

## **Dr Sue Horner Masterclass**

QCDA has been developing a broader vision for assessment which encourages schools to think systematically about how they make use of all forms of assessment to support learners' progress.

A new system to enable teachers to assess English, mathematics and science to national standards based on a wide range of evidence is now being introduced into all schools. There are principles underpinning these approaches and schools have been developing different ways of putting them into action. The presentation offered by Sue introduced the scope and focus of this work

### **Biography**

Dr Sue Horner is Acting Director of Curriculum in the Qualifications and Curriculum Development Agency. She has led QCDA work on the new secondary curriculum which is now being implemented at key stage 3. She also developed Assessing Pupils' Progress as an approach to strengthen teacher assessment. More recently, Sue played a leading role in the QCDA Curriculum team's contribution to the review of the primary curriculum. Sue was a teacher and adviser in Sheffield for many years and her PhD was studying teaching styles and pedagogy in action. She has also worked extensively in the areas of test and qualifications development.
