unit information

All Graded Unit specifications are available from SQA's website (www.sqa.org.uk).

The purpose of the Graded Units is to assess the candidate's ability to retain and integrate the knowledge and/or skills gained in the mandatory Units; to assess that the candidate has met the principal aims of the Group Award and to grade the candidate's achievement. A Graded Unit is assessed and a grade of A, B or C awarded to candidates who successfully achieve the Unit.

Candidates will take a one credit Graded Unit at SCQF level 7 in the HNC/1st year HND, and a further two credit Graded Unit at SCQF level 8 in the second year of the HND Group Award.

The Graded Units take the form of:

- ◆ Administration and Information Technology: Graded Unit 1 (F8KW 34)
(Closed-book examination at SCQF level 7)
- ◆ Administration and Information Technology: Graded Unit 2 (F8KX 35)
(Closed-book examination at SCQF level 8)
- ◆ Administration and Information Technology: Graded Unit 3 (F8KY 35)
(Project based on a case study at SCQF level 8)

6.1.1 Administration and Information Technology: Graded Unit 1

Administration and Information Technology: Graded Unit 1 (F8KW 34) is assessed by timed, closed-book examination. It consists of an examination of three hours, comprising two question papers — objective response question paper and an extended response question paper. The two examination papers may be assessed together or on separate assessment occasions.

Evidence should be generated through assessment undertaken in controlled conditions. The objective response question paper (which is worth 30% of the total marks) is a 45 minute, closed-book examination undertaken in controlled conditions. The extended response question paper (which is worth 70% of the total marks) is a two-hour 15 minute closed-book examination undertaken in controlled conditions.

It is recommended that candidates should have completed or be in the process of completing the following Units relating to these specific aims prior to undertaking this Graded Unit:

- ◆ Office Administration (F7JA 34)
- ◆ IT in Business: Word Processing and Presentation Applications (F84C 34)
- ◆ Office Technologies (F7J9 34)
- ◆ IT in Business: Databases (F84X 34)
- ◆ IT in Business: Spreadsheets (F84V 34)

An assessment exemplar pack and marking guidelines have been produced to indicate the national standard of achievement required at SCQF level 7.

This assessment should take place towards the end of the programme to ensure that candidates have covered the topics which will be assessed within the Graded Unit.

6.1.2 Administration and Information Technology: Graded Unit 2

Administration and Information Technology: Graded Unit 2 (F8KX 35) is a timed, closed book examination. It will consist of a written examination of three hours — comprising two question papers — a restricted response question paper and an extended response question paper. The two examination papers may be assessed together or on separate assessment occasions.

Evidence should be generated through examination undertaken in controlled conditions. The restricted response question paper, which is worth 40% of the total marks, is a one hour closed book examination undertaken in controlled conditions. The extended response question paper, which is worth 60% of the total marks, is a two hour closed book examination undertaken in controlled conditions.

An exemplar assessment pack and marking guidelines have been produced to indicate the national standard of achievement required at SCQF level 8.

It is recommended that candidates should have completed or be in the process of completing the following Units relating to these specific aims prior to undertaking this Graded Unit:

- ◆ IT in Business — Advanced Word Processing (F84A 35)
- ◆ IT in Business — Advanced Spreadsheets (F849 35)
- ◆ IT in Business — Advanced Databases (F848 35)
- ◆ Office Management (F84D 35)
- ◆ Information and Communication Technology in Business (F84W 35)
- ◆ Presentation Skills (F84E 35)
- ◆ Developing the Individual within a Team (F870 34) **or** (F86Y 35)

This will be a further opportunity to develop examination skills. Candidates will be able to draw on their experiences of Graded Unit 1 and identify effective revision skills and examination techniques.

Paper one requires restricted responses to ten questions. Paper two presents a case study and candidates produce essay-type responses to four out of five questions.

6.1.3 Administration and Information Technology: Graded Unit 3

Administration and Information Technology: Graded Unit 3 (F8KY 35) is assessed by the use of a project based on a case study.

It is recommended that the candidate should have completed or be in the process of completing the following Units relating to the above specific aims prior to undertaking this Graded Unit:

- ◆ Office Management (F84D 35)
- ◆ Information and Communication Technology in Business (F84W 35)
- ◆ Presentation Skills (F84E35)
- ◆ IT in Business: Advanced Word Processing (F84A 35)
- ◆ IT in Business: Advanced Spreadsheets (F849 35)
- ◆ IT in Business: Advanced Databases (F848 35)
- ◆ Developing the Individual within a Team (F870 34) **or** (F86Y 35)

Candidates will have the opportunity to plan, implement and evaluate a research project. They will be able to draw on the knowledge across the whole Award even though the main focus will be on specific Units. They will demonstrate independent learning skills and the ability to complete significant tasks; this will be of interest to employers and HE institutions.

The project is divided into three stages — Planning, Developing and Evaluation. Candidates are required to meet the minimum Evidence Requirements for each stage to achieve the overall Unit.

The Core Skill of Problem Solving at SCQF level 6 is embedded and therefore automatically certificated on successful completion of the Unit.

6.2 Open Learning

All Units may be delivered through Open Learning. Centres could develop resources that include hard copy booklets, use a virtual learning environment and/or e-assessment technologies. If centres can offer the use of mentored discussion forums, wikis and other developing technologies to reduce the feelings of isolation and encourage collaboration even from a distance, this will help Open Learning candidates remain motivated and on track.

The removal of closed book and supervised assessment conditions where not critical to competence has widened the scope for delivery via Open Learning. However evidence should still be generated under the assessment conditions stipulated within the Unit specification. This mode of delivery requires planning by the centre to ensure the authenticity of candidate evidence.

The rapid growth in web technologies have proved particularly useful and opportunities exist to use weblogs, VLE, discussion forums and online assessments. As the QRT reviewed the Unit specifications, it considered how new technologies might support increased flexibility of assessment and ensure an accessible and inclusive suite of Units. The Unit specifications include suggestions where new technologies might be used to support the delivery and assessment processes.

6.3 E-Learning

Centres are encouraged to use new technologies to support and enhance the delivery and assessment of the HNC/D Administration and Information Technology Group Awards. Formative E-assessments material is in development at the time of writing (March 2010). More information about online resources available via SQA's SOLAR project can be found at the website — www.sqasolar.org.uk

6.4 Resources

There is a significant volume of ICT content within the HNC and HND Administration and Information Technology Awards therefore centres will require ICT facilities for the delivery and assessment of a number of the Units. Centres should keep up-to-date with developments in legislation and business practices relevant to the knowledge and skills within the Group Awards.

7 General information for centres

Disabled candidates and/or those with additional support needs

The additional support needs of individual candidates should be taken into account when planning learning experiences, selecting assessment instruments, or considering whether any reasonable adjustments may be required. Further advice can be found on our website www.sqa.org.uk/assessmentarrangements.

Internal and external verification

All instruments of assessment used within this/these Group Award(s) should be internally verified, using the appropriate policy within the centre and the guidelines set by SQA.

External verification will be carried out by SQA to ensure that internal assessment is within the national guidelines for these qualifications.

Further information on internal and external verification can be found in *SQA's Guide to Assessment and Quality Assurance for Colleges of Further Education* (www.sqa.org.uk).

8 General information for candidates

The HNC and HND Administration and Information Technology Awards are designed to meet the demands and requirements of today's modern business environment. The HNC allows progression into employment of a general administrative nature, whilst the HND allows progression to a more senior role, possibly as Office or Administrative Manager.

The HNC and HND cover a range of subject topics which are relevant to modern business practices and to university degree programmes.

The HNC Administration and Information Technology is an SCQF level 7 qualification which contains 12 HN credits (96 SCQF credit points), 10 of which are mandatory and 2 which are gained from optional Units. The HND Administration and Information Technology is an SCQF level 8 qualification which contains 30 HN credits (240 SCQF credit points), 23 of which are mandatory with 7 to be obtained from optional Units. The 12 credits within the HNC also contribute to the HND. Some Units are worth 2 HN credits (rather than 1) so the number of Units you will be required to complete will not be the same as the overall number of HN credits required.

You will be assessed throughout the HNC or HND qualification on a Unit by Unit basis, with assessments taking the form of practical assignments, classroom assessment and/or case studies.

Towards the end of the HNC (or 1st year of the HND) you will undertake a Graded Unit (Administration and Information Technology: Graded Unit 1), which is designed to assess your ability to integrate the knowledge and skills gained across the mandatory Units. Administration and Information Technology: Graded Unit 1 is a one credit Unit which provides the opportunity to reflect on the main topics covered within the other Units and how these link together. Assessment of Administration and Information Technology: Graded Unit 1 will take the form of a closed-book examination at SCQF level 7.

The HND requires candidates to complete two further Graded Units (Administration and Information Technology: Graded Unit 2 and Administration and Information Technology: Graded Unit 3) which will also assess your ability to integrate knowledge and skills gained across the breadth of the qualification. Administration and Information Technology: Graded Unit 2 is a one credit Unit at SCQF level 8 which is also a closed-book examination.

Administration and Information Technology: Graded Unit 3 is assessed by a project based on a case study. You will be required to pass the three stages of the project with a mark of at least 50% for each stage — Planning, Development and Evaluation.

On successful completion of each Graded Unit you will be awarded a grade of A, B or C according to the mark attained. This grading applies only to the relevant Graded Unit and not the overall HNC or HND award.

Grading is based on the marks attained as follows:

Grade A:	70-100%
Grade B:	60-69%
Grade C:	50-59%

9 Glossary of terms

SCQF: This stands for the Scottish Credit and Qualification Framework, which is a new way of speaking about qualifications and how they inter-relate. We use SCQF terminology throughout this guide to refer to credits and levels. For further information on the SCQF visit the SCQF website at www.scqf.org.uk

SCQF credit points: One HN credit is equivalent to 8 SCQF credit points. This applies to all HN Units, irrespective of their level.

SCQF levels: The SCQF covers 12 levels of learning. HN Units will normally be at levels 6–9. Graded Units will be at level 7 and 8.

Subject Unit: Subject Units contain vocational/subject content and are designed to test a specific set of knowledge and skills.

Graded Unit: Graded Units assess candidates' ability to integrate what they have learned while working towards the Units of the Group Award. Their purpose is to add value to the Group Award, making it more than the sum of its parts, and to encourage candidates to retain and adapt their skills and knowledge.

Dedicated Unit to cover Core Skills: This is a non-subject Unit that is written to cover one or more particular Core Skills.

Embedded Core Skills: This is where the development of a Core Skill is incorporated into the Unit and where the Unit assessment also covers the requirements of Core Skill assessment at a particular level.

Signposted Core Skills: This refers to the opportunities to develop a particular Core Skill at a specified level that lie outwith automatic certification.

Qualification Design Team: The QDT works in conjunction with a Qualification Manager/Development Manager to steer the development of the HNC/HND from its inception/revision through to validation. The group is made up of key stakeholders representing the interests of centres, employers, universities and other relevant organisations.

Consortium-devised HNCs and HNDs are those developments or revisions undertaken by a group of centres in partnership with SQA.

Specialist single centre and specialist collaborative devised HNCs and HNDs are those developments or revisions led by a single centre or small group of centres who provide knowledge and skills in a specialist area. Like consortium-devised HNCs and HNDs, these developments or revisions will also be supported by SQA.

10 Appendices

Appendix 1: Relationship of Mandatory HNC and HND Units to the Aims of the Awards

Appendix 2: Signposting to National Occupational Standards

Appendix 3: Core Skills Certification and Signposting within Mandatory Units

Appendix 4: Unit by Unit Credit Transfer Guidance

Appendix 5: Suggested Delivery and Assessment Strategies

Appendix 2: Signposting to National Occupational Standards

Appendix 2.1: SVQ Business and Administration level 3 (G8LH 23)

SVQ Unit No	SVQ Unit title	HNC/D Unit
Mandatory Core (2 Credits)		
301	Carry out your responsibilities at work	Relevant content across the Awards
302	Work within your business environment	Relevant content across the Awards
Group A (0 to 1 Credits)		
110	Ensure your own actions reduce risks to health and safety (ENTO)	Office Administration F7JA 34 03 and Office Technologies F7J9 34 01
204	Manage diary systems	Optional unit: Administrative Procedures DE25 33
205	Organise business travel and accommodation	Optional unit: Administrative Procedures DE25 33
212	Use IT Systems (IT User)	Office Technologies F7J9 34 01, 02, 03 and all the IT in Business units — F84C 34, F84V 34, F84X 34
213	Use IT to exchange information (IT User)	Office Technologies F7J9 34 02, 03
216	Use database software (IT User)	IT in Business: Databases F84X 34
217	Use presentation software (IT User)	IT in Business: Word Processing and Presentation Skills F84C 34
218	Use specialist or bespoke software (IT User)	Optional unit: Using Financial Accounting Software DE59 34
221	Prepare text from notes	IT in Business: Word Processing and Presentation Skills F84C 34
Group B (3 to 4 Credits)		
303	Supervise an office facility	Office Administration F7JA 34 and Office Management F84D 35
304	Procure products and services	
305	Manage and evaluate customer relations	Optional unit: Creating a Culture of Customer Care DJ42 34
306	Manage the payroll function (AOSG)	Optional unit: Payroll DE61 34
307	Complete year-end procedures (AOSG)	Optional unit: Using Financial Accounting Software DE59 34
308	Monitor information systems	IT in Business: Advanced Database F848 35
309	Plan and run projects	Developing the Individual within a Team F870 34 or F86Y 35
310	Research, analyse and report information	Communication: Analysing and Presenting Complex Information DE3N 34
311	Plan, organise and support meetings	Communication: Analysing and Presenting Complex Information DE3N 34
312	Make a presentation	Presentation Skills F84E 35
313	Organise and coordinate events	Developing the Individual within a Team F870 34 or F86Y 35
314	Use word processing software (IT User)	IT in Business: Word Processing and Presentation Skills F84C34
315	Use spreadsheet software (IT User)	IT in Business: Spreadsheets F84V 34

SVQ Unit No	SVQ Unit title	HNC/D Unit
316	Use website software (IT User)	Optional unit: Publishing on the Internet (D4FB 34) or Internet: Web Development (DF60 35)
317	Use artwork and imaging software	
318	Design and produce documents	IT in Business: Word Processing and Presentation Skills F84C 35
319	Plan and implement innovation and change	Office Management F84D 35 02
320	Develop productive working relationships with colleagues (MSC)	Developing the Individual within a Team F870 34 or F86Y 35
321	Provide leadership for your team (MSC)	Developing the Individual within a Team F86Y 35
323	Prepare text from shorthand	Optional unit: Shorthand as a Skills (differing speeds) DE27 34, DE28 35, DE29, 35, DE2A 35, DE2C 35
324	Prepare text from recorded audio instructions	

Specialist units relating to the Prison Service, Court proceedings and Schools are not included in the list above.

Appendix 2.2: SVQ Business and Administration level 4 (G7Y4 24)

SVQ Unit No	SVQ Unit title	HNC/D Unit/Outcome
Mandatory Core (2 Credits)		
401	Carry out your responsibilities at work	Relevant content throughout the awards
402	Work within your business environment	Relevant content throughout the awards
Group A (0 to 1 Credits)		
305	Manage and evaluate customer relations	Optional unit: Creating a culture of customer care DJ42 34
310	Research, analyse and report information	Communication: Analysing and Presenting Complex Information DE3N 34
Group B (3 to 4 Credits)		
403	Manage an office facility	Office Management F84D 35
404	Manage contracts	
405	Negotiate and agree budgets	Office Management F84D 35 and optional units: Business Accounting DE39 34 and Preparing Financial Forecasts DE3J 35
406	Monitor and review the implementation of corporation objectives, strategies and policies	Office Management F84 35 01
407	Inform and facilitate corporate decision-making	
408	Evaluate internal and external factors and promotion of partnership working	
409	Manage risk	
410	Create and manage information systems	IT in Business: Advanced Databases F848 35
411	Manage projects	ICT in Business F84W 35 Developing the Individual within a Team F870 34 or F86Y 35
412	Chair meetings	Communication: Analysing and Presenting Complex Information DE3N 34 Developing the Individual within a Team F870 34 or F86Y 35
413	Promote innovation and change	Office Management F84D 35 02
414	Develop productive working relationships with colleagues and stakeholders (MSC)	Developing the Individual within a Team F870 34 or F86Y 35
415	Allocate and monitor progress and quality of work in your area of responsibility (MSC)	Office Management F84D 35 Developing the Individual within a Team F86Y 35
416	Recruit, select and keep colleagues (MS)	Office Management F84D 35 03 Recruitment, Selection and Induction DN74 34
417	Provide learning opportunities for colleagues (MSC)	Office Management F84D 35 04 Learning and Development: An Introduction DN3H 34 Training and Developing the Workforce A6HC 34
418	Provide leadership for your area of responsibility (MSC)	Developing the Individual within a Team F86Y 35 Office Management F84D 35

Appendix 4: Unit by Unit credit transfer guidance

New Unit code	New Unit title	Old Unit code	Old Unit title	Transition arrangements
HNC and HND (Year 1) Administration and Information Technology Mandatory Units				
F7JA 34	Office Administration	DE1P 34	Office Administration	Candidates need to complete new Outcome 2. If candidates hold previous Unit (DE1P 34) AND one of the three DSPE Units (DF4D 33 or DF4E 34 or DF4F 35) full credit transfer can be awarded as stress management content will be covered.
F7J9 34	Office Technologies	DE1R 34	Office Technologies	Full credit transfer
F847 33	Recording Financial Transactions	DP9F 33	Recording Financial Transactions	Full credit transfer
DE3N 34	Communication: Analysing and Presenting Complex Communication	DE3N 34	Communication: Analysing and Presenting Complex Communication	No change to Unit.
F84C 34	IT in Business: Word Processing and Presentation Applications	DE1L 34	IT in Business: Word Processing and Presentation Applications	Full credit transfer
F84V 34	IT in Business: Spreadsheets	DE1M 34	IT in Business: Spreadsheets	Full credit transfer
F84X 34	IT in Business: Databases	DE1N 34	IT in Business: Databases	Full credit transfer
DE3R 34	Personal Development Planning	DF4E 34 DF4F 35	Developing Skills for Personal Effectiveness	Full credit transfer *No automatic credit transfer is available for Developing Skills for Personal Effectiveness at SCQF level 6 (DF4D 33)

New Unit code	New Unit title	Old Unit code	Old Unit title	Transition arrangements
HND (Year 2) Administration and Information Technology Mandatory Units				
F848 35	IT in Business: Advanced Databases	DE1W 34	IT in Business: Advanced Databases	Full credit transfer
F84A 35	IT in Business Advanced Word Processing	DE2G 35	IT in Business Advanced Word Processing	Full credit transfer
F849 35	IT in Business: Advanced Spreadsheets	DE1V 35	IT in Business: Advanced Spreadsheets	Full credit transfer
F84D 35	Office Management	DE1X 35	Office Management	Full credit transfer
F84E 35	Presentation Skills	DE20 335	Presentation Skills	Full credit transfer
F870 34	Developing the Individual within a Team	DF45 34	Developing the Individual within a Team	Full credit transfer
F86Y 35	Developing the Individual within a Team	DF46 35	Developing the Individual within a Team	Full credit transfer
F84W 35	Information and Communication Technology in Business	DE1Y 35 and D76J 35	Business Information Management Project Management	Full credit transfer
F8KW 34	Administration and Information Technology: Graded Unit 1	DE1T 34	Administration and Information Technology: Graded Unit 1	Full credit transfer
F8KX 35	Administration and Information Technology: Graded Unit 2	DE22 35	Administration and Information Technology: Graded Unit 2	Full credit transfer
F8KY 35	Administration and Information Technology: Graded Unit 3	DE23 35	Administration and Information Technology: Graded Unit 3	Full credit transfer

Note — Credit Transfer is a decision for centres and can be given where there is broad equivalence between the subject-related content of the Units, ie the Knowledge and/or Skills have not changed, or are covered in the Unit for which credit is being awarded. Centres should give some consideration to currency of achievement when awarding credit transfer.

The guidance above has been written and vetted by SQA External Verifiers.

Appendix 5: Suggested Delivery and Assessment Strategies

Appendix 5.1 Suggested HNC Delivery and Assessment Timelines for Mandatory Units

Cluster	Unit Code and Abbreviated Title	Delivery/Assessment
<p>5 x HN credits</p> <p>Delivered and assessed across 2 semesters</p>	<p>DE3N 34 Comms F7JA 34 OA F7J9 34 OT F84C 34 ITiB: WPPA</p>	<p>DELIVERY: Candidates learn about conventions, format and layout of documents and are then expected to use them (WPPA 01/02, Comms 01/02). Candidates need to research, select information and present recommendations relating to core administrative activities, consider the use of equipment/software for these activities and the various issues relating to their application, these can be achieved using internet and books — the subject matter can be researched by candidates and they can develop critical thinking skills relating to purpose, validity, reliability etc of sources of information.</p> <p>ASSESSMENT: Candidates may present their research notes, analysis of texts and produce a report giving details of their findings. (Comms 01/02, OA 01/02/03, OT 01/02/03, WPPA 01)</p> <p>DELIVERY: Practice participating in meetings as part of the learning process and producing action plans and minutes to record learning points/evidence, topics for these meetings could include:</p> <p>Issues to consider when installing new equipment/software. Impact of new working practices on individuals (ie stress, symptoms, strategies (link to communication, training etc)</p> <ul style="list-style-type: none"> • Legislation for the administrative function • Contributions could be made using presentation software • Candidates may gather research and hold a meeting with other candidates to clarify their thinking <p>ASSESSMENT: Documentation to support meetings is required as part of 01 WPPA, and 03 Comms; the outcomes of meetings may be further presented in a multi-page document in report style that will cover a good range of evidence for 01 WPPA and 02 Comms whilst the content of such a document may provide appropriate evidence for OA 01/02 and/or 01 OT — an emphasis on communication skills development should be supported throughout. (Comms 02/03, OA 01/02, OT 01, WPPA 03/04)</p>

Cluster	Unit Code and Abbreviated Title	Delivery/Assessment
2 x HN credits Delivered and assessed within first semester	F84V 34 ITiB: SS F847 33 RFT	<p>DELIVERY: Both are number based. When candidates learn how to use spreadsheets they often have to be introduced to business financial documents. If these two units are combined then candidates can learn about the various financial books, their purposes and how spreadsheets can support accounting and bookkeeping ie increased accuracy through the use of formulae; 3-d referencing, use of comments, macros and security features etc. Candidates can learn how to design the various financial books and how they are used.</p> <p>ASSESSMENT: SS01 could be in 2 parts: <u>part one</u> creating the various day books, petty cash and cashbooks (RFT 01), ledgers and creating a trial balance (RFT 02) and creating a VAT return document (RFT 03) (the RFT states candidates should be provided with day books, cashbooks, ledgers and VAT pro formas — this would be an excellent alternative that enhances the candidates learning). This part could include creation and application of a macro, cell formatting and application of security features, comments etc. No figures, formulae or functions would be added at this stage. The various components of the SS 01 do not need to be completed in one sitting — the evidence requirements are much more flexible, and candidates could apply the relevant data on another occasion.</p> <p><u>Part two-</u> each outcome of RFT would be completed under closed book controlled conditions — candidates will add the relevant data, formulae and functions and seek to produce appropriate responses. (SS01 and RFT01, 02 and 03)</p> <p>DELIVERY: The last two outcomes of ITiB: SS may be delivered and assessed together. They are both about summarising data to allow interpretation of information. Candidates could be provided with a number of case studies. For outcome 2 they would learn how to create charts to enable analysis of numbers showing trends, comparisons etc. For outcome 3, using some simple statistical data, candidates learn how to collate and summarise data into meaningful formats, again to allow the identification of trends, comparisons, the unexpected etc.</p> <p>ASSESSMENT: Integrated assessment based on a case study, or if candidates are working in an office environment, they may gather evidence requirements and collate a portfolio of evidence. (SS: 02/03)</p>

Cluster	Unit Code and Abbreviated Title	Delivery/Assessment
1 x HN unit, Delivered in Semester 2	F84X 34 ITiB: Databases	<p>DELIVERY: Database is different to other software applications although it does use common principles if used as part of a suite of software. This unit would be best delivered in the later part of the award allowing candidates to develop confidence in using ICT. Also candidates may benefit from working with existing databases first and learning how to create tables/queries/reports and ways of manipulating data in the various objects before they learn how to design a database.</p> <p>ASSESSMENT: There are a variety of ways in which this unit can be assessed, holistically through one case study. One case study for 01/02 and another one for outcome 3. Outcome 3 could also be assessed before 01/02 if desired.</p>
2 x HN credits	DE3R 34 Personal Development Planning F8KW 34 Graded Unit 1	<p>DELIVERY: If candidates are studying for this award full time, then their focus will be on completing successfully, this will involve analysing their personal skills in relation to study and achievement of personal goals. It may be that the PDP unit is delivered across the whole year. Areas of investigation may include: time keeping, task management, approaches to studying ie note taking, coping with unforeseen circumstances, revision skills, examination techniques etc</p> <p>This could then help candidates analyse more critically their earlier coping strategies, consider how effective they are and try out different ones and identify those that work for them.</p> <p>ASSESSMENT: The PDP unit will be through portfolio evidence gathering, this may be stored electronically or in hard copy. The GU1 will be assessed at the end of the year through closed book controlled conditions. (PDP 01, 02, 03 and GU1)</p>
Optional Units may be integrated within the appropriate clusters or delivered independently

Appendix 5.2 Suggested HND Delivery and Assessment Timelines for Mandatory Units

Cluster	Unit Code/Abbreviated Title	Delivery/Assessment
3/2 x HN credits	<p>F84D 35 Office Management 01/02 F84W 35 ICTiB (01) F84A 35 ITiB: Adv WP (01/02)</p> <p>F84D 35 Office Management (03/04) and F870 34 DIWAT or F86Y 35 DIWAT</p>	<p>DELIVERY: ICTiB 01 looks at decision making; OM 01/02 and DIWAT 01/02 may be delivered together, they have many common themes and ITiB: Adv WP 01/02 could be used as a vehicle to apply the skills of leading and organising, managing change and developing interpersonal skills to enable these qualities to be achieved.</p> <p>OM 03/04 and the HR options may also be integrated. Finally DIWAT 03 is a project that has to be completed by a team and then analysed.</p> <p>ASSESSMENT: The assessment may be gathered as a portfolio of evidence comprising: ICTiB 01/OM 01/02 report; 03 documents relating to recruitment and selection and 04 report; DIWAT 01 response to case study, evaluation checklist, 02 response to case study and 03 collection of evidence relating to the team activity. ITiB: Adv WP 01/02 report with appendices of new document templates etc, finally for 03/04 evidence may be collated across a range of documents as and when they are naturally produced and recorded against a checklist to ensure all evidence requirements are met.</p>
1 x HN credit	F849 35 ITiB: Adv SS	<p>DELIVERY: candidates will learn the various software features and develop skills in analysing business problems and identifying the appropriate spreadsheet responses to support the managers in making decisions.</p> <p>ASSESSMENT: Evidence may be collated across a range of documents as and when they are naturally produced and recorded against a checklist to ensure all evidence requirements are met.</p>

Cluster	Unit Code/Abbreviated Title	Delivery/Assessment
5 x HN credits	F84W 35 ICT in Business F84E 35 Presentation Skills F848 35 ITIB: Adv Dtb	<p>DELIVERY: ICTiB 01 knowledge/skills relating to information needs and information systems, together with Adv Dtb builds on the knowledge/skills covered in the HNC database unit. Delivering these outcomes together helps to clarify the characteristics of good business information and how the database management features can support good business information.</p> <p>ASSESSMENT: ICTiB 01 (part relating to info needs) and 01 Adv Database may be assessed together and information needs be discussed in the Adv DtB report.</p> <p>DELIVERY/ASSESSMENT: ICTiB 05 and Presentation Skills build on WPPA 04 and Communications, this should be delivered and assessed together.</p> <p>DELIVERY/ASSESSMENT: ICTiB 03/04 should be delivered and assessed together.</p>
2 x SQA credits	F8KX 35 GU2 F8KY 35 GU3	<p>DELIVERY: Delivery of GU3 is minimal, this unit is intended to be self-driven with support from staff but time needs to be allocated to ensure that there is sufficient access to resources including the assessor. GU2 is about preparing for the exam usually held around week 12/13. To ensure that candidates have the best opportunity for these two graded units all the relevant units should be completed as far as possible and this time should be used to bring together the learning and applying it to a wide variety of case studies. This will enable the candidate to gain confidence in the content and methods of assessment. The remaining time could be used for one final optional module.</p> <p>ASSESSMENT: Will still be completed independently.</p>
Optional Units may be integrated within the appropriate clusters or delivered independently		

Key:

0 = Outcome

GU = Graded Unit
