

SVQ Hairdressing and Barbering Qualifications Centre Update June 2014

Thank you for supporting the extension for the suite of SVQ qualifications in Hairdressing and Barbering.

The current SQA qualifications in Hairdressing and Barbering have been extended until 31 July 2015. The revised SVQs in Hairdressing and Barbering will be implemented from 1 August 2015, subject to formal accreditation.

Between July and September 2014 HABIA will consult with industry and centres on the draft structures, evidence requirements and Assessment Strategy documents.

To ensure SQA centre's views are represented in the Consultation, SQA will host stakeholder meetings to capture the views and concerns that you may have regarding the revised qualifications and compile a group response to the Consultation.

Details of the event will follow shortly.

In the meantime, if you require any further information regarding the Hairdressing and Barbering please contact me.

Regards,

Moira Duncan
