| Notes to candidates |
|---|

Before you start to research you must select a brief and read the 'Instructions for candidates' which give details of the skills you must demonstrate and the type of evidence you must provide.
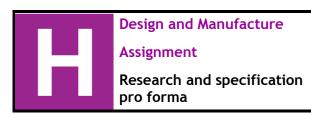

**You should speak to your teacher or lecturer before you start if you are unclear about what is required for this assessment.**

Produce the product design specification on the research and specification pro forma.

You must:

♦ Identify a retail environment in which the display stand will be used.
♦ Identify the items which the display stand will be required to hold.
♦ Identify additional issues required for the specification.
♦ Carry out primary and secondary research.

## Specification

The specification should include key points from the brief and research to detail the requirements of the proposal.
It should clarify aspects such as aesthetics, function, ergonomics, performance, and cost.

Add photographic evidence of the practical modelling skills you used during the development of your proposal.

Photographs must be clear enough to show the accuracy and detail of your practical models.

Photographs should include, where appropriate, an item such as a steel rule, to give an indication of the size and scale of your models.
