Dear Colleague

**Higher National Unit: Assessment Exemplars  
Legal Services: Graded Unit 2 – F1H9 35**

**Publication date: July 2009  
Publication Code: CB4970v.2/CB4971v.2**

It has come to our attention that there are errors in both the main examination Assessment Exemplar and re-sit examination Assessment Exemplar for the above Graded Unit. It has therefore, been agreed that both Assessment Exemplars should be amended with immediate effect.

The first of the amendments made is in relation to one of the legal research skills that a candidate must demonstrate; specifically that of the Progressive Process whereby the starting point for carrying out the 10 year search has been altered to reflect the current application date and not that of the previous application as originally perceived. This has resulted in the text of the Case Study being amended as well as that of the Suggested Solution (page 13, para. 3 and page 24, third column, 5c) respectively.)

The second amendment made was to the figure set when calculating the amount of heritable property which increased in 2011 to £473,000.00, however, this affected the Suggested Solution of the main examination paper only (page 21, third column, 2ci).

Version 2 of both of the exemplars shows the History of Changes date as September 2015, therefore, any use of the previous versions of the Assessment Exemplars will only be acceptable until the end of the 2015/16 Academic year.

If you have any further query whatsoever, please do not hesitate to contact me.

Yours faithfully
