General Marking Principles for Advanced Higher Gàidhlig: Literature

This information is provided to help you understand the general principles you must apply when marking candidate responses to questions in this Paper. These principles must be read in conjunction with the Detailed Marking Instructions, which identify the key features required in candidate responses.

- a) Marks for each candidate response must always be assigned in line with these General Marking Principles and the Detailed Marking Instructions for this assessment.
- b) Marking should always be positive. This means that, for each candidate response, marks are accumulated for the demonstration of relevant skills, knowledge and understanding: they are not deducted from a maximum on the basis of errors or omissions.
- c) Markers should take into consideration the suitability of the text(s) chosen by the candidate, which should be complex and sophisticated. Depending on the candidate's approach and depth of analysis, some texts may be self-penalising.
- d) Assessment should be holistic. There may be strengths and weaknesses in the essay: assessment should focus as far as possible on the strengths, taking account of weaknesses only where they significantly detract from the overall essay.
- e) Candidates may display ability across more than one band descriptor. Assessors should recognise the closeness of the band descriptors and consider carefully the most appropriate overall band with the candidate's performance.
- f) Once the appropriate band descriptor has been selected, the assessor should follow this guidance:
 - If the evidence fully meets the standard described, award the highest available mark from the range.
 - If the candidate's work just meets the standard described, award the lowest mark from the range.

Otherwise, where applicable, the mark should be awarded the middle mark in the range.

Where there is no evidence relevant to the task, award a mark of 0.
