

Unit XXXX 04 (242) Carry Out Product Changeovers in Food Manufacture

Unit Summary

This Unit concerns your ability to plan and co-ordinate bake-off operations. It covers planning resources to meet anticipated demand and monitoring bake-off. This Unit is for you if you have responsibility for controlling bake-off in food and drink manufacturing.

In order to be assessed as competent you must demonstrate to your assessor that you can consistently perform to the requirements set out below. Your performance evidence must include at least one observation by your assessor.

Achievement of this Unit will provide you with opportunities to develop the following SQA Core Skills:

Communication Access 3

- Read and understand simple written communication.
- Produce simple written communication.

Problem Solving Access 3

Assessment centre:

♦ Plan, organise and complete simple task.

I have completed the requirements of this Unit.

♦ Analyse a simple situation or issue.

Candidate name: Date:

Candidate signature: Date:

I can confirm the candidate has completed all requirements of this Unit.

Unit XXXX 04 (242)

Carry Out Product Changeovers in Food Manufacture

		Evidence Requirements	
You n	nust be able to	In order to be assessed as competent you must demonstrate to your assessor that you can consistently perform to the requirements set out below. Your performance evidence must include at least one observation by your assessor. Your evidence must be work-based, simulation alone is only allowed where shown in <i>bold italics</i>	Evidence/ Activity Ref No.
F	Prepare for changeovers	Evidence of preparing for changeovers in	
	This means you:	accordance with workplace procedures.	
	a) Prepare according to the legal or regulatory requirements, the organisational health and safety, hygiene and environmental standards and instructions. b) Prepare in a way that minimises operational down time and waste of products and materials. c) Remove resources from the previous run which are not needed to an appropriate place. d) Ensure plant surfaces that are in contact with ingredients and product are clean. e) Assemble required resources in the correct place before changeover begins and make sure they meet specification before the changeover begins. f) Obtain the necessary information about the changeover at the appropriate time and alert those who need to be involved. g) Obtain the required authorisation, if appropriate, before changeover begins.		

Unit XXXX 04 (242)

Carry Out Product Changeovers in Food Manufacture

		Evidence Requirements (cont)
	Carry out changeovers	Evidence of carrying out changeovers in accordance with workplace procedures.
	This means you:	
2	 (a) Carry out according to the legal or regulatory requirements, the organisational health and safety, hygiene and environmental standards and instructions. (b) Adjust plant and equipment to conform to specification and without affecting any other part of the plant. (c) Maintain effective communication where required. 	
	Complete changeovers	Evidence of completing changeovers in
	m:	accordance with workplace procedures.
	This means you:	This must include taking two types of
3	(a) Complete according to the legal or regulatory requirements, the organisational health and safety, hygiene and environmental standards and instructions.	appropriate action eg cleaning, checking for wear and damage and storing.
	(b) Inform those who need to know that changeover is complete.	
	(c) Take appropriate action when change parts are removed.	
	(d) Report the condition of worn or damaged parts to the relevant person.	
	(e) Complete the changeover within the specified time.	
	(f) Ensure that, following changeover, output matches specification and is produced at the required rate.	
	(g) Complete all records promptly and accurately.	

Unit XXXX 04 (242)

Carry Out Product Changeovers in Food Manufacture

Evidence of Performance

Evidence of performance may employ examples of the following assessment:

- ♦ observation
- written and oral questioning
- evidence from company systems (eg Food Safety Management System)
- reviewing the outcomes of work
- ♦ checking any records of documents completed
- checking accounts of work that the candidate or others have written

Unit XXXX 04 (242) Carry Out Product Changeovers in Food Manufacture

Evidence of knowledge and understanding should be collected during observation of performance in the workplace. Where it cannot be collected by observing performance, other assessment methods should be used. K1 The legal or regulatory requirements, the organisational health and safety, hygiene and environmental standards and instructions and what may happen if they are not followed. K2 The need for authorisation to work, isolation of equipment and services and what may happen if this is not done correctly. K3 What recording and communication is needed and how to carry this out correctly and the reasons why it is important to do so. K4 What the limits of your own authority and competence are and why it is important to work within them. K5 Why the changeover is taking place. K6 Where to obtain and how to interpret specifications and what may happen if this is not done correctly. K7 What the purpose and use is of machine isolation guards, interlocks and safety locks. K8 Functions and use of machine parts, tools and equipment needed for changeovers. K9 What materials and resources are required and how to check their suitability. K10 Time allowed for changeovers. K11 Difficulties which might arise during changeovers and action to be taken in each case. K12 The need for cleaning and what may happen if this is not done when required. K13 Critical control settings and their effect on production volumes and quality. K14 What action to take when problems arise. K15 How to recognise wear and tear on change parts. K16 Why it is important to notify the relevant person that a changeover has been completed and what may happen if this is not done. K17 The appropriate action to take when change parts are removed and what may happen if this is not done.	T 7
