2. The local boatyard keeps a list of the boats it has for sale on a database. A sample of the information is shown below.

Make	Stormcat
Model	Storm Angler
Year Built	2009
Length (m)	5.2
Width (m)	1.8
Colour	Red
Price (£)	3,600

- (a) A customer is looking for a boat made by Hillyard that costs less than £5,000.

Describe how the database could be searched to display suitable boats.

3

- (b) A customer is interested in old boats.

Describe how the data would be ordered to display this.

3

- (c) The boatyard has purchased a new boat.

State what has to be done to add this data into the database.

1

2. (continued)

(d) Databases can contain images.

State a suitable field type that can contain images.

1

(e) The company has expanded and now has three boatyards throughout Scotland.

State what has to be done to the database to show where each boat is located.

1

(f) As data is entered into the database it is stored in RAM rather than ROM.

Explain why RAM is used instead of ROM.

(e) Some of the stories she writes make use of *hyperlinks*.
State the purpose of a hyperlink.

KU	PS
----	----

1

(f) When new customers subscribe to the site they are given a user ID.
Part of this user ID is a *check digit*.
State the purpose of a check digit.

1

(g) Customers can only look at their own personal information held by
the newspaper.
State **one** group of people who are allowed to look at anybody's
information held on a computer system.

1

(h) The newspaper sometimes sells lists of its customers details that have
subscribed to the website.

(i) State **one** benefit for the newspaper of selling these customer
lists.

1

(ii) State **one** benefit for the company that buys these customer lists.

1

(iii) Some subscribers do not want to be on these lists.

Give **one** reason why they may **not** want to be on these customer
lists.

1

4. John is a new Internet banking customer.

KU	PS
----	----

(a) The bank provides *online help* and *online tutorials*.

(i) Describe what is meant by online help.

1

(ii) Describe what is meant by online tutorials.

1

(b) To access his account he has to enter a password.

When he enters his password it appears as *****

Give a reason for this.

1

(c) John can pay his bills using *EFT*.

(i) State what EFT stands for.

E_____ F_____ Transfer

2

(ii) State **two** reasons why **shops** encourage customers to use EFT.

1 _____

2 _____

2

(d) *Encryption* is used when data is transferred between John's computer and the bank's computers.

State what is meant by the term encryption.

1

4. (continued)

(e) State **one** running cost that John will have to pay for Internet banking.

1

(f) Give **one** reason why banks are encouraging customers to use Internet banking.
