

# Construction Craft Quality Network. Friday 14 June 2013

## Workshop No 2.

**Generic Unit : Conform to General Workplace Health Safety and Welfare.  
Time 45 minutes.**

**In you craft groups discuss the following and agree a collective response.  
Appoint a chairperson a scribe and someone to report back to the meeting.**

Craft Area    \_\_\_Brickwork\_\_\_

### Instructions :-

**1 The above TAP requires students to undertake a knowledge assessment in the form of a 30 question multiple choice paper covering the following topics.**

- Health and Safety Legislation.
- First Aid.
- Risk Assessment and Control Measures.
- Personal Protective Equipment. (PPE)
- Fire Evacuation.
- Safety Notices and Warning Signs.
- Health and Safety Control Equipment.
- Reporting Hazards and Accidents.
- Asbestos and Situational Awareness.

Originally SBATC and SPADAC favoured students undertaking this assessment during their first attendance at college in first year. However this proved impractical.

Discuss and agree a week number in the first year when students from your craft area would be ready to undertake this assessment.

Consider when each of the topic list above would be covered in a specialist or generic TAP to inform your decision making

Do knowledge assessment before end of December

At week 6

**2 The checklist below is a direct copy of the practical checklist included in the Conform to General Workplace Health Safety and Welfare TAP.  
For your craft area discuss when and in which TAP each of the items on the checklist can be evidenced in a Specialist or Generic TAP.  
Record you Unit Title and activity in column 4 of the checklist.**

Summary of Standards		Evidence Source	Assessor Check
Item	Measurement of standard	To be identified and described by the Assessor, eg Unit title, practical assessment, activity.	Achieved
Appropriate H&S training	completed	Induction	<input type="checkbox"/>
Select and use PPE	Selects appropriate PPE and wears it at all times.	Half Brick Walling, One brick Walling & Cavity Walling  All Practical TAP's	<input type="checkbox"/>
Comply with procedures for dealing with emergencies.	At all times.	Following College induction	<input type="checkbox"/>
Dispose of waste in accordance with legislative requirements.	At all times.	All Practical TAP's	<input type="checkbox"/>
Demonstrates active responsibility for general workplace safety and health.	At all times.	All Practical TAP's	<input type="checkbox"/>
Provided feedback on health, safety and welfare provision.	Feedback provided is accurate and correct.	All Practical TAP's	<input type="checkbox"/>
Use safety control equipment according to instructions.	At all times.	All Practical TAP's	<input type="checkbox"/>
Carry out pre-use safety and functional checks of all equipment.	Correctly and at all times.	All Practical TAP's	<input type="checkbox"/>
Uses all safety equipment according to instructions and training given.	At all times.	All Practical TAP's	<input type="checkbox"/>
Stores and secures all equipment in designated areas.	At all times.	All Practical TAP's	<input type="checkbox"/>

Display personal behavior which demonstrates active responsibility for general workplace safety and health.	To allow practical assessment activities to be completed to required tolerances.	All Practical TAP's	<input type="checkbox"/>
Provided feedback on health, safety and welfare provision.	Ensures safety and welfare of operatives during Practical assessment activities.	All Practical TAP's	<input type="checkbox"/>
