Higher Physical Education Performance Assessment task

This document provides information for teachers and lecturers about the coursework component of this course in terms of the skills, knowledge and understanding that are assessed. It must be read in conjunction with the course specification.

Valid from session 2018-19 and until further notice.

Introduction

This document contains instructions for teachers and lecturers, marking instructions, recording documentation and instructions for candidates for the Higher Physical Education performance. You must read it in conjunction with the course specification.

This performance is worth 60 marks. This is 50% of the overall marks for the course assessment. Each single performance event is marked out of 30.

This is one of two course assessment components. The other component is a question paper.

The purpose of this component is to assess candidates’ ability to effectively perform in two different physical activities.

Each performance is a single event which is in a challenging, competitive and/or demanding context. This gives candidates an opportunity to demonstrate the following skills, knowledge and understanding:

♦ repertoire of skills — a broad and comprehensive performance repertoire (including complex movement and performance skills)
♦ control and fluency of complex movement and performance skills
♦ effective decision making and problem solving
♦ using and applying well established composition, tactics and roles
♦ extent to which rules and regulations are followed and etiquette is displayed (including working with others)
♦ extent to which emotions are controlled on the day of the performance
Instructions for teachers and lecturers

Each single performance is:

- set by centres within SQA guidelines
- conducted under some supervision and control
- internally marked by teachers and lecturers in line with SQA marking instructions

All marking is quality assured by SQA.

The context for each single performance event must set it apart from normal learning and teaching activities so that it is challenging, competitive and/or demanding.

You must ensure that you can reliably assess each candidate in any context. You should consider the number of candidates being assessed at any one time.

The activity selected for each single performance event must provide candidates with the opportunity to display a **significantly different** range of movement and performance skills. This allows them to demonstrate a breadth of performance skills within a variety of contexts.

**Assessment conditions**

**Time**

The performances should be of a sufficient duration to allow candidates to demonstrate the required skills, knowledge and understanding.

**Supervision, control and authentication**

Teachers and lecturers must ensure candidates are provided with a suitable performance environment and appropriate conditions to undertake their assessment. Teachers and lecturers should use their professional judgement as to whether the context is suitable.

Teachers and lecturers must authenticate performances by ensuring they are carried out under the correct conditions and to the correct standards.

**Resources**

There are no restrictions on the resources available to candidates.

**Reasonable assistance**

Candidates must undertake the assessment independently. However, they may receive assistance with the selection of appropriate physical activities prior to the assessment taking place.
Evidence to be gathered

Teachers and lecturers should use observational checklists to record candidate achievement for each performance. These checklists can be found in this performance assessment task document. Teachers and lecturers must ensure that comments about how assessment judgements have been made for each candidate are included on the checklists.

Volume

Candidates must complete two single performances in different physical activities.
**Marking instructions**

**General marking principles**
Always apply these general principles. Use them in conjunction with the detailed marking instructions, which identify the key features required in candidates’ responses.

a Always use positive marking. This means candidates accumulate marks for the demonstration of relevant skills, knowledge and understanding; marks are not deducted for errors or omissions.
b Select the mark range that most closely describes the evidence demonstrated by the candidate:

- Award the highest available mark from this range if the evidence almost matches the description of the mark range above.
- Award the lowest mark from this range if the evidence just meets the description of this range.

**Detailed marking instructions**
The first table shows how the marks must be allocated for the performance. The second table, in landscape format, may be useful as an overview of how to award marks when assessing candidates’ performances.

Instructions for candidates

This assessment applies to the performance for Higher Physical Education.

This performance is worth 60 marks. This is 50% of the overall marks for the course assessment. Each single performance event is marked out of 30.

It assesses the following skills, knowledge and understanding:

- repertoire of skills — a broad and comprehensive performance repertoire (including complex movement and performance skills)
- control and fluency of complex movement and performance skills
- effective decision making and problem solving is evident
- using and applying well established composition, tactics and roles safely and effectively
- extent to which rules and regulations are followed and etiquette is displayed (including working with others)
- extent to which emotions are controlled on the day of the performance

Your teacher or lecturer will record on an observational checklist how well you meet each of these.

Your teacher or lecturer will let you know if there are any specific conditions for doing this assessment.

In this assessment, you have to:

- carry out two single performances in different activities, the context of which must be challenging, competitive and/or demanding

Your teacher or lecturer can help you choose the physical activities. Each of the activities selected for your single performance events must provide you with the opportunity to display a significantly different range of movement and performance skills.
