# Introduction

This document contains marking instructions, instructions for teachers and lecturers and instructions for candidates for the National 5 Physical Education performance. It must be read in conjunction with the course specification.

The performances have a total of 60 marks. The marks contribute 50% of the overall marks for the course assessment. Each single performance event is marked out of 30.

This is one of two course assessment components. The other component is a portfolio.

The purpose of this component is to assess candidates' ability to effectively perform in **two** different physical activities.

Each performance will be a single event which is in a challenging, competitive and/or demanding context. This gives candidates an opportunity to demonstrate the following skills, knowledge and understanding:

- ◆ a repertoire of skills – including complex skills
- ◆ control and fluency
- ◆ effective decision-making
- ◆ using and applying straightforward composition, tactics or roles safely and effectively
- ◆ conforming to rules, regulations and etiquette
- ◆ controlling emotions
- ◆ working co-operatively with others

# Instructions for teachers and lecturers

Each single performance is:

- ◆ set by centres within SQA guidelines
- ◆ conducted under some supervision and control
- ◆ internally marked by centre staff in line with SQA marking instructions

All marking will be quality assured by SQA.

Each performance must be in a challenging, competitive and/or demanding context to set it apart from normal learning and teaching activities.

Teachers and lecturers must ensure that they can reliably assess each candidate in any context. This will involve giving consideration to the number of candidates being assessed at any one time.

The activity selected for each single performance event **must** provide candidates with the opportunity to display a **significantly different** range of movement and performance skills. This will allow them to demonstrate a breadth of performance skills within a variety of contexts.

## Assessment conditions

### Time

The performances should be of a sufficient duration to allow candidates to demonstrate the required skills, knowledge and understanding.

### Supervision, control and authentication

Teachers and lecturers must ensure candidates are provided with a suitable performance environment and appropriate conditions to undertake their assessments. Teachers and lecturers should use their professional judgement as to whether the context is suitable.

Performances must be authenticated as being carried out under the required performance conditions and to the required standards.

### Resources

There are no restrictions on the resources available to candidates.

### Reasonable assistance

Candidates must undertake the assessment independently. However, they may receive assistance with the selection of appropriate physical activities prior to the assessment taking place.

## **Evidence to be gathered**

Teachers and lecturers should use observational checklists to record candidate achievement for each performance. These checklists can be found in this performance assessment task document. Teachers and lecturers must ensure that comments about how assessment judgements have been made for each candidate are included on the checklists.

## **Volume**

Candidates must complete two single performances in different physical activities.

# Marking instructions

The performance is internally marked by teachers and lecturers and verified by SQA.

## General marking principles

This information is provided to help you understand the general principles that must be applied when marking candidate responses in this performance. These principles must be read in conjunction with the detailed marking instructions, which identify the key features required in candidate responses.

- a Marks for each candidate response must **always** be assigned in line with these general marking principles and the detailed marking instructions for this assessment.
- b Marking should always be positive. This means that, for each candidate response, marks are accumulated for the demonstration of relevant skills, knowledge and understanding: they are not deducted from a maximum on the basis of errors or omissions.
- c You should select the mark range which most closely describes the evidence demonstrated by the candidate.

Once the mark range has been selected:

- ◆ where the evidence almost matches the description of the mark range above, the highest available mark from the current mark range must be awarded
- ◆ where the evidence just meets the description of the current mark range, the lowest mark from this range must be awarded

## Detailed marking instructions

The following table gives details regarding how the marks must be allocated for the performance. Teachers and lecturers may find the second table, in landscape format, useful as an overview of how marks are awarded when assessing candidates' performances.

Assessment item	Marking instruction	Maximum mark
Repertoire of skills – the range of fundamental to complex skills displayed in the performance.	<p><b>7-8 mark range</b> Usually applies a broad repertoire of skills, demonstrating some complex skills.</p> <p><b>5-6 mark range</b> Occasionally applies a broad repertoire of skills.</p> <p><b>3-4 mark range</b> Usually applies a basic repertoire of skills.</p> <p><b>1-2 mark range</b> Occasionally applies a basic repertoire of skills.</p> <p><b>0 marks</b> Demonstrates no evidence of applying a basic repertoire of skills.</p>	8

# Instructions for candidates

This assessment applies to the performance for National 5 Physical Education.

These performances have a total of 60 marks. The marks contribute 50% of the overall marks for the course assessment. Each single performance event is marked out of 30.

These performances assess the following skills, knowledge and understanding:

- ◆ a repertoire of skills – including complex skills
- ◆ control and fluency
- ◆ effective decision-making
- ◆ using and applying straightforward composition, tactics or roles safely and effectively
- ◆ conforming to rules, regulations and etiquette
- ◆ controlling emotions
- ◆ working co-operatively with others

Your teacher or lecturer will record on an observational checklist how well you meet each of these.

Your teacher or lecturer will let you know how the assessment will be carried out and any required conditions for doing it.

In this assessment you must carry out two single performances in different activities, the context of which must be challenging, competitive and/or demanding.

Your teacher or lecturer may help you to choose the physical activities. The two activities selected for each of your single performance events **must** provide you with the opportunity to display a **significantly different** range of movement and performance skills.
