FEEDBACK TO CENTRES

General comments:

- Overall high standard of assessment/verification delivered in a high pressure working area.
- Good evidence of internal standardization.
- All assessors are current, up to date and understand units and descriptors.

Advice on good practice and areas for further development:

- Need to develop the award across the sector, this will come from within the organisation as word of mouth/networking occurs.
- Standardisation of knowledge points. Underpinning knowledge delivered directly in the workplace.
- All clinical assessors, especially in large centres need to prove update skills, as some maybe moving or removed from the clinical setting.
