Introduction

These support notes are not mandatory. They provide advice and guidance on approaches to delivering and assessing the *Personal Development: Personal Hygiene* Unit. They are intended for teachers and lecturers who are delivering this Unit. They should be read in conjunction with:

- ◆ the *Unit Specification*
- ◆ the *Unit Assessment Support pack*

General guidance on the Unit

Aims

The aim of this Unit is to provide learners with opportunities to understand the importance of personal hygiene and develop the basic skills required to carry out personal hygiene activities.

The Unit also provides a framework for learners to develop knowledge and skills for learning, skills for life and skills for work.

Progression into this Unit

Entry to this Unit is at the discretion of the centre.

This Unit has been designed to draw on and build on Curriculum for Excellence experiences and outcomes.

This Unit would be suitable for learners who have successfully completed qualifications in related areas at SCQF level 1. Relevant experiences and outcomes may also provide an appropriate basis for doing this Unit.

Skills, knowledge and understanding covered in this Unit

If this Unit is being delivered on a free-standing basis, teachers and lecturers are free to select the skills, knowledge, understanding and contexts which are most appropriate for delivery in their centres.

Learners who complete this Unit will be able to demonstrate an understanding of personal hygiene.

Progression from this Unit

This Unit may provide progression to:

- ◆ other Personal Development Units at SCQF level 1
- ◆ *Personal Health, Personal Presentation and Promoting Health* Units of Personal Achievement Award at SCQF levels 1 and 2
- ◆ further study, employment and/or training

Further details about these Units can be found on SQA's website.

Learners may progress to other Units at the same level or Courses/Units at higher levels. The nature of this progression will depend on the individual needs of the learner.

Approaches to learning, teaching and assessment

The purpose of this section is to provide general advice and guidance on approaches to learning, teaching and assessment which can be used for the delivery of this Unit.

Learners undertaking qualifications at SCQF level 1 will take part in the Unit at different levels of participation and with varying degrees of support, all of which meet the Assessment Standards. Some learners may take part at an experiential or sensory level requiring full support. Some may require frequent direction and support to enable them to take part, while others may take part independently or with intermittent support.

Learners should be given as much support as they need to engage with learning, teaching and assessment activities whilst maintaining the integrity of the Outcome and Assessment Standards.

The level of support required, and any support framework used, is at the discretion of individual centres.

The skills-based focus of the Unit lends itself to the use of a variety of learning and teaching approaches, reflecting the values and principles of the curriculum. Effective learning and teaching will draw on a variety of approaches to enrich the experience of learners. In particular, a mix of approaches which provide opportunities for personalisation and choice will help to motivate and challenge the learners.

Learning should be relevant to the learner's everyday life, their overall learning programme, and/or work and leisure. Teachers/lecturers could also consider interdisciplinary and cross-curricular approaches to learning and teaching and explore how extra-curricular activities or the personal interests of learners could be included and recognised.

Learners should be given the opportunity to use their normal mode of communication and have access to the appropriate resources for support where they would normally be available in real-life situations in which the activity is being carried out.

Examples of learning and teaching approaches and ways of recording evidence are provided in the table on the next page.

Personal Development: Personal Hygiene (National 1)

Outcome 1

With the appropriate level of support and resources, the learner will demonstrate an understanding of personal hygiene by:

Assessment Standards	Guidance and suggested learning and teaching approaches																		
<p>1.1 Identifying personal hygiene activities</p> <p>1.2 Identifying items needed to carry out the activities</p> <p>1.3 Carrying out the activities appropriately</p>	<p>Teachers/lecturers should explain the importance of personal hygiene to learners and explore with them the activities involved in personal hygiene and the items needed to undertake personal hygiene. Learners are asked to identify personal hygiene activities and the items needed to carry out these activities. This could be carried out as a matching exercise using pictures. Some examples of personal hygiene activities and products/items needed to maintain personal hygiene are:</p> <table border="1" data-bbox="521 778 2051 1114"> <thead> <tr> <th data-bbox="521 778 1131 815">Examples of personal hygiene activity</th> <th data-bbox="1131 778 2051 815">Examples of products/items</th> </tr> </thead> <tbody> <tr> <td data-bbox="521 815 1131 852">Showering/bathing/washing hands and face</td> <td data-bbox="1131 815 2051 852">Soap, shower gel, bubble bath, sponge, facecloth</td> </tr> <tr> <td data-bbox="521 852 1131 888">Shaving</td> <td data-bbox="1131 852 2051 888">Electric shaver, mirror</td> </tr> <tr> <td data-bbox="521 888 1131 925">Applying deodorant</td> <td data-bbox="1131 888 2051 925">Deodorant, body spray</td> </tr> <tr> <td data-bbox="521 925 1131 962">Brushing teeth</td> <td data-bbox="1131 925 2051 962">Toothbrush, toothpaste, mouthwash</td> </tr> <tr> <td data-bbox="521 962 1131 999">Nail care</td> <td data-bbox="1131 962 2051 999">Nail brush, soap</td> </tr> <tr> <td data-bbox="521 999 1131 1035">Hair care</td> <td data-bbox="1131 999 2051 1035">Comb, brush, hairdryer, shampoo, conditioner</td> </tr> <tr> <td data-bbox="521 1035 1131 1072">Toilet care</td> <td data-bbox="1131 1035 2051 1072">Washing hands after using the toilet, using hand towels/hand dryers</td> </tr> <tr> <td data-bbox="521 1072 1131 1109">Washing clothes</td> <td data-bbox="1131 1072 2051 1109">Washing powder</td> </tr> </tbody> </table> <p>To provide evidence of the learner carrying out personal hygiene activities, learners could keep a diary in an appropriate format, eg pictorial, oral recording of their personal hygiene activities. Alternatively the learner could take part in activities that are carried out in the centre, eg washing hands after going to the toilet, combing and brushing hair, cleaning nails, brushing teeth after meals.</p>	Examples of personal hygiene activity	Examples of products/items	Showering/bathing/washing hands and face	Soap, shower gel, bubble bath, sponge, facecloth	Shaving	Electric shaver, mirror	Applying deodorant	Deodorant, body spray	Brushing teeth	Toothbrush, toothpaste, mouthwash	Nail care	Nail brush, soap	Hair care	Comb, brush, hairdryer, shampoo, conditioner	Toilet care	Washing hands after using the toilet, using hand towels/hand dryers	Washing clothes	Washing powder
Examples of personal hygiene activity	Examples of products/items																		
Showering/bathing/washing hands and face	Soap, shower gel, bubble bath, sponge, facecloth																		
Shaving	Electric shaver, mirror																		
Applying deodorant	Deodorant, body spray																		
Brushing teeth	Toothbrush, toothpaste, mouthwash																		
Nail care	Nail brush, soap																		
Hair care	Comb, brush, hairdryer, shampoo, conditioner																		
Toilet care	Washing hands after using the toilet, using hand towels/hand dryers																		
Washing clothes	Washing powder																		

Assessment

There is no external assessment for National 1 Units. All Units are internally assessed against the requirements outlined and described in the *Unit Specification* and the *Unit Assessment Support* pack.

To achieve the Unit, learners must achieve the Unit Outcome.

At SCQF level 1, it is anticipated that most evidence for assessment purposes will be gathered on a naturally occurring, ongoing basis, rather than from more formal assessment methods. There are many contexts that might be used for gathering evidence. These might include, for example, extra-curricular and/or outdoor learning.

Naturally occurring evidence is evidence which occurs within and as part of the learning and teaching, and can be gathered for assessment purposes in a variety of ways. Examples of how this evidence might be gathered include:

- ◆ observation of evidence demonstrated during an activity (using an observation checklist, visual recording, photography or equivalent)
- ◆ oral questioning before, during and on completion of an activity (recorded using an audio-visual or audio recording or using detailed written assessor notes as evidence)
- ◆ learning and teaching activities which generate physical evidence for assessment
- ◆ identifying opportunities to record evidence within out-of-centre activities

Centres are encouraged to develop criteria for success which focus on small, well-defined steps in learning. In this way the learner is more likely to achieve success in the Units and in any subsequent learning.

Learners will benefit from receiving accurate and regular feedback regarding their learning. This helps to ensure they are actively involved in the assessment process. It is important that different approaches to assessment are adopted to suit the varying needs of learners.

Authentication

For guidance on authentication of evidence that is gathered outwith the direct supervision of the teacher/lecturer responsible for the learner, eg outside the school or classroom, refer to SQA's *Guide to Assessment*.

It is important that teachers/lecturers track and keep accurate records of their assessments in order to:

- ◆ inform learners of their progress
- ◆ identify where further consolidation is required
- ◆ retain and store appropriately evidence of work in progress and completed work for verification purposes

It is anticipated that learners will need a high degree of teacher/lecturer assistance. More details about the type of support are provided within the Equality and Inclusion section.

Developing skills for learning, skills for life and skills for work

The *Unit Specification* lists the skills for learning, skills for life and skills for work that learners should develop in this Unit. These are based on SQA's *Skills Framework: Skills for Learning, Skills for Life and Skills for Work* and should be built into the Unit where there are appropriate opportunities. The level of these skills will be appropriate to the level of the Unit.

Skills for learning, skills for life and skills for work	Examples of learning and teaching approaches
1 Literacy	
<p>1.3 Listening and talking</p> <p>Listening means the ability to understand and interpret ideas, opinions and information presented orally for a purpose and within a context, drawing on non-verbal communication as appropriate. Talking means the ability to communicate orally ideas, opinions and information for a purpose and within a context.</p>	<p>Where appropriate, learners could use their normal mode of communication during learning and teaching activities by:</p> <ul style="list-style-type: none"> ◆ communicating, eg about personal hygiene activities ◆ responding, eg when asked about an item needed to carry out a personal hygiene activity
3 Health and wellbeing	
<p>3.2 Emotional wellbeing</p> <p>Emotional wellbeing includes taking responsibility for yourself and being aware of the impact your behaviour may have on others; developing ways to manage your feelings; developing positive attitudes and resilience; practising assertive behaviours; building confidence; and, based on an understanding of any risks, making informed decisions.</p>	<p>Where appropriate, learners could develop emotional wellbeing during learning and teaching activities by:</p> <ul style="list-style-type: none"> ◆ taking responsibility for their own wellbeing, eg when learning how to manage personal hygiene activities
<p>3.3 Physical wellbeing</p> <p>Recognising the importance and benefits of healthy and active living and practising skills to make the most of positive aspects of activity, such as enjoyment and challenge.</p>	<p>Where appropriate, learners could develop physical wellbeing during learning and teaching activities by:</p> <ul style="list-style-type: none"> ◆ developing an understanding of the importance of personal hygiene activities in supporting the maintenance of physical well-being

It is important that learners have opportunities to develop these broad general skills as an integral part of their learning experience.

There will be opportunities for the development of additional skills for learning, skills for life and skills for work throughout this Unit. These will vary from centre to centre depending on the approaches being used to deliver the Unit.

Equality and inclusion

The additional support needs of learners should be taken into account when planning learning experiences or when considering any reasonable adjustments that may be required. Assessment methods should offer all learners an equal opportunity to demonstrate their achievement. This should be reflected in the language used, the use of different assessment presentation methods and the use of appropriate illustrative materials that reflect an inclusive view.

Learners undertaking qualifications at SCQF level 1 are likely to require more support with their learning than at other levels, and learners should be given as much support as they need to engage with learning, teaching and assessment activities whilst maintaining the integrity of the Outcome and Assessment Standards.

Examples of support might include:

- ◆ allowing extra time to complete activities
- ◆ support ranging from prompting to full support from a responsible person
- ◆ the use of specialised and adapted equipment
- ◆ the use of ICT and other assistive technologies
- ◆ visual prompts

It is recognised that centres have their own duties under equality and other legislation and policy initiatives. The guidance given in these *Unit Support Notes* is designed to sit alongside these duties but is specific to the delivery and assessment of the Unit.

Alternative approaches to Unit assessment to take account of the specific needs of learners can be used. However, the centre must be satisfied that the integrity of the assessment is maintained and where the alternative approach to assessment will, in fact, generate the necessary evidence of achievement.
