2007

Subject: SVQ Performing Manufacturing Operations

Sector Panel: Engineering, Science and Mathematics

The purpose of this report is to provide feedback to centres on verification which has taken place within Higher National and Scottish Vocational Qualifications in this subject.

SVQ AWARDS

TITLES/LEVELS OF SVQ AWARDS VERIFIED

SVQ Performing Manufacturing Operations levels 1 and 2

FEEDBACK TO CENTRES

General comments:

All the centres visited were offering the awards satisfactorily. No general issues were found relating to presentation or standards. Centres were well prepared for visits with appropriate documentation available and also access to assessors, internal verifiers and candidates as requested.

Advice on good practice and areas for further development:

More centres are integrating the assessment of the awards with evidence for the mandatory Units being gained whenever possible when observing for the optional Units. This should be further developed when possible. However, it is accepted that funding arrangements can cause problems if a Unit by Unit approach is not followed.
