

Unit: LM5 Recruit, select and retain colleagues (MSC Unit D3))

Overview

This unit is about recruiting and selecting people to undertake identified activities or work-roles within your area of responsibility. It involves taking a fair and objective approach to recruitment and selection to ensure that individuals with the required skills, knowledge and understanding and who are likely to perform effectively are appointed. As recruitment and selection can be expensive and time-consuming activities, the unit also involves taking action to understand why colleagues are leaving and taking action to retain colleagues. Whilst you would be expected to draw on the expertise of personnel specialists, you are not expected to be a personnel specialist yourself.

For the purposes of this unit, 'colleagues' means those people for whom you have line management responsibility.
