

# Unit XXXX 04 (217) Process Customer Orders in Food Manufacture

#### **Unit Summary**

This Unit is about taking requests from customers for goods and doing everything necessary to meet these requests apart from physically picking out and despatching the goods. You need to find out whether the goods the customer wants are available, and order them if they are not in stock. You also need to pass the customer's order to the people responsible for picking out and despatching the goods, and also pass details to the invoicing department where appropriate. You need to talk with customers in a helpful and polite way and ensure that you communicate with them clearly. You may need to get customer details such as credit card numbers which need to be stored securely, so it is important that you know where to keep such information and who you can show it to.

In order to be assessed as competent you must demonstrate to your assessor that you can consistently perform to the requirements set out below. Your performance evidence must include at least one observation by your assessor.

Achievement of this Unit will provide you with opportunities to develop the following SQA Core Skills:

**Communication Access 3** 

• Read and understand simple written communication.

Numeracy Access 3

• Apply simple numerical skills in everyday contexts.

Problem Solving Access 3

- Plan, organise and complete a simple task.
- Analyse a simple familiar situation or issue.

#### I have completed the requirements of this Unit.
